2. AIWA CO., LTD. — companie publică, înregistrată în Japonia în anul 1951. Domeniul de activitate de bază a companiei în momentul înființării acesteia a fost dezvoltarea și producerea microfoanelor, însă deja în anul 1964 compania a lansat primul în Japonia recorder de casetă TP-707. Recordere de casetă, playere și plăci de sunete devin produsele de bază a companiei pînă la sfîrșitul anilor 1970. Compania AIWA CO., LTD. a devenit primul producător creator de recorder de casetă cu funcție de înregistrare, popularele sistemele mini Hi-Fi, CD-recordere cu schimbător de 3 discuri și multe alte dispozitive inovatoare, care au devenit standarde pentru piața electronică mondială. De la bun început, toată gama de produse a Companiei este lansată sub brandul AIWA, care reproduce partea distinctivă a numelui comercial a companiei AIWA CO., LTD.

Din februarie anului 1969 se încheie istoria companiei AIWA ca companie independentă: miza de control a fost achiziționată de către renumita corporație Sony Corporation. Susținerea financiară din partea Sony Corporation a ajutat să mărească ritmul creșterii companiei AIWA și a adus produsele acesteia pe piața internațională. Deja în decembrie anului 1970 a fost deschisă prima întreprindere străină cu participația companiei – AIWA/Dransfield & Co. Aceasta întreprindere mixtă a fost deschisă în Hong Kong.

Mai puțin de zece ani mai târziu a început activitatea nemijlocită pe piețele Europene – în august anului 1976 a fost deschisă reprezentanță în Marea Britanie, și exact peste un an – în Germania, iar încă peste un an – în America. În rezultatul reprezentanțelor au fost deschise și uzinele companiei în mai mult de zece țări ale lumii.

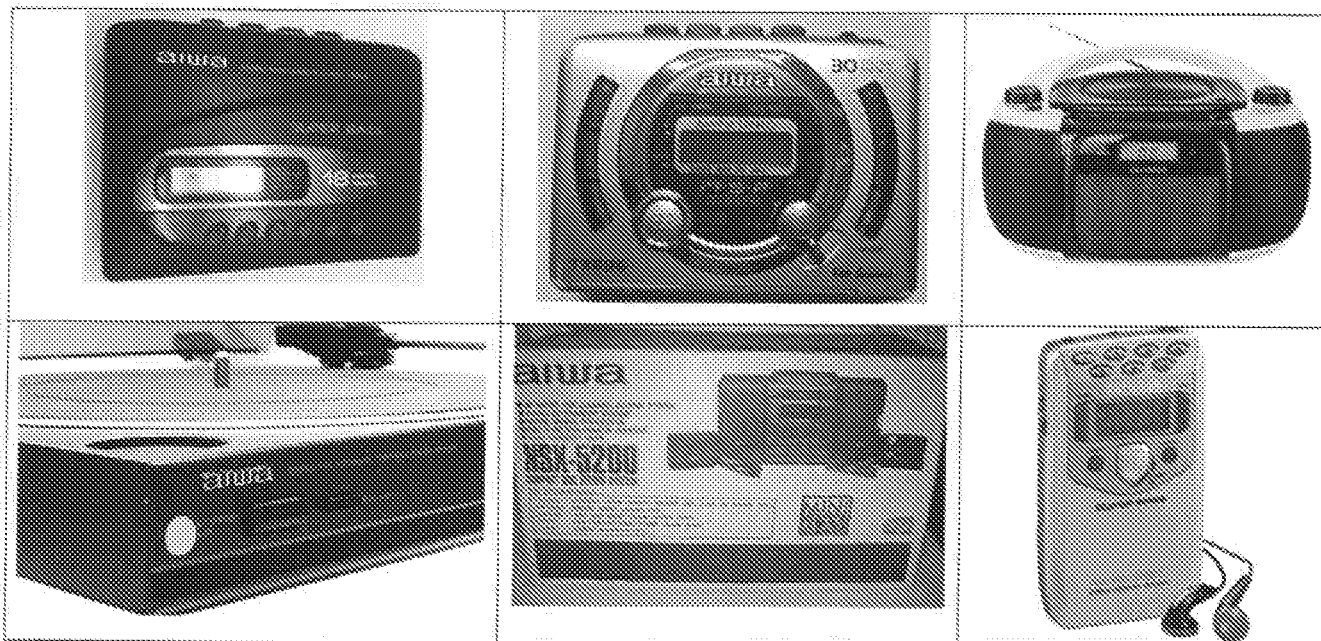

În anul 1987 de către companie a fost dezvoltată primul în lume DAT-recorder XD-001, care a influențat asupra dezvoltării dispozitivelor de păstrare a informației. Gama de produse se extindea, și în anul 1988 AIWA începe activitatea pe piața modemelor profesionale. Atunci a fost prezentat primul modem PV-H2400 cu viteza de 4800 bit/s.

Cu toate acestea, accentul principal asupra căruia se concentrează AIWA a fost și rămîne tehnologia de păstrare a informației digitale pe suport magnetic. În anul 1989 la întreprinderile corporației au început să producă cele mai portabile în lume DAT-recordere HD-X1.

La începutul anilor 1990 AIWA a continuat să-și extindă linia de produse. La mijlocul anului 1993 compania a obținut controlul asupra companiei Core International, Inc, unul dintre producătorii de periferice pentru calculatoare în SUA. Pe lângă aceasta, compania a obținut succes prin lansarea gamei de televizoare combo (TV-VCR) pe piața video tehnicii, în care pe lângă instalarea de video recordere în unele modele, se instalau tunere prin satelit și receptoarele bilingve. Datorită gamei largi de modele de televizoare combo, compania AIWA a reușit să capteze o mare parte a pieții.

Cele mai reușite produse ale companiei centrele muzicale cu diferite setări de completare. Pe parcursul anilor 1990 în acestea se instalau diferite amplificatoare, tunere, CD playere și plăci de sunete. AIWA a fost lider pe piața mondială în aceasta categorie.

Exemple de utilizare a mărcii comerciale AIWA sunt prezentate mai jos:

În decembrie anului 2002 compania AIWA CO., LTD s-a unit prin fuziune cu corporația Sony Corporation, cu păstrarea mărcii comerciale AIWA ca brand, ce aparținea corporației Sony Corporation. În luna mai a anului 2008 producția de produse sub marca comercială AIWA a fost suspendată.

La începutul anului 2017 în baza cooperării corporației Sony Corporation și a companiei japoneze Towada Audio, brandul AIWA a fost achiziționat de această companie pentru a reîncepe producția acestor produse.

În scopul păstrării istoriei și a tradițiilor, precum și luând în considerare recunoașterea și popularitatea brandului AIWA încă din anii 1950, de către compania Towada Audio a fost fondată întreprindere fiică AIWA CO., LTD.

Astăzi AIWA — compania, capitalul căreia este de aproximativ de 150 de mil. dolari SUA. În sediul companiei activează peste 1,8 mii de angajați. Compania AIWA nu este doar reprezentanță în țările Europene, Americii și Asia, dar de asemenea și aproximativ douăzeci de întreprinderi, unde fiecărei a doua întreprindere îi este atribuit certificatul ISO-9000.

Materiale informaționale despre istoria brandului AIWA și compania AIWA CO., LTD. sunt prezentate în *Anexa 3*.

Menționăm, că pe parcursul unei perioade îndelungate de timp AIWA se ocupa cu extinderea prezenței sale pe noi teritorii. Din anii 1980 Compania a început politica activă de marketing prin calea publicării publicității în publicații tipărite și difuzarea publicității pe televiziunea japoneză, americană și europeană, datorită căreia brandul AIWA a devenit și mai popular și cunoscut către

consumatorii mult dincolo de piața asiatică. Astăzi, în acces liber în Internet pot fi găsite o cantitate mare de materiale publicitare despre brandul AIWA și compania AIWA CO., LTD, ceea ce în ansamblu demonstrează prezența îndelungată a brandului AIWA în spațiul informațional și despre faima pe care o are aceasta. Print Screen-urile celor mai populare sporturi publicitare cu trimiterile corespunzătoare pe resursa "Youtube", precum și copia publicațiilor publicitare, dedicate brandului AIWA, sunt prezentate în *Anexa 4*.

Este de menționat, că promovarea de marketing a produselor, marcate cu marca comercială a Titularului de drepturi, este efectuată în toată lumea, inclusiv în Republica Moldova, pe următoarele resurse de Internet, cum ar fi:

- Site-ul companiei www.aiwa.co;
- Rețelele sociale Facebook, Instagram și Twitter;
- Site-uri internaționale de cumpărături online Ebay și Amazon (ce efectuează livrări inclusiv și în Republica Moldova).

De asemenea, propunere spre vânzare a produselor, marcate cu marca comercială AIWA sunt conținute pe site-uri de cumpărături online moldave, precum sunt: 999.md, makler.md, prom.md. *Anexa 4*.

Astfel, datorită istoriei de mulți ani a brandului AIWA precum și a companiei AIWA CO., LTD., în calitate de emblemă pe piața produselor audio și video, putem afirma, că brandul AIWA este pe larg cunoscut consumatorilor moldavi și se este asociat cu compania-titulară și tehnica japoneză la general.

În scopul protecției drepturilor de proprietate intelectuală a mărcii comerciale AIWA, ce reproduce partea distinctivă a numelui comercial a companiei AIWA CO., LTD., aceasta a fost înregistrată pe numele companiei în multe țări ale lumii, în special, în Italia, Coreea, China, India, Germania, Irlanda, Danemarca, Marea Britanie, Suedia, Islanda, Spania, Estonia, Israel, Maroc, SUA, Finlanda, Austria, Bulgaria, Norvegia, Țările Benelux și Uniunea Europeană. Tabelul înregistrărilor semnelor titularului de drepturi AIWA în diferite țări ale lumii și extrase din registrul mărcilor comerciale --- *Anexa 5* (materialele sunt prezentate ca fiind ilustrative, întru ce sunt prezentate fără traducere).

Astfel, desemnarea AIWA reprezintă parte a numelui comercial a companiei AIWA CO., LTD., cunoscut pe piața mondială și piața moldavă a producătorilor de echipamente audio și video, și marca comercială de bază a acestora, care a fost înregistrată în multe țări ale lumii și este utilizată ca marcată a întregii game de produse încă din anul 1951.

3. În opinia companiei AIWA CO., LTD., mărcii comerciale , înregistrarea internațională № 1406247, pe numele DANVISTANO TRADING LTD (BZ) nu îi poate fi acordată protecție juridică pe teritoriul Republicii Moldova cu referire la toate produsele revendicate din clasele 07, 08, 09, 11 în baza următoarelor:

- art. 21, pct. b) a Legii № 38-XVI a Republicii Moldova privind protecția mărcilor:

b) solicitantul a acționat cu rea-credință în momentul depunerii cererii de înregistrare a mărcii.

"Marca se consideră ca fiind înregistrată cu rea-credință în cazul în care, la momentul depunerii cererii de înregistrare a ei, solicitantul știa sau putea ști că pe piața Republicii Moldova se utilizează o asemenea marcă, cu bună-credință, de către altă persoană, pentru produse și/sau servicii identice sau similare cu cele pentru care marca a fost depusă spre înregistrare ori că sînt promovate sau se negociază promovarea"

- prevederile Convenției de la Paris pentru protecția proprietății industriale din 20 martie 1883, a cărei participant este și Republica Moldova:

art. 8: «Numele comercial va fi protejat în toate țările Uniunii, fără obligația de depunere sau de înregistrare, indiferent de faptul dacă el face sau nu parte dintr-o marcă de fabrică sau de comerț.»;

art. 10^{bis}: «1. Țările Uniunii sunt obligate să asigure cetățenilor Uniunii o protecție efectivă împotriva concurenței neloiale.

2. Constituie un act de concurență neloială orice act de concurență contrar practicilor cinstite în materie industrială sau comercială.

3. Va trebui să fie interzise mai ales:

(i) orice fapte care sunt de natura să creeze, prin orice mijloc, o confuzie cu întreprinderea, produsele sau activitatea industrială sau comercială a unui concurent».

Necorespunderea desemnării contestate cu cerințele menționate în legislație este cauzat de coincidența desemnării revendicate cu partea distinctivă a numelui comercial a companiei AIWA CO., LTD., cunoscut în Moldova și cu produsele sale, precum și omogenitatea produselor, cu referire la sunt revendicate/utilizate semnele comparate, ceea ce se confirmă

Semnul , înregistrarea internațională № 1406247, este similară cu marca comercială AIWA, ce aparține Titularului de drepturi, și de asemenea reproduce partea distinctivă a numelui comercial a companiei AIWA CO., LTD., sub care aceasta își desfășoară activitatea.

Pe lângă aceasta, desemnările comparate sunt revendicate/utilizate cu referire la produse omogene/similare din clasele 07, 08, 09, 11, ce prezintă în sine aparate electronice și tehnică audio, care aparțin unui gen (specie), și au aceleași funcții, același cerc de consumatori și canale de distribuție.

Luând în considerare coincidența desemnării contestate cu partea distinctivă a numelui comercial a companiei AIWA CO., LTD. cunoscute în Republica Moldova, precum și omogenitatea produselor cu referire la care este utilizat numele comercial și cu produsele pentru care este revendicată

desemnarea contestată, putem concluziona, că semnul , înregistrarea internațională № 1406247, este similară cu numele comercial a companiei AIWA CO., LTD., precum și similară cu mărcile sale comerciale, întru ce înregistrarea desemnării menționate pe numele companiei DANVISTANO TRADING LTD (BZ) va duce în eroare consumatorul cu referire la producătorul produselor.

4. Atragem atenția, că similitudinea desemnărilor susmenționate creează riscul producerii confuziei, și respectiv probabilitatea inducerii în eroare a consumatorilor cu referire la producătorul produselor.

Afirmațiile susmenționate de asemenea sunt recomandate în Edițiile OMPI:

"Un moment esențial, este acel fapt că consumatorul nu compară mărcile comerciale în paralel; acesta de regulă se confruntă cu semnul ce încalcă drepturile în magazine, neavând posibilitatea de a vedea produsul marcat pe care acesta îl cunoaște și îl ține minte cu mai multă sau mai puțină exactitate. Acesta consideră produsele oferite cu semnul ce încalcă drepturile ca fiind produse autentice, pe care într-adevăr ar dori să le procure. În acest context trebuie luat în considerare acel fapt, că consumatorul mediu are de asemenea și o memorie medie și pentru el este suficient să existe îndoială dacă marca comercială cu care acesta se confruntă este sau nu marca comercială pe care o cunoaște".

Respectiv, pentru toate produsele revendicate desemnarea , înregistrarea internațională № 1406247, poate fi privită ca fiind una ce induce în eroare cu referire la produsele sau producătorul acestora, și întru faima pe care o are numele comercial a companiei AIWA CO., LTD. și a brandului AIWA, utilizarea și înregistrarea desemnării contestate pentru toate produsele revendicate din clasele

07, 08, 09, 11 poate produse confuzie pe piață și poate aduce un avantaj necuvenit solicitantului, precum și a cauza pierderi Companiei.

Astfel, desemnarea revendicată reproduce partea distinctivă a numelui comercial a companiei AIWA CO., LTD., și brandul său principal, ceea ce reprezintă încălcare de drepturi a companiei date, contribuie la apariția confuziei pe piață și inducerii în eroare a consumatorilor

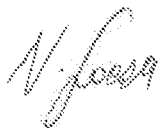

cu referire la producătorul produselor, întru ce desemnarea , înregistrarea internațională № 1406247, nu corespunde cerințelor de acordare a protecției juridice, și respectiv nu poate fi înregistrat în calitate de marcă comercială în Republica Moldova.

5. Luînd în considerare toate cele susmenționate, solicităm să nu fie acordată protecție juridică

pe teritoriul Republicii Moldova desemnării , înregistrarea internațională № 1406247, pe numele DANVISTANO TRADING LTD (BZ) pentru toate produsele revendicate din clasele 07, 08, 09, 11.

Solicităm să ne informați cu privire la decizia luată referitor la înregistrarea internațională № 1406247.

Cu respect,

Focșa Valentin Fedosei,
Reprezentant prin procură

Перевод названия компании

Слово «**Аиwa**» иерархически означает «**аи**», благодаря этому на Ближнем Востоке компания была более популярна, чем Sony.

В китайском языке компания известна как «**Айва**». А при названии Ai Way подразумевалось значение «переводчик» в Китае сферическим-по-нашему.

История

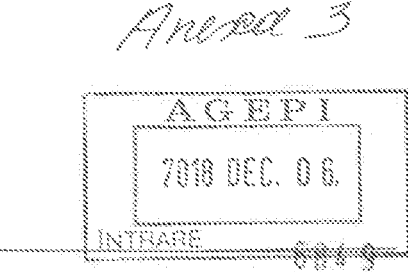

Ранняя история

История возникновения компании Aiwa восходит к началу 1950-х годов. В июне 1951 года компания Love King основывает компанию AIKO Denki Sangyo Co., Ltd. со специализацией на разработке и выпуске микрофонов. В июне 1958 года компания выпускает аудио и распространяет их по кабельной сети дилеров по торговле винными бутылками. В октябре компания меняет своё название и становится Aihw Co., Ltd. В следующем году открывается первый завод компании в Удзуниси. Акции этой предприятия в октябре 1961 года компания размещает на первой сессии Токийской фондовой биржи.

Важный момент в истории компании Aihw Co., Ltd. падает на 1963 год. В феврале этого года компания выпускает первый в Японии массовый магнитофон TR-707. Гусиные микрофоны, пассива и дечи становятся основными продуктами компании до конца 1970-х годов. В феврале 1967 года открывается второй завод Aihw в Нагоя. А через два года (в 1969 году) другая японская компания Sony приобретает контрольный пакет акций Aihw Co., Ltd. После этого Aihw становится дочерней компанией Sony Corporation. Но, несмотря на это, Aihw продолжает функционировать как независимая компания и её акции продолжают торговаться на Токийской фондовой бирже.

В 1974 гг. Aihw выходит на международный рынок. В конце 1970 года компания создаст в Уинчестере (английское предприятие Aihw/Hemstedt & Co., Ltd. После этого завод Aihw становится Ближний Восток. В 1977 года выпускает свой одно совместное предприятие компании Aihw под названием Aihw Gates & Service Co., расположенное в Ливане. Данный шаг был связан с началом «дипломатии нефти» начавшейся в 1970-х годах нефтяной кризисе возник в результате экспансии Европы и США в рынок на Ближнем Востоке нефти на рынок. К середине 1970-х годов около 70 % рынка магнитофонов на Ближнем Востоке занимало предприятие компании Aihw. Продолжением развития компании на зарубежном рынке стало открытие в 1974 году нового завода Aihw в Сан-Паулу. А в следующем году был открыт третий завод компании в Удзуниси, расположенный название Северный (производный завод специализируется на выпуске видеокамер Hi8cam). Акции этого завода были размещены на первой сессии Токийской фондовой биржи.

С начала и концу 1970-х гг. с увеличением политической нестабильности на Ближнем Востоке привлекательность этого рынка начала падать и Aihw решает расширить своё присутствие на рынках Европы и Северной Америки. С 1976 по 1977 год Aihw Co., Ltd. создаёт свои дочерние компании в Великобритании, Германии и Соединённых Штатах. К 1980 году доля аккорта в Европу и США увеличивается до 65 % от всего объёма импортируемой продукции (на начало 1970-года аккорт в этих направлениях составлял около 50 %). Во второй половине 1970-х годов Aihw значительно расширяет портфель своей продукции по всей западной музыкальной индустрии со стереосистемами, стереосистемами и обе радиоприёмник, магнитофон, альстрофон, компакт и динамик, пассивные небольшие радиеры, при этом сохраняя высокие качества звука и мощности, так же компания начинает устанавливать и выпускать новую технику включая цифровые диктофон. За 1979 финансовый год Aihw Co., Ltd. получила чистую прибыль над капиталом деп 11 миллион долларов), доход по приросту составил 38,4 млн долларов деп (157,3 миллиона долларов)^[1]. В середине 1980-х годов Aihw выделяла на продажу своей специализиру по черной тип-кристалл диктофон TR-707, представляющий собой компактный переносной одноканальный микродиктофон. Для усиления продвижения новых товаров в Европе и США Aihw принимает решение о передаче части производства в эти регионы. Первые шаги были открыты в сентябре 1980 года завод компании в Южном Уэльсе (Великобритания).

[AIWA \(/tag/aiwa\)](#)[AIKO Denski Sangyo](#)[кассетный магнитофон](#)[Sony \(/tag/sony\)](#)[модем \(/tag/modem\)](#)[сертификат ISO-9000](#)[3 года назад](#)

(/img/2017_04/img_1005432.jpg)

Компания AIWA известна преимущественно в качестве производителя бытовой аудиоаппаратуры. Ее основали не так давно — в 1951 году. Поначалу ее называли AIKO Denski Sangyo. Современное название появилось через 8 лет.

В 1964 году данная компания разработала первый в Японии кассетный магнитофон, буквально покорила рынок. Но уже через пять лет история AIWA в качестве полностью самостоятельной фирмы заканчивается. Тогда контрольный пакет акций купила всемирно известная корпорация Sony, которой и сегодня принадлежит 50,6% акций.

Тем не менее, существенные финансовые вливания позволили увеличить темпы роста AIWA. В результате ее продукция успешно вышла и на международный рынок. В 1970 году открывается ее первое зарубежное предприятие — AIWA/Dranfield & Co. Это совместное предприятие открыли в Гонконге.

Примерно 10 лет потребовалось для того, чтобы началась активная работа на рынках Европы. И уже в 1976 году открывается представительство AIWA (/../brand/aiwa) в Великобритании. А еще через год — и в Германии. Работа AIWA America Inc была начата в 1978 году. В настоящее время полноценные представительства и филиалы компании открыты уже более чем в десяти странах на планете.

Долгие годы корпорация занималась тем, что расширяла свое присутствие на новых территориях. Но не только. В 1987 году компанией был разработан первый в мире DAT-магнитофон XD-001, который оказал большое влияние на развитие цифровых устройств хранения информации. Причем не только компьютерных.

Но модельный ряд продукции тоже расширялся, и 1988 года AIWA работает на рынке профессиональных модемов. Тогда она представила модем PV-H2400, который работал со скоростью 4800 бит/с.

При этом главным направлением для AIWA были и остаются технологии хранения цифровой информации на магнитных носителях. В 1989 году на предприятиях корпорации стали выпускать самые портативные в мире DAT-магнитофоны HD-X1.

В 1991 году компания решила изменить корпоративный логотип. Она отказалась от привычной черной надписи «Aiwa» и стала использовать яркие красные буквы. Руководство корпорации было уверено, что новое написание будет более привлекательным для многих пользователей.

Сегодня AIWA — это компания, у которой капитал примерно в 150 миллионов долларов США. В головном офисе компании работает более 1,3 тысячи сотрудников. Компания AIWA — это не только

представительства в странах Европы, Америки и Азии. Это также примерно два десятка предприятий, каждое второе из которых – с сертификатом ISO-9000.

AIWA

Aiwa Co., Ltd. – o societate publică înregistrată în Japonia în anul 1951, se ocupă cu producția de aparate de uz casnic. Din 2002, este întreprindere fiică a corporației transnaționale Sony.

Istorie

Istoria companiei Aiwa este oarecum vagă. În iunie anului 1951, compania Love Xing fondează compania AIKO Denki Sangyo Co., Ltd. cu specializare în dezvoltarea și producția de microfoane. În iunie 1958, compania emite acțiuni și le distribuie în rețeaua de dealeri de hîrtii de valoare. În octombrie, compania își schimbă denumirea și devine Aiwa Co., Ltd. În următorul an, se deschide o noua uzină a companiei în Utsunomiya. Acțiunile acestei companii în octombrie 1961, sunt plasate compania pe a doua secțiune a Bursii de Valori din Tokyo.

Un moment important în istoria companiei Aiwa Co., Ltd. este anul 1964. În luna februarie a acestui an, compania lansează primul recorder TP-707 în Japonia. Înregistrările de casete, playerole și plăcile de sunet devin principalele produse ale companiei până la sfârșitul anilor '70. În februarie 1967, a fost deschisă noua uzină Aiwa din Ivata. Doi ani mai târziu (în 1969), o altă companie japoneză, Sony, a dobândit acțiunile de control în Aiwa Co., Ltd. După aceasta, Aiwa devine o întreprindere fiică companiei a Sony Corporation. În ciuda acestui fapt, Aiwa a continuat să funcționeze ca o companie independentă, iar acțiunile sale au continuat să fie tranzacționate la Bursa de Valori din Tokyo.

Din 1976 până în 1979, Aiwa Co., Ltd. își deschide filialele în Marea Britanie, Germania și Statele Unite ale Americii. Până în 1980, ponderea exporturilor către țările Europei și SUA a crescut la 65% din volumul total al produselor exportate (la începutul anului 1970 exporturile în această direcție au constituit aproximativ 50%). În a doua jumătate a anilor 1970, Aiwa și-a extins în mod semnificativ gama de produse prin intermediul centrelor muzicale monobloc cu sisteme stereo care combină un receptor radio, un magnetofon, un microfon electric, un amplificator și difuzoare de dimensiuni mici, menținând în același timp o calitate și o putere ridicată a sunetului; compania începe, de asemenea, să instaleze mici afișaje digitale în echipamentul fabricat. Pentru anul fiscal 1979, Aiwa Co., Ltd. a obținut un profit net de 244 milioane de yen (1 milion de dolari), veniturile din vânzări reprezentând 38,5 miliarde de yen (157,8 milioane de dolari). La mijlocul anilor '80, Aiwa a oferit spre vânzare cel mai modern recorder TP-S30 conform standardelor de atunci, un recorder portabil compact cu un singur casetofon player-casetofon. Pentru promovarea cu succes a unor noi produse în Europa și Statele Unite, Aiwa decide transferul unei părți a producției în aceste regiuni. Prima etapă a fost deschiderea uzinei companiei în sudul Țării Galilor (Marea Britanie) în septembrie 1980.

Anii 1990. Achiziționarea Sony

La începutul anilor 1990 AIWA a continuat să-și extindă linia de produse. La mijlocul anului 1993 compania a obținut controlul asupra companiei Core International, Inc, unul dintre producătorii de periferice pentru calculatoare în SUA.

Aiwa a intrat cu succes în noul mileniu. Cele mai reușite produse ale companiei centrele muzicale cu diferite setări de completare. Pe parcursul anilor 1990 în acestea se instalau diferite amplificatoare, tunere, CD playere și plăci de sunete. AIWA a fost lider pe piața mondială în aceasta categorie, care a capturat o cotă de 30% , în SUA cota de producție a Aiwa a ajuns la 50%.

Istoria brandului AIWA

Compania AIWA este cunoscută în primul rând ca producător de echipamente audio electrocasnice. În 1964, compania a dezvoltat primul recorder de casete din Japonia, cucerind literalmente piața. Dar după cinci ani, istoria AIWA ca o companie complet independentă se încheie. Miza de control a fost achiziționată de Sony Corporation, care deține în continuare 50,6% din acțiuni.

Cu toate acestea, susținerea financiară substanțială a permis să crească timpul creșterii AIWA. În rezultat produsele sale au intrat cu succes pe piața internațională.

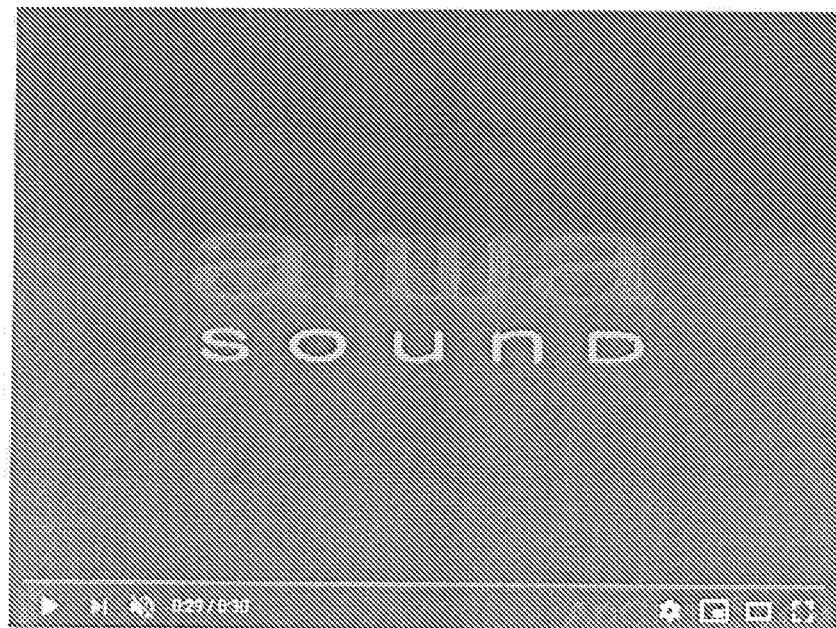

Astăzi AIWA — compania, capitalul căreia este de aproximativ de 150 de mil. dolari SUA. În sediul companiei activează peste 1.8 mii de angajați. Compania AIWA nu este doar reprezentanță în țările Europene, Americii și Asia, dar de asemenea și aproximativ douăzeci de întreprinderi, unde fiecărei a doua întreprindere îi este atribuit certificatul ISO-9000.
