CORRESPONDENT E-MAIL ADDRESS:

OFFICE ACTION

STRICT DEADLINE TO RESPOND TO THIS LETTER

INTERNATIONAL REGISTRATION NO. 1426418

STRICT DEADLINE TO RESPOND TO THIS NOTIFICATION: TO AVOID ABANDONMENT OF THE REQUEST FOR EXTENSION OF PROTECTION OF THE INTERNATIONAL REGISTRATION, THE USPTO MUST RECEIVE A COMPLETE RESPONSE TO THIS PROVISIONAL FULL REFUSAL NOTIFICATION **WITHIN 6 MONTHS** OF THE "DATE ON WHICH THE NOTIFICATION WAS SENT TO WIPO (MAILING DATE)" LOCATED ON THE WIPO COVER LETTER ACCOMPANYING THIS NOTIFICATION.

In addition to the Mailing Date appearing on the WIPO cover letter, a holder (hereafter "applicant") may confirm this Mailing Date using the USPTO's Trademark Status and Document Retrieval (TSDR) system at <http://tsdr.uspto.gov/>. To do so, enter the U.S. application serial number for this application and then select "Documents." The Mailing Date used to calculate the response deadline for this provisional full refusal is the "Create/Mail Date" of the "IB-1st Refusal Note."

This is a **PROVISIONAL FULL REFUSAL** of the request for extension of protection of the mark in the above-referenced U.S. application. See 15 U.S.C. §1141h(c). See below in this notification (hereafter "Office action") for details regarding the provisional full refusal.

The referenced application has been reviewed by the assigned trademark examining attorney. Applicant must respond timely and completely to the issue(s) below. 15 U.S.C. §1062(b); 37 C.F.R. §§2.62, 2.65(a); TMEP §§711, 718.03.

The applicant must address the following issues:

- **Section 2(d) refusal**
- **Identification of goods requirement**
- **Mark description requirement**

SUBSTANTIVE REFUSAL

Section 2(d) Refusal – Likelihood of Confusion

Registration of the applied-for mark is refused because of a likelihood of confusion with the mark in U.S. Registration No. 2494905. Trademark Act Section 2(d), 15 U.S.C. §1052(d); see TMEP §§1207.01 *et seq.* See the enclosed registration.

The applicant has applied to register CORENRG with design for "Acne treatment preparations; adhesive plasters; albumin dietary supplements; albuminous foodstuffs for medical purposes; albuminous preparations for medical purposes; alginate dietary supplements; aloe vera preparations for pharmaceutical purposes; amino acids for medical purposes; antibacterial handwashes; antibacterial soap; antiseptics; antiseptic cotton; antioxidant pills; anti-uric preparations; appetite suppressant pills; appetite suppressants for medical purposes; asthmatic tea; barks for pharmaceutical purposes; bath salts for medical purposes; biological preparations for medical purposes; candy for medical purposes; candy, medicated; casein dietary supplements;

chemico-pharmaceutical preparations; chewing gum for medical purposes; chilblain preparations; cod liver oil; collyrium; decoctions for pharmaceutical purposes; depuratives; dietetic beverages adapted for medical purposes; dietetic foods adapted for medical purposes; dietetic substances adapted for medical use; dietary fiber; digestives for pharmaceutical purposes; disinfectants for hygiene purposes; elixirs [pharmaceutical preparations]; enzyme dietary supplements; enzyme preparations for medical purposes; eucalyptus for pharmaceutical purposes; febrifuges; ferments for pharmaceutical purposes; flour for pharmaceutical purposes; frostbite salve for pharmaceutical purposes; food for babies; gauze for dressings; gelatine for medical purposes; glucose dietary supplements; glucose for medical purposes; hematogen; herbal teas for medicinal purposes; homogenized food adapted for medical purposes; immunostimulants; infant formula; lactose for pharmaceutical purposes; lacteal flour for babies; lecithin dietary supplements; liniments; linseed dietary supplements; linseed for pharmaceutical purposes; linseed oil dietary supplements; lotions for pharmaceutical purposes; lyophilized food adapted for medical purposes; medical preparations for slimming purposes; medicated after-shave lotions; medicated dentifrices; medicated dry shampoos; medicated hair lotions; medicated shampoos; medicated soap; medicated toiletry preparations; medicinal drinks; medicinal herbs; medicinal infusions; medicinal mud; medicinal oils; medicinal roots; medicinal tea; medicines for human purposes; milk ferments for pharmaceutical purposes; mineral food supplements; mineral waters for medical purposes; mouthwashes for medical purposes; mud for baths; mustard plasters; nervines; nutraceutical preparations for therapeutic or medical purposes; nutritional supplements; ointments for pharmaceutical purposes; pastilles for pharmaceutical purposes; pearl powder for medical purposes; petroleum jelly for medical purposes; pharmaceuticals; pharmaceutical preparations; pharmaceutical preparations for skin care; pharmaceutical preparations for treating sunburn; phytotherapy preparations for medical purposes; plant extracts for pharmaceutical purposes; pollen dietary supplements; pomades for medical purposes; powdered milk for babies; preparations for the treatment of burns; preparations of trace elements for human and animal use; propolis dietary supplements; propolis for pharmaceutical purposes; protein dietary supplements; purgatives; remedies for perspiration; royal jelly dietary supplements; royal jelly for pharmaceutical purposes; sea water for medicinal bathing; salts for medical purposes; salts for mineral water baths; serums; slimming pills; sugar for medical purposes; sunburn ointments; syrups for pharmaceutical purposes; tanning pills; therapeutic preparations for the bath; thermal water; tinctures for medical purposes; tissues impregnated with pharmaceutical lotions; tonics [medicines]; vitamin preparations; wadding for medical purposes; wheat germ dietary supplements; yeast dietary supplements; yeast for pharmaceutical purposes” in Class 005.

The registered mark is CORENERGY for “nutritional supplements” in Class 005.

Trademark Act Section 2(d) bars registration of an applied-for mark that so resembles a registered mark that it is likely that a potential consumer would be confused, mistaken, or deceived as to the source of the goods and/or services of the applicant and registrant. See 15 U.S.C. §1052(d). In the seminal decision *In re E. I. du Pont de Nemours & Co.*, 476 F.2d 1357, 177 USPQ 563 (C.C.P.A. 1973), the court listed the principal factors to be considered when determining whether there is a likelihood of confusion under Section 2(d). See TMEP §1207.01. However, not all the factors are necessarily relevant or of equal weight, and any one of the factors may control in a given case, depending upon the evidence of record. *Citigroup Inc. v. Capital City Bank Grp., Inc.*, 637 F.3d 1344, 1355, 98 USPQ2d 1253, 1260 (Fed. Cir. 2011); *In re Majestic Distilling Co.*, 315 F.3d 1311, 1315, 65 USPQ2d 1201, 1204 (Fed. Cir. 2003); see *In re E. I. du Pont de Nemours & Co.*, 476 F.2d at 1361-62, 177 USPQ at 567.

In this case, the following factors are the most relevant: similarity of the marks, similarity and nature of the goods and/or services, and similarity of the trade channels of the goods and/or services. See *In re Viterro Inc.*, 671 F.3d 1358, 1361-62, 101 USPQ2d 1905, 1908 (Fed. Cir. 2012); *In re Dakin's Miniatures Inc.*, 59 USPQ2d 1593, 1595-96 (TTAB 1999); TMEP §§1207.01 et seq.

Taking into account the relevant *du Pont* factors, a likelihood of confusion determination in this case involves a two-part analysis. See *In re E. I. du Pont de Nemours & Co.*, 476 F.2d 1357, 1361-62, 177 USPQ 563, 567 (C.C.P.A. 1973); *In re 1st USA Realty Prof'ls Inc.*, 84 USPQ2d 1581, 1584 (TTAB 2007); see also *In re Dixie Rests. Inc.*, 105 F.3d 1405, 1406-07, 41 USPQ2d 1531, 1533 (Fed. Cir. 1997). The marks are compared for similarities in their appearance, sound, connotation and commercial impression. TMEP §§1207.01, 1207.01(b). The goods and/or services are compared to determine whether they are similar or commercially related or travel in the same trade channels. See *Herbko Int'l, Inc. v. Kappa Books, Inc.*, 308 F.3d 1156, 1164-65, 64 USPQ2d 1375, 1380 (Fed. Cir. 2002); *Han Beauty, Inc. v. Alberto-Culver Co.*, 236 F.3d 1333, 1336, 57 USPQ2d 1557, 1559 (Fed. Cir. 2001); TMEP §§1207.01, 1207.01(a)(vi).

The Trademark Trial and Appeal Board and its primary reviewing court have used a stricter standard to determine likelihood of confusion for pharmaceuticals or medicinal products due to the potential harm or serious consequences that could be caused if the public confused one drug or medicinal product for another. See *Glenwood Labs., Inc. v. Am. Home Prods. Corp.*, 455 F.2d 1384, 1386-87, 173 USPQ 19, 21-22 (C.C.P.A. 1972); *Schering Corp. v. Alza Corp.*, 207 USPQ 504, 509 (TTAB 1980); *Ethicon, Inc. v. Am. Cyanamid Co.*, 192 USPQ 647, 651-52 (TTAB 1976); TMEP §1207.01(d)(xii). Although physicians and pharmacists are no doubt carefully trained to recognize differences in the characteristics of pharmaceuticals or medicinal products, they are not immune from mistaking similar trademarks used on these goods. See *Alfacell Corp. v. Anticancer Inc.*, 71 USPQ2d 1301, 1305-06 (TTAB 2004); *Blansett Pharmacal Co. v. Carmick Labs., Inc.*, 25 USPQ2d 1473, 1477 (TTAB 1992); *Schering Corp.*, 207 USPQ at 509. Thus, in this case where confusion could result in harm or other serious consequences to consumers, this potential harm is considered an additional relevant factor and a lesser degree of proof may be sufficient to establish a likelihood of confusion. See *Glenwood Labs., Inc.*, 455 F.2d at 1386-87, 173 USPQ at 21-22; *Schering Corp.*, 207 USPQ at 509; *Ethicon, Inc.*, 192 USPQ at 651-52; TMEP §1207.01(d)(xii).

Comparison of the Marks

Marks are compared in their entireties for similarities in appearance, sound, connotation, and commercial impression. *In re Viterro Inc.*, 671 F.3d 1358, 1362, 101 USPQ2d 1905, 1908 (Fed. Cir. 2012) (quoting *In re E. I. du Pont de Nemours & Co.*, 476 F.2d 1357, 1361, 177 USPQ 563, 567 (C.C.P.A. 1973)); TMEP §1207.01(b)-(b)(v). Similarity in any one of these elements may be sufficient to find the marks confusingly similar. *In re White Swan Ltd.*, 8 USPQ2d 1534, 1535 (TTAB 1988); see *In re 1st USA Realty Prof'ls, Inc.*, 84 USPQ2d 1581, 1586 (TTAB 2007); TMEP §1207.01(b).

In the present case, applicant's mark CORENRG is similar to the registered mark CORENERGY in sound, appearance, and connotation. There is no correct pronunciation of a mark because it is impossible to predict how the public will pronounce a particular mark. See *Embarcadero Techs., Inc. v. RStudio, Inc.*, 105 USPQ2d 1825, 1835 (TTAB 2013) (quoting *In re Viterro Inc.*, 671 F.3d 1358, 1367, 101 USPQ2d 1905, 1912 (Fed. Cir. 2012); *In re The Belgrade Shoe Co.*, 411 F.2d 1352, 1353, 162 USPQ 227, 227 (C.C.P.A. 1969)); TMEP §1207.01(b)(iv). The marks in question

could clearly be pronounced the same; such similarity in sound alone may be sufficient to support a finding that the marks are confusingly similar. *In re White Swan Ltd.*, 8 USPQ2d 1534, 1535 (TTAB 1988); see *In re 1st USA Realty Prof'ls, Inc.*, 84 USPQ2d 1581, 1586 (TTAB 2007); TMEP §1207.01(b)(iv).

Further, although the applicant's mark contains a design element, consumers are likely to place greater weight on the word portion of the mark. When evaluating a composite mark consisting of words and a design, the word portion is normally accorded greater weight because it is likely to make a greater impression upon purchasers, be remembered by them, and be used by them to refer to or request the goods and/or services. *In re Aquitaine Wine USA, LLC*, 126 USPQ2d 1181, 1184 (TTAB 2018) (citing *In re Viterra Inc.*, 671 F.3d 1358, 1362, 101 USPQ2d 1905, 1908 (Fed. Cir. 2012)); TMEP §1207.01(c)(ii). Thus, although marks must be compared in their entireties, the word portion is often considered the dominant feature and is accorded greater weight in determining whether marks are confusingly similar, even where the word portion has been disclaimed. *In re Viterra Inc.*, 671 F.3d at 1366-67, 101 USPQ2d at 1911 (citing *Giant Food, Inc. v. Nation's Foodservice, Inc.*, 710 F.2d 1565, 1570-71, 218 USPQ2d 390, 395 (Fed. Cir. 1983)).

Overall, the marks have the same commercial impression.

Comparison of Goods

The goods and/or services of the parties need not be identical or even competitive to find a likelihood of confusion. See *On-line Careline Inc. v. Am. Online Inc.*, 229 F.3d 1080, 1086, 56 USPQ2d 1471, 1475 (Fed. Cir. 2000); *Recot, Inc. v. Becton*, 214 F.3d 1322, 1329, 54 USPQ2d 1894, 1898 (Fed. Cir. 2000) ("[E]ven if the goods in question are different from, and thus not related to, one another in kind, the same goods can be related in the mind of the consuming public as to the origin of the goods."); TMEP §1207.01(a)(i).

The respective goods and/or services need only be "related in some manner and/or if the circumstances surrounding their marketing [be] such that they could give rise to the mistaken belief that [the goods and/or services] emanate from the same source." *Coach Servs., Inc. v. Triumph Learning LLC*, 668 F.3d 1356, 1369, 101 USPQ2d 1713, 1722 (Fed. Cir. 2012) (quoting *7-Eleven Inc. v. Wechsler*, 83 USPQ2d 1715, 1724 (TTAB 2007)); *Gen. Mills Inc. v. Fage Dairy Processing Indus. SA*, 100 USPQ2d 1584, 1597 (TTAB 2011); TMEP §1207.01(a)(i).

In the present case, applicant's "Acne treatment preparations; adhesive plasters; albumin dietary supplements; albuminous foodstuffs for medical purposes; albuminous preparations for medical purposes; alginate dietary supplements; aloe vera preparations for pharmaceutical purposes; amino acids for medical purposes; antibacterial handwashes; antibacterial soap; antiseptics; antiseptic cotton; antioxidant pills; anti-uric preparations; appetite suppressant pills; appetite suppressants for medical purposes; asthmatic tea; barks for pharmaceutical purposes; bath salts for medical purposes; biological preparations for medical purposes; candy for medical purposes; candy, medicated; casein dietary supplements; chemico-pharmaceutical preparations; chewing gum for medical purposes; chilblain preparations; cod liver oil; collyrium; decoctions for pharmaceutical purposes; depuratives; dietetic beverages adapted for medical purposes; dietetic foods adapted for medical purposes; dietetic substances adapted for medical use; dietary fiber; digestives for pharmaceutical purposes; disinfectants for hygiene purposes; elixirs [pharmaceutical preparations]; enzyme dietary supplements; enzyme preparations for medical purposes; eucalyptus for pharmaceutical purposes; febrifuges; ferments for pharmaceutical purposes; flour for pharmaceutical purposes; frostbite salve for pharmaceutical purposes; food for babies; gauze for dressings; gelatine for medical purposes; glucose dietary supplements; glucose for medical purposes; hematogen; herbal teas for medicinal purposes; homogenized food adapted for medical purposes; immunostimulants; infant formula; lactose for pharmaceutical purposes; lacteal flour for babies; lecithin dietary supplements; liniments; linseed dietary supplements; linseed for pharmaceutical purposes; linseed oil dietary supplements; lotions for pharmaceutical purposes; lyophilized food adapted for medical purposes; medical preparations for slimming purposes; medicated after-shave lotions; medicated dentifrices; medicated dry shampoos; medicated hair lotions; medicated shampoos; medicated soap; medicated toiletry preparations; medicinal drinks; medicinal herbs; medicinal infusions; medicinal mud; medicinal oils; medicinal roots; medicinal tea; medicines for human purposes; milk ferments for pharmaceutical purposes; mineral food supplements; mineral waters for medical purposes; mouthwashes for medical purposes; mud for baths; mustard plasters; nervines; nutraceutical preparations for therapeutic or medical purposes; nutritional supplements; ointments for pharmaceutical purposes; pastilles for pharmaceutical purposes; pearl powder for medical purposes; petroleum jelly for medical purposes; pharmaceuticals; pharmaceutical preparations; pharmaceutical preparations for skin care; pharmaceutical preparations for treating sunburn; phytotherapy preparations for medical purposes; plant extracts for pharmaceutical purposes; pollen dietary supplements; pomades for medical purposes; powdered milk for babies; preparations for the treatment of burns; preparations of trace elements for human and animal use; propolis dietary supplements; propolis for pharmaceutical purposes; protein dietary supplements; purgatives; remedies for perspiration; royal jelly dietary supplements; royal jelly for pharmaceutical purposes; sea water for medicinal bathing; salts for medical purposes; salts for mineral water baths; serums; slimming pills; sugar for medical purposes; sunburn ointments; syrups for pharmaceutical purposes; tanning pills; therapeutic preparations for the bath; thermal water; tinctures for medical purposes; tissues impregnated with pharmaceutical lotions; tonics [medicines]; vitamin preparations; wadding for medical purposes; wheat germ dietary supplements; yeast dietary supplements; yeast for pharmaceutical purposes." are related to registrant's "nutritional supplements" because the goods are the type sold to consumers seeking various types of supplements as well as pharmaceutical or medical goods. Specifically, both applicant and registrant have identified various types of related supplements, such as "albumin dietary supplements;" "alginate dietary supplements;" "casein dietary supplements;" "enzyme dietary supplements;" "glucose dietary supplements;" "lecithin dietary supplements;" "linseed dietary supplements;" "mineral food supplements;" "nutritional supplements;" "pollen dietary supplements;" "propolis dietary supplements;" "protein dietary supplements;" "royal jelly dietary supplements;" "wheat germ dietary supplements;" and "yeast dietary supplements."

The trademark examining attorney has attached evidence from the USPTO's X-Search database consisting of a number of third-party marks registered for use in connection with the same or similar goods and/or services as those of both applicant and registrant in this case. This evidence shows that the goods and/or services listed therein, namely various goods identified by the applicant and nutritional supplements, are of a kind that may emanate from a single source under a single mark. See *In re I-Coat Co.*, 126 USPQ2d 1730, 1737 (TTAB 2018) (citing *In re Infinity Broad. Corp.*, 60 USPQ2d 1214, 1217-18 (TTAB 2001); *In re Albert Trostel & Sons Co.*, 29 USPQ2d 1783, 1785-86 (TTAB 1993); *In re Mucky Duck Mustard Co.*, 6 USPQ2d 1467, 1470 n.6 (TTAB 1988)); TMEP §1207.01(d)(iii).

Accordingly, the goods and/or services would be sold to the same class of purchasers and encountered under circumstances leading one to mistakenly believe the goods and/or services originate from the same source.

Since the marks are similar and the goods and/or services are related, there is a likelihood of confusion as to the source of the applicant's goods and/or services. Therefore, applicant's mark is not entitled to registration.

Although applicant's mark has been refused registration, applicant may respond to the refusal(s) by submitting evidence and arguments in support of registration.

If applicant responds to the refusal(s), applicant must also respond to the requirement(s) set forth below.

PROCEDURAL ISSUES

Identification of Goods and/or Services Requirement

International Class 005: Applicant has identified the goods and/or services as "Acne treatment preparations; adhesive plasters; albumin dietary supplements; albuminous foodstuffs for medical purposes; albuminous preparations for medical purposes; alginate dietary supplements; aloe vera preparations for pharmaceutical purposes; amino acids for medical purposes; antibacterial handwashes; antibacterial soap; antiseptics; antiseptic cotton; antioxidant pills; anti-uric preparations; appetite suppressant pills; appetite suppressants for medical purposes; asthmatic tea; barks for pharmaceutical purposes; bath salts for medical purposes; biological preparations for medical purposes; candy for medical purposes; candy, medicated; casein dietary supplements; chemico-pharmaceutical preparations; chewing gum for medical purposes; chilblain preparations; cod liver oil; collyrium; decoctions for pharmaceutical purposes; depuratives; dietetic beverages adapted for medical purposes; dietetic foods adapted for medical purposes; dietetic substances adapted for medical use; dietary fiber; digestives for pharmaceutical purposes; disinfectants for hygiene purposes; elixirs [pharmaceutical preparations]; enzyme dietary supplements; enzyme preparations for medical purposes; eucalyptus for pharmaceutical purposes; febrifuges; ferments for pharmaceutical purposes; flour for pharmaceutical purposes; frostbite salve for pharmaceutical purposes; food for babies; gauze for dressings; gelatine for medical purposes; glucose dietary supplements; glucose for medical purposes; hematogen; herbal teas for medicinal purposes; homogenized food adapted for medical purposes; immunostimulants; infant formula; lactose for pharmaceutical purposes; lacteal flour for babies; lecithin dietary supplements; liniments; linseed dietary supplements; linseed for pharmaceutical purposes; linseed oil dietary supplements; lotions for pharmaceutical purposes; lyophilized food adapted for medical purposes; medical preparations for slimming purposes; medicated after-shave lotions; medicated dentifrices; medicated dry shampoos; medicated hair lotions; medicated shampoos; medicated soap; medicated toiletry preparations; medicinal drinks; medicinal herbs; medicinal infusions; medicinal mud; medicinal oils; medicinal roots; medicinal tea; medicines for human purposes; milk ferments for pharmaceutical purposes; mineral food supplements; mineral waters for medical purposes; mouthwashes for medical purposes; mud for baths; mustard plasters; nervines; nutraceutical preparations for therapeutic or medical purposes; nutritional supplements; ointments for pharmaceutical purposes; pastilles for pharmaceutical purposes; pearl powder for medical purposes; petroleum jelly for medical purposes; pharmaceuticals; pharmaceutical preparations; pharmaceutical preparations for skin care; pharmaceutical preparations for treating sunburn; phytotherapy preparations for medical purposes; plant extracts for pharmaceutical purposes; pollen dietary supplements; pomades for medical purposes; powdered milk for babies; preparations for the treatment of burns; preparations of trace elements for human and animal use; propolis dietary supplements; propolis for pharmaceutical purposes; protein dietary supplements; purgatives; remedies for perspiration; royal jelly dietary supplements; royal jelly for pharmaceutical purposes; sea water for medicinal bathing; salts for medical purposes; salts for mineral water baths; serums; slimming pills; sugar for medical purposes; sunburn ointments; syrups for pharmaceutical purposes; tanning pills; therapeutic preparations for the bath; thermal water; tinctures for medical purposes; tissues impregnated with pharmaceutical lotions; tonics [medicines]; vitamin preparations; wadding for medical purposes; wheat germ dietary supplements; yeast dietary supplements; yeast for pharmaceutical purposes."

The identification of goods and/or services contains brackets. Generally, parentheses and brackets should *not* be used in identifications. TMEP §1402.12. The USPTO generally uses brackets to indicate goods and/or services that have been deleted from registrations. *See id.* Parenthetical information is permitted in identifications only if it serves to explain or translate the matter immediately preceding the parenthetical phrase in such a way that it does not affect the clarity of the identification, e.g., "obi (Japanese sash)." *Id.*

Therefore, applicant must remove the brackets from the identification and incorporate any parenthetical or bracketed information into the description of the goods and/or services.

The identification of goods and/or services is indefinite and must be clarified because various elements in the wording are excessively broad and may include goods/services in multiple international classes. The examining attorney notes below in bold where additional specification/clarification is needed. *See* TMEP §§1402.01, 1402.03(a).

Applicant may amend the identification to list only those items that are within the scope of the goods and/or services set forth in the application or within the scope of a previously accepted amendment to the identification. *See* 37 C.F.R. §2.71(a); TMEP §§1402.06 *et seq.*, 1402.07.

The international classification of goods and/or services in applications filed under Trademark Act Section 66(a) cannot be changed from the classification the International Bureau assigned to the goods and/or services in the corresponding international registration. TMEP §§1401.03(d), 1904.02(b).

Therefore, any modification to this wording must identify goods and/or services that are within the scope of the goods and/or services set forth in the present identification.

The following substitute wording is suggested, if appropriate:

- Class 005: Acne treatment preparations; adhesive plasters for {specify purpose, e.g., medical purposes}; albumin dietary supplements; albuminous foodstuffs for medical purposes, **namely, {specify type by common commercial name in Class 005}**; albuminous preparations for medical purposes, **namely, {specify type by common commercial name in Class 005}**; alginate dietary supplements; aloe vera preparations for pharmaceutical purposes; amino acids for medical purposes; antibacterial handwashes; antibacterial soap; antiseptics; antiseptic cotton; antioxidant pills as {specify type, e.g., food supplements, veterinary preparations, etc.}; anti-uric preparations; appetite suppressant pills; appetite suppressants for medical purposes; asthmatic tea; {specify type, e.g., angostura, croton, myrobalan, etc.} barks for pharmaceutical purposes; bath salts for medical purposes; biological preparations for medical purposes for the treatment of {specify disease or physical condition, e.g., cancer, etc.}; candy for medical purposes; candy, medicated; casein dietary supplements; chemico-pharmaceutical preparations for the treatment of {specify disease or physical condition, e.g., cancer, etc.}; chewing gum for medical purposes; chilblain preparations; cod liver oil; collyrium; decoctions for pharmaceutical purposes for the treatment of {indicate specific condition or illness, e.g., insomnia, neuropathic pain, sinus congestion, etc.}; depuratives for {specify use, e.g., body}; dietetic beverages adapted for medical purposes; dietetic foods adapted for medical purposes; dietetic substances in the nature of {specify type, e.g., dietetic beverages, dietetic foods, etc.} adapted for medical use; dietary fiber {specify purpose, e.g., for treating constipation, to aid digestion, etc.}; digestives for pharmaceutical purposes; disinfectants for hygiene purposes; **Pharmaceutical preparations, namely, elixirs for the treatment of {specify disease to be treated}**; enzyme dietary supplements; enzyme preparations for medical purposes; eucalyptus for pharmaceutical purposes; febrifuges; ferments for pharmaceutical purposes; flour for pharmaceutical purposes; frostbite salve for pharmaceutical purposes; food for babies; gauze for dressings; gelatine for medical purposes, **namely, {specify type by common commercial name}**; glucose dietary supplements; glucose for medical purposes; hematogen, **namely, {specify type by common commercial name}**; herbal teas for medicinal purposes; homogenized food adapted for medical purposes; immunostimulants; infant formula; lactose for medical purposes; lacteal flour for babies; lecithin dietary supplements; liniments; linseed dietary supplements; linseed {specify type, e.g., oil} for pharmaceutical purposes; linseed oil dietary supplements; lotions for pharmaceutical purposes, **namely, {specify type, e.g., medicated hair lotions, calamine lotions, etc.}**; lyophilized food adapted for medical purposes; medical preparations for slimming purposes; medicated after-shave lotions; medicated dentifrices; medicated dry shampoos; medicated hair lotions; medicated shampoos; medicated soap; medicated toiletry preparations; medicinal drinks; medicinal herbs; medicinal infusions for treating {specify disease or conditions}; medicinal mud; medicinal oils; medicinal roots; medicinal tea; medicines for human purposes for treating {specify disease or conditions}; milk ferments for pharmaceutical purposes; mineral food supplements; mineral waters for medical purposes; mouthwashes for medical purposes; {specify type, e.g., medicinal} mud for baths; mustard plasters; nervines, **namely, {specify type by common commercial name}**; nutraceutical preparations for therapeutic or medical purposes for the treatment of {specify condition or illness}; nutritional supplements; {specify type, e.g., medicated sunburn, hemorrhoidal, anti-itch, etc.} ointments for pharmaceutical purposes; {specify type, e.g., cough} pastilles for pharmaceutical purposes; pearl powder for medical purposes; petroleum jelly for medical purposes; pharmaceutical preparations for the treatment of {specify condition or illness};; pharmaceutical preparations for the treatment of {specify condition or illness};; pharmaceutical preparations for skin care; pharmaceutical preparations for treating sunburn; phytotherapy preparations for medical purposes; plant extracts for pharmaceutical purposes; pollen dietary supplements; pomades for medical purposes; powdered milk for babies; preparations for the treatment of burns; preparations of trace elements for human and animal use, **namely, {specify type by common commercial name}**; propolis dietary supplements; propolis for pharmaceutical purposes; protein dietary supplements; purgatives; remedies for perspiration, **namely, {specify type by common commercial name, e.g., medicated antiperspirant soap}**; royal jelly dietary supplements; royal jelly for pharmaceutical purposes; sea water for medicinal bathing; {specify type, e.g., bath, Epsom, smelling, etc.} salts for medical purposes; salts for mineral water baths for {specify type, e.g., medical purposes}; **Medicated serums for treatment of {indicate nature of serums, e.g., hair, skin, lips}**; **medicated preparations in pill form for slimming purposes**; sugar for medical purposes; {specify type, e.g., medicated} sunburn ointments; syrups for pharmaceutical purposes for the treatment of {indicate specific disease or condition}; tanning pills, **namely, {specify type by common commercial name}**; therapeutic {specify type, e.g., medicated} preparations for the bath; thermal water in the nature of {specify type} for the treatment of {indicate specific disease or condition}; tinctures, **namely, {specify type, e.g., herbal tinctures, tincture of iodine, etc.}** for medical purposes; tissues impregnated with pharmaceutical {specify type, e.g., skin} lotions; tonics, **namely, {specify type by common commercial name}**; vitamin preparations; wadding for medical purposes; wheat germ dietary supplements; yeast dietary supplements; yeast for pharmaceutical purposes.

For assistance with identifying and classifying goods and/or services in trademark applications, please see the online searchable Manual of Acceptable Identifications of Goods and Services at <http://tess2.uspto.gov/netahtml/idxm.html>. See TMEP §1402.04.

Mark Description Requirement

Applicant must submit a description of the mark, because one was not included in the application. 37 C.F.R. §2.37; see TMEP §§808.01, 808.02. Applications for marks not in standard characters must include an accurate and concise description of the entire mark that identifies all the literal and design elements. See 37 C.F.R. §2.37; TMEP §§808.01, 808.02, 808.03(b). In this case, the drawing of the mark is not in standard characters.

The following description is suggested, if accurate:

- The mark consists of the stylized word “CORENRG” with the term “COREN” in blue and the letters “RG” in white inside of a blue circle.

RESPONSE GUIDELINES

For this application to proceed toward registration, applicant must explicitly address each refusal and/or requirement raised in this Office action. If the action includes a refusal, applicant may provide arguments and/or evidence as to why the refusal should be withdrawn and the mark should register. Applicant may also have other options for responding to a refusal and should consider such options carefully. To respond to requirements and certain

refusal response options, applicant should set forth in writing the required changes or statements.

If applicant does not respond to this Office action within six months of the issue/mailed date, or responds by expressly abandoning the application, the application process will end, the trademark will fail to register, and the application fee will not be refunded. See 15 U.S.C. §1062(b); 37 C.F.R. §§2.65(a), 2.68(a), 2.209(a); TMEP §§405.04, 718.01, 718.02. Where the application has been abandoned for failure to respond to an Office action, applicant's only option would be to file a timely petition to revive the application, which, if granted, would allow the application to return to live status. See 37 C.F.R. §2.66; TMEP §1714. There is a \$100 fee for such petitions. See 37 C.F.R. §§2.6, 2.66(b)(1).

Please call or email the assigned trademark examining attorney with questions about this Office action. Although the trademark examining attorney cannot provide legal advice or statements about applicant's rights, the trademark examining attorney can provide applicant with additional explanation about the refusal(s) and/or requirement(s) in this Office action. See TMEP §§705.02, 709.06. Although the USPTO does not accept emails as responses to Office actions, emails can be used for informal communications and will be included in the application record. See 37 C.F.R. §§2.62(c), 2.191; TMEP §§304.01-.02, 709.04-.05.

WHO IS PERMITTED TO RESPOND TO THIS PROVISIONAL FULL REFUSAL: Any response to this provisional refusal must be personally signed by an individual applicant, all joint applicants, or someone with legal authority to bind a juristic applicant (e.g., a corporate officer or general partner). 37 C.F.R. §§2.62(b), 2.193(e)(2)(ii); TMEP §712.01. If applicant hires a qualified U.S. attorney to respond on his or her behalf, then the attorney must sign the response. 37 C.F.R. §§2.193(e)(2)(i), 11.18(a); TMEP §§611.03(b), 712.01. Qualified U.S. attorneys include those in good standing with a bar of the highest court of any U.S. state, the District of Columbia, Puerto Rico, and other U.S. commonwealths or U.S. territories. See 37 C.F.R. §§2.17(a), 2.62(b), 11.1, 11.14(a); TMEP §§602, 712.01. Additionally, for all responses, the proper signatory must personally sign the document or personally enter his or her electronic signature on the electronic filing. See 37 C.F.R. §2.193(a); TMEP §§611.01(b), 611.02. The name of the signatory must also be printed or typed immediately below or adjacent to the signature, or identified elsewhere in the filing. 37 C.F.R. §2.193(d); TMEP §611.01(b).

In general, foreign attorneys are not permitted to represent applicants before the USPTO (e.g., file written communications, authorize an amendment to an application, or submit legal arguments in response to a requirement or refusal). See 37 C.F.R. §11.14(c), (e); TMEP §§602.03-.03(b), 608.01.

DESIGNATION OF DOMESTIC REPRESENTATIVE: The USPTO encourages applicants who do not reside in the United States to designate a domestic representative upon whom any notice or process may be served. TMEP §610; see 15 U.S.C. §§1051(e), 1141h(d); 37 C.F.R. §2.24(a)(1)-(2). Such designations may be filed online at <http://www.uspto.gov/trademarks/teas/correspondence.jsp>.

mayur.vaghani@uspto.gov

TO RESPOND TO THIS LETTER: Go to http://www.uspto.gov/trademarks/teas/response_forms.jsp. Please wait 48-72 hours from the issue/mailed date before using the Trademark Electronic Application System (TEAS), to allow for necessary system updates of the application. For technical assistance with online forms, e-mail TEAS@uspto.gov. For questions about the Office action itself, please contact the assigned trademark examining attorney. **E-mail communications will not be accepted as responses to Office actions; therefore, do not respond to this Office action by e-mail.**

All informal e-mail communications relevant to this application will be placed in the official application record.

WHO MUST SIGN THE RESPONSE: It must be personally signed by an individual applicant or someone with legal authority to bind an applicant (i.e., a corporate officer, a general partner, all joint applicants). If an applicant is represented by an attorney, the attorney must sign the response.

PERIODICALLY CHECK THE STATUS OF THE APPLICATION: To ensure that applicant does not miss crucial deadlines or official notices, check the status of the application every three to four months using the Trademark Status and Document Retrieval (TSDR) system at <http://tsdr.uspto.gov/>. Please keep a copy of the TSDR status screen. If the status shows no change for more than six months, contact the Trademark Assistance Center by e-mail at TrademarkAssistanceCenter@uspto.gov or call 1-800-786-9199. For more information on checking status, see <http://www.uspto.gov/trademarks/process/status/>.

TO UPDATE CORRESPONDENCE/E-MAIL ADDRESS: Use the TEAS form at <http://www.uspto.gov/trademarks/teas/correspondence.jsp>.

Bios  **ntec**

The logo is set within a black rectangular frame with rounded top and bottom edges. A white horizontal band is positioned below the text. The word 'Bios' is in a bold, sans-serif font, and 'ntec' is in a similar font but with a lowercase 'n'. A stylized white plant with two leaves is positioned between the two words.
