Sur la comparaison des produits et/ou services : (suite)

Par ailleurs, cette identité des produits, associée à la similarité des noms, est de nature à créer une confusion chez les consommateurs entre les produits de la partie opposante et les produits dont la demande d'enregistrement est contestée.

Cette confusion est préjudiciable pour la partie opposante, bénéficiant d'une notoriété au niveau international, et d'enregistrements ou demandes d'enregistrement de la marque dans de nombreux pays, y compris le Maroc, et donc protégée en vertu de la législation en vigueur, et notamment par :

- l'article 137 de la loi 17-97: "Ne peut être adoptée comme marque un signe portant atteinte à des droits antérieurs, et notamment :

a. à une marque antérieure enregistrée ou notoirement connue au sens de l'article 6 bis de la Convention de Paris pour la protection de la propriété industrielle;

b. à une dénomination ou raison sociale, s'il existe un risque de confusion dans l'esprit du public;

c. à un nom commercial ou à une enseigne connu sur l'ensemble du territoire national, s'il existe un risque de confusion dans l'esprit du public;

[...]"

- l'article 6bis de la Convention de Paris pour la protection de la propriété industrielle : " 1) Les pays de l'Union s'engagent, soit d'office si la législation du pays le permet, soit à la requête de l'intéressé, à refuser ou à invalider l'enregistrement et à interdire l'usage d'une marque de fabrique ou de commerce qui constitue la reproduction, l'imitation ou la traduction, susceptibles de créer une confusion, d'une marque que l'autorité compétente du pays de l'enregistrement ou de l'usage estimera y être notoirement connue comme étant déjà la marque d'une personne admise à bénéficier de la présente Convention et utilisée pour des produits identiques ou similaires. Il en sera de même lorsque la partie essentielle de la marque constitue la reproduction d'une telle marque notoirement connue ou une imitation susceptible de créer une confusion avec celle-ci."

Ainsi, les produits objets de la présente opposition sont en infraction avec la loi 17-97 relative à la protection de la propriété industrielle et notamment ses articles 154 et 155. Notre client est donc fondé à introduire une opposition à l'enregistrement de la marque objet de la présente, conformément à l'article 148.2 de la loi 17.97.

La partie opposante bénéficie d'une notoriété au niveau international, et est en outre détentrice de la marque "LUX MAESTRO" objet d'une demande d'enregistrement auprès de l'OMPIC sous le n°193349 en date du 09/04/2018 et relevant de la classe 25, avec le signe reproduit ci-dessous:

Sur la comparaison des signes (suite) :

Il apparaît clairement de la confrontation des éléments des deux marques ci-dessus que le produit contesté est une imitation de la marque de la partie opposante, marque qui dispose de la protection découlant d'une notoriété (au sens de l'article 6bis de la Convention de Paris pour la protection de la propriété industrielle). Cette imitation est manifeste aussi bien sur le plan graphique que sur le plan phonétique.

Sur le plan graphique, le nom de la marque d'origine "LUX MAESTRO" est reproduit quasi à l'identique par la marque contestée "LUX", avec une légère et insignifiante variation: la suppression du deuxième mot du nom de la marque d'origine "MAESTRO". Par ailleurs, le mot "LUX" qui constitue la séquence la plus importante dans le nom de la marque est reproduit à l'identique par le nom de la marque contestée. Ces modifications peuvent facilement être imperceptibles et passer inaperçues chez le consommateur, créant ainsi une confusion entre les deux marques, ou faisant plutôt profiter la marque contestée de la notoriété de la marque d'origine.

Sur le plan phonétique, la reproduction quasi à l'identique de la séquence formant le nom de la marque d'origine "LUX MAESTRO", même en introduisant une variation marginale et insignifiante : la suppression de la deuxième partie de la composante du nom de la marque d'origine "MAESTRO", sachant que la première partie de la séquence est reproduite à l'identique. Ainsi, la séquence de lettres constituant le nom de la marque contestée produit une sonorité très proche de la sonorité produite par la séquence de lettres formant le nom de la marque d'origine. Cette similarité est de nature à créer une confusion entre les deux produits, induisant ainsi en erreur le consommateur.

8. EXPOSE DES MOYENS SUR LESQUELS REPOSE L'OPPOSITION (Cette rubrique est à remplir car l'OMPIC statue sur l'opposition au vu des arguments fournis). (suite)

Sur la la notoriété (le cas échéant) :

La partie opposante est notoirement connue, au sens de l'article 6bis de la Convention de Paris pour la protection de la propriété industrielle. Cette notoriété s'est construite et consolidée au fil de longues années d'exploitation publique, notoire et paisible de la marque, attestée par de nombreuses campagnes de réclame et de publicité pour le produit, utilisant les formats et les supports les plus variés. La grande notoriété de la marque de la partie opposante est attestée en outre par l'enregistrement ou la demande d'enregistrement de la marque et de ses déclinaisons dans plusieurs pays, dont le Maroc. (voir quelques extraits de la publicité de la marque et de ses différents enregistrements en annexe à la présente opposition).

En vue de tous ces éléments, l'infraction de contrefaçon est établie de manière claire et incontestable, à travers ses éléments légal, matériel et intentionnel :

- L'élément légal : l'agissement de la marque contestée constitue une contrefaçon selon l'article 201 de la loi 17-97 relative à la protection de la propriété industrielle : "Toute atteinte portée aux droits du propriétaire d'un brevet d'invention, d'un schéma de configuration (topographique) de circuits intégrés, d'un dessin ou modèle industriel enregistré, d'une marque de fabrique, de commerce ou de service enregistrée, ou d'une indication géographique ou d'une appellation d'origine telle que définie respectivement aux articles 53, 54, 99, 123, 124, 154, 155 et 182 ci-dessus constitue une contrefaçon."

La marque contestée est en outre en infraction avec :

- l'article 154 de la loi 17-97 : "Sont interdits, sauf autorisation du propriétaire :

a. la reproduction, l'usage ou l'apposition d'une marque, même avec l'adjonction de mots tels que : "formule, façon, système, imitation, "genre, méthode", ainsi que l'usage d'une marque reproduite ou d'un signe identique à cette marque, pour des produits ou services identiques à ceux couverts par l'enregistrement;

b. la suppression ou la modification d'une marque régulièrement apposée."

- l'article 155 de la loi 17-97 : "Sont interdits, sauf autorisation du propriétaire, s'il peut en résulter un risque de

confusion dans l'esprit du public :

a. la reproduction, l'usage ou l'apposition d'une marque reproduite ou d'un signe identique ou similaire pour des

produits ou services similaires ou relatifs à ceux couverts par l'enregistrement;

b. l'imitation d'une marque et l'usage d'une marque imitée, pour des produits ou services identiques ou similaires à

ceux couverts par l'enregistrement."

- L'élément matériel : Il apparaît clairement de la comparaison des signes des deux marques telle que détaillée plus haut, que la marque contestée reproduit de manière similaire, quasi identique, le signe de la marque de la partie opposante protégée par un enregistrement et notoirement connue, pour un produit de la même classe, ce qui peut incontestablement créer une confusion dans l'esprit du public.

Ainsi, il est indéniable que la marque objet de la présente opposition est en infraction manifeste vis-à-vis de nombreuses dispositions de la législation en vigueur, et que donc la partie opposante est parfaitement admise à formuler la présente requête conformément à l'article 148.2 de la loi 17-97 relative à la protection de la propriété industrielle.
