

MADRID AGREEMENT AND PROTOCOL
FINAL DISPOSITION ON STATUS OF A MARK
– STATEMENT OF GRANT OF PROTECTION
FOLLOWING A PROVISIONAL REFUSAL –

Rule 18ter(2)

<p>I. Office making the notification: FEDERAL SERVICE FOR INTELLECTUAL PROPERTY (ROSPATENT) 30-1, Berezkhovskaya nab., 125993, Moscow, G-59, GSP-3, Russian Federation Fax: +7 (495) 531-63-53 / phone: +7 (499) 240-60-15</p>
<p>II. Number of the international registration: 1387075</p>
<p>III. Name of the holder: Johnson Controls Technology GmbH</p>
<p>IV. Reproduction of the mark:</p> <div style="font-size: 2em; font-weight: bold; margin: 20px 0;">METASYS</div>
<p>V. Protection for ALL the goods and/or services.</p> <p>All procedures before the Office have been completed; protection is granted to the mark that is the subject of this international registration for all the goods and/or all the services requested (Rule 18ter(2)(i)):</p> <p>Cl. 09: "Electrical controlling devices; electric control devices for energy management systems and security systems; automation process control systems comprising wireless and wired controllers, controlled devices, and software for appliances, lighting, HVAC, security and other commercial electrical power monitoring and control applications for buildings, facilities and plants; electronic control devices and automation process control systems comprising wireless and wired controllers, controlled devices, and software for building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems; electronic control devices and automation process control systems comprising wireless and wired controllers, controlled devices, and software for the on-site and remote monitoring, control, operation, automation, and optimization of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management,</p>

manufacturing, and equipment and systems fault detection; on-site and field computer hardware, software, electronic sensors, monitors, electronic controls, automated process control systems comprised of wireless and wired controllers, controlled devices, and software for individual and integrated on-site and remote monitoring, control, operation, automation and optimization of, and interaction with, building, facility and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; computer hardware, software and automated process control systems comprised of wireless and wired controllers and controlled devices for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data; computer hardware, software and systems comprised of wireless and wired controllers and controlled devices for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data from building, facility and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, threat detection, access, asset management, automation and optimization devices, apparatus and systems; computer hardware, software and systems comprised of wireless and wired controllers and controlled devices for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data from building, facility and plant devices, monitors, monitoring systems, sensors, controls, control systems, and apparatus for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; computer hardware and software for wired and wireless networking of building, facility and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, asset management, automation and optimization devices, apparatus and systems; computer software for configuring wide area networks used in energy and security management systems and graphical user interface software; software for use in the creation, configuration, engineering, installation and operation of building, facility, and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, threat detection, access, asset management, automation and optimization devices, apparatus and systems; software for recording, tracking, auditing and reporting the performance and compliance of environmental controls systems; application software for enabling the monitoring, control and operation of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection using a remote computer, smart phone or other mobile device."

Cl. 37: "Installation, maintenance and repair of electrical and electronic controls and control, automation and optimization devices, apparatus and systems comprising wireless and

wired controllers and controlled devices for buildings, facilities and plants; installation, maintenance and repair of electrical and electronic controls and control, automation and optimization systems for building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems, the foregoing not including installation, maintenance and repair of software; installation, maintenance and repair of electrical and electronic controls and control systems comprising computer hardware for the on-site and remote monitoring, control, operation, automation, and optimization of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection."

Cl. 42: "Engineering, design and development of building, facility and plant controls, control devices, wireless and wired controllers, and building, facility and plant control, automation and optimization software; technical consultation in the field of design and development of computer hardware, software, and peripherals used for building, facility and plant controls, control devices, apparatus and systems, and building, facility and plant automation and optimization devices, apparatus and systems; computer services, namely, monitoring via electronically gathering, analyzing and formatting data and reporting to others on the performance of building, facility and plant controls, control devices, apparatus and systems, and building, facility and plant, automation and optimization devices, apparatus and systems to ensure proper functioning; providing temporary use of on-line, non-downloadable computer applications and computer software for use in database management and coordinated control of energy management systems and security systems for building, facility, and plant controls, control devices, apparatus and systems, and building, facility and plant automation and optimization devices, apparatus and systems; technical support services, namely, 24/7 service desk or help desk services for IT infrastructure, operating systems, database systems related to building, facility, and plant controls, control devices, apparatus and systems, and building, facility and plant control, automation and optimization software, devices, apparatus and systems; installation, maintenance and repair of systems comprising computer software for buildings, facilities and plants; installation, maintenance and repair of automation and optimization systems comprising computer software for building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems; installation, maintenance and repair of control systems comprising computer software for the on-site and remote monitoring, control, operation, automation, and optimization of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; monitoring building, facility and plant automation and optimization systems to ensure proper functioning."

Cl. 45: "Monitoring security alarm systems for building, facility and plant automation and optimization systems; monitoring building security alarm systems for facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency,

energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems; monitoring of security alarm systems from building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems."

VI. Signature of the Office sending the statement:

Dr. Grigoriy Ivliev

Director General

VII. Date: **13/05/2019**
