

NOTIFICATION OF EX OFFICIO REFUSAL

Notified to the International Bureau of
the World Intellectual Property Organization (WIPO)
under Rule 17 (2) and 17 (5)(e) of the Common Regulations

NOTE: This notification of ex officio refusal shall be deemed to include a statement in accordance with Rule 18ter (2) (ii) or (3) of the Common Regulations. Any request for review shall be filed to the CNIPA, through a qualified Chinese agency or attorney, within 15 days from receipt of this notification.

- I. Office which pronounces the refusal:
National Intellectual Property Administration, PRC (CNIPA)
1, Chama Nanjie, Xichengqu, Tel: 8610-63219000
Beijing, 100055 People's Republic of China FAX: 8610-68050285
- II. Date of the refusal pronounced: 2019/06/04
- III. Our reference number: GJZCG1451415BHYW01
- IV. International registration number: 1451415
- V. Date of notification to China: 2019/02/21
- VI. Basic national registration number:
Basic national application number: UK00003262016
- VII. The mark is refused for the following goods and/or services:
1: Chemicals used in industry; fire extinguishing compositions; tempering preparations; adhesives used in industry; preparations for softening and soldering metals; fluids for drilling; chemical additives to drilling muds;
2: Paints; varnishes; lacquers; preservatives against rust and against deterioration of wood; preservatives used in connection with asset protection and to protect against rust and against deterioration of infrastructure; colorants; mordants; corrosion inhibiting paint type coatings;
6: metal building materials; transportable buildings of metal; ironmongery; small items of metal hardware; pipes and tubes of metal; barrels of metal; capsules of metal for compressed gas; rolled and cast metal building materials; chains (except driving chains for land vehicles); metal pipes;
7: Motors and engines (except for land vehicles); valves; machine coupling and transmission components; machines and machine equipment for industry including generators, steam jet air ejectors; machine tools; machines and machine equipment for industrial use, including centrifugal pumps and vacuum pumps; machines and machine equipment for industrial use, including for the production of electricity and for the cleaning of flue gas; machines and machine equipment for generating electricity as a by-product from the incineration of waste; heat recovery devices (parts of machines); centrifugal pumps; expansion clutches;
9: All the goods;
11: Apparatus for lighting, heating, steam generating, refrigerating, drying, ventilating, water supply and sanitary purposes; air heat recovery apparatus and installations; ventilators for heat exchangers; heat recovery ventilators; gas condensers other than parts of machines; desuperheaters; desalinators; air heaters; warming apparatus; refrigerating installations; steam generating and condensing installations and equipments, other than parts of machines; desalination installations; air purification installations and equipment including scrubbers and flue gas cleaning apparatus; heating and cooling apparatus including feedwater heaters; chemical flue gas scrubbing apparatus; cookers;
12: All the goods;

14:All the goods;
16:All the goods;
21:All the goods;
22:tents; awnings; sacks and bags (not included in other classes);
35:All the services;
36:All the services;
37:All the services;
38:All the services;
39:All the services;
40:custom manufacture of steam generators; custom manufacture of equipment for utility power and industrial facilities, including steam generators and parts thereof, condensers, heaters, acid gas burners, rotary kilns, coal pulverizers and gasifiers and flue gas cleaning equipment; custom manufacture of equipment for industrial facilities, namely material handling systems for use in mines; custom manufacture of replacement parts for steam generators, condensers, heaters (including fired heaters), coal pulverizers, gasifiers; thermal processing of materials including incineration of gases and waste incineration; document collation; technical consultation in the field of delayed coking;
41:All the services;
42:Engineering services; engineering services in relation to biofuel plants and installations, nuclear power plants, renewable energy projects, alternative energy projects, pharmaceutical, chemical, oil and gas facilities, plants and installations and industrial processing facilities, plants and installations; engineering services relating to the extraction, processing, treatment and utilisation of oils sands; scientific and technological services; research and design services; industrial analysis and research services; engineering design services; engineering and feasibility studies; engineering services in the fields of structural engineering, process engineering, instrumentation and telecommunications, electrical and electronics, mechanical engineering, piping layout, power generation and industrial plants; design and development of computer hardware and software; design and development of computer hardware and software for use in the oil and gas industries and for oil field exploration and searching; provision of engineering workshop facilities; provision of quality control services; certification services; acceptance testing and commissioning; system integration testing; authentication testing; testing of apparatus and equipment; technical testing services; safety testing of products and apparatus; provision of testing and inspection facilities for oil and gas equipment and apparatus; material testing services; scientific testing services; engineering testing services; laboratory services for testing purposes; industrial testing of engineering projects; commissioning services (engineering and technology); welding research services; provision of analysis, testing and research facilities for engineering projects; consultancy in the field of environmental protection; environmental engineering services; concept design services relating to engineering; engineering drawing services; preparation of technical documents and reports for engineering projects; graphic design services and graphic services for technical and engineering drawing; engineering design, research and development services for others; technical research for others; civil engineering design services; technical validation testing services; engineering design services relating to planning, architecture, civil engineering, mechanical engineering, design engineering, fire engineering, petrochemical engineering and industrial plants; mechanical systems design services; provision of hazard and operability studies; control system design services; software engineering services; design of IT systems; design and planning services associated with equipment and plant layout; engineering and technological assistance for procurement of environmental permits; materials handling systems design services; geotechnical engineering services; environmental engineering services; piping systems design and layout services; design of ventilation, heating and air conditioning systems and apparatus; instrument and control engineering services; design of engineering project specifications; engineering design and coordination and consultancy services; industrial plant engineering services; engineering modelling and process modelling services; computer modelling services; finite element modelling; finite element analysis services; thermodynamic modelling; laboratory measurement interpretation and modelling; computerised process evaluation services; computational fluid dynamics engineering services; engineering and technological services for the automation of systems and industrial plants; process engineering services; energy auditing services; product design services; engineering and technical due diligence services; environmental due diligence services; engineering and technical assessment services; benchmarking (technical) testing; plant, apparatus and equipment inspection and testing; consultancy services relating to environmental issues; preparation of technical and engineering operating manuals; engineering and technical development of projects and industrial plants; evaluation and testing of

materials; engineering operational support services; remote well control system design services; engineering feasibility studies; conceptual engineering design services; technical commissioning supervision; engineering automation and control services; system engineering services; engineering specification, integration and implementation services; project certification services; technical supervision and inspection; engineering permit to work coordination; technical writing and illustration; civil infrastructure engineering; reengineering and commissioning of engineering projects and plants; engineering and technical consultancy services in the fields of oil and gas production, pipeline and processing facilities; design of information systems relating to management; laser scanning services; engineering plant design management systems; development of interactive multi-media software; software design services for the design and data management of subsea systems, pipelines and risers; valve engineering services; provision of computerised engineering management systems; editing of computer programmes; engineering lifecycle integrity services; technical and engineering advice relating to fire engineering services; engineering project management relating to the design, commissioning and engineering operations for industrial and process plants; design and development of lifecycle management software; inspection and calibration of safety systems, fire and gas detection systems, navigation aids, fire extinguishers, remote monitoring systems, page party alarm systems and pneumatic/electrical safety systems, all being for use in the oil, gas and renewable energy industries; technical project planning and design engineering; design engineering in relation to material handling systems for use in mines; electrical engineering services; mechanical engineering; geotechnical engineering; process engineering; industrial process engineering; thermal engineering; instrument control engineering; fire engineering, energy and flare surveys; design services; mechanical systems design; electrical systems design; packaging systems design; piping systems design; materials handling systems design; heating, ventilating and air conditioning systems design; production design, software engineering; data mining; providing non-downloadable software; technological studies and technical studies relating to projects, products and industrial processes, including industrial process development; technological and technical studies, namely studies relating to electricity grid codes and the connection of facilities to electricity networks; technological services for the automation of systems; preparing, designing and conducting energy studies; preparing, designing and conducting audits including audits in the field of mining reserves and in the field of energy; preparing, designing and conducting energy surveys; conducting of technical feasibility studies; architectural services; structural design services; building condition surveys; environmental inspection, planning, engineering, assessments, testing and surveys; yield improvement services; equipment inspection and assessment including the assessment of plant and machinery; quality control of installations; product quality assessment services; materials testing services, including product testing, material testing; industrial process evaluation, simulation and modelling; industrial process troubleshooting, industrial process simulation and optimisation; commissioning services in the oil and gas and renewable energy industries, automotive industry, consumer products industries, pulp and paper industries, pharmaceutical industries, chemical and polymers refineries, in nuclear power plants, in biofuel plants and installations, in renewable energy projects, in industrial facilities including processing plants and equipment, and in petrochemical plants and installations; engineering project management relating to the construction, commissioning of industrial and process plants; engineering project management; feasibility studies relating to building and construction; civil engineering; civil engineering, including in relation to plumbing and gas and water installations; quality control of written material and documents; geological research; 45:Consultancy services relating to health and safety; risk management consultancy relating to health and safety; health and safety program development, management and consultation; hazard and operability studies/hazard identification; facility/site audits and third party inspections; site safety and safety management; advisory services relating to regulatory affairs and compliance; rental of safety equipment; alarm monitoring services; monitoring of security systems; providing consultancy and information in the field of emergency response for communities; fire protection and detection services; provision of safety advice in relation to engineering or production projects and industrial plants and processes; plant and site safety and safety management services; industrial hazard identification; safety advice in relation to engineering or production projects or processes, hazard and operability studies; oil and gas exploration services.

VIII. Reason(s) of refusal:

Prior national and/or international mark(s). (See Item X)

This mark is similar to the earlier mark(s).

The goods and/or services listed in Column VII are similar to those of the earlier application and/or

earlier registration.

The mark is devoid of distinctive character to be used as a trademark in respect of the designated goods and services in Class 21, Class 35 and Class 37.

"Oil and gas exploration services" is recommended to be classified into Class 42 according to the Nice Classification.

- IX. Applicable legal provisions of the refusal:
Article(s): (See the excerpts of the laws and regulations)
Trademark Law Article 11(i)(3)&22&30

- X. Informations concerning the earlier mark(s):

Trademark Law of China

Article 10 The following signs shall not be used as trademarks:

- (1) those identical with or similar to the State name, national flag, national emblem, national anthem, military flag, military emblem, military anthem, or decorations etc, of the People's Republic of China, and those identical with the names or symbols of the Central State government organizations, or with the names of the particular venues, where the Central State government organizations are located, or with the names or graphs of the symbolic buildings of the Central State government organizations;
- (2) those identical with or similar to the State names, national flags, national emblems or military flags etc, of foreign countries, unless consent has been given by the government of the relevant country;
- (3) those identical with or similar to the names, flags or emblems etc, of international intergovernmental organizations, unless consent has been given by the relevant organization or the public is not likely to be misled by such use;
- (4) those identical with or similar to official signs or hallmarks indicating control and warranty, unless authorization has been given;
- (5) those identical with or similar to names or symbols of the Red Cross or the Red Crescent;
- (6) those having the nature of discrimination against any nationality;
- (7) those having the fraudulence, which will easily mislead the public as to the features such as qualities of the goods, or the places of the origins;
- (8) those detrimental to socialist morality or customs, or having other unhealthy influences.

The geographical names of the administrative divisions at or above the county level or the foreign geographical names well-known to the public shall not be used as trademarks, but such geographical names as have otherwise meanings or as an element of a collective mark or a certification mark shall be

exclusive. Where a trademark using any of the above-mentioned geographical name has been approved and registered, it shall continue to be valid.

Article 11 The following signs shall not be registered as trademarks:

- (1) those which consist exclusively of the generic names, designs, or models of the goods in respects of which the trademark is used;
- (2) those which consist exclusively of direct indications of the quality, primary raw material, functions, intended purpose, weight, quantity or other characteristics of goods;
- (3) other signs which are devoid of any distinctive character.

Where trademarks under the preceding paragraph have acquired distinctiveness through use and become easily distinguishable, they may be registered as trademarks.

Article 12 Where a three-dimensional sign is applied for registration of a trademark, it shall not be registered if it consists exclusively of the shape which results from the nature of the goods themselves, the shape of goods which is necessary to obtain a technical result, or the shape which gives substantial value to the goods.

Article 16 Where a trademark contains or consists of a geographical indication with respect to goods not originating in the place indicated, misleading the public as to the true place of origin, the application for registration shall be refused and the use of the mark shall be prohibited. But for those marks that have obtained registration in good faith shall continue to be valid.

Geographical indications mentioned in the preceding paragraph are indications that identify a particular good as originating in a region, where a given quality, reputation or other characteristics of the goods is essentially attributable to its natural or human factors.

Article 22 An applicant for the registration of a trademark shall, in accordance with the prescribed classification of goods, in the application, indicate the class(es) and the indications of goods in respect of which the trademark is to be used.

An applicant can apply for the registration

of the same trademark on the different classes of goods through one application.

Applications for trademark registration and other related documents shall be submitted in writing or electronic format.

Article 23 Where a registered trademark needs to acquire the exclusive right to be used in respect of goods beyond the approved range of use, a new application for registration shall be filed.

Article 30 Where a trademark the registration of which has been applied for is not in conformity with the relevant provisions of this Law, or it is identical with or similar to the trademark of another party that has, in respect of the same or similar goods, been registered or, after examination, preliminarily approved, the Trademark Office shall refuse the application and shall not publish the said trademark.

Article 31 Where two or more applicants apply for the registration of identical or similar trademarks for the same or similar goods, the preliminarily approval, after examination, and the publication shall be made for the trademark that was first filed. Where applications are filed on the same day, the preliminarily approval, after examination, and the publication shall be made for the trademark that was used earliest, and the applications of the others shall be refused and their trademarks shall not be published.

Article 33 The prior right owner or any interested party who believes that the trademark stands in violation of the provisions of second and third paragraphs of Article 13, Article 15, first paragraph of Article 16, Article 30, 31 and 32 of this law, or any party who believes that the trademark stands in violation of the provisions of Article 10, 11 and 12 of this law may, within three months from the date of the publication, file an opposition against the trademark that has, after examination, been preliminarily approved. If no opposition has been filed at the expiration of the specified period, the registration shall be approved, a certificate of trademark registration shall be issued and the trademark shall be published.

Article 35 Where it is decided that the registration shall be approved by the Trademark

Office, a certificate of trademark registration shall be issued and the trademark shall be published. Where the Opponent is dissatisfied with the decision, he or it may, pursuant to Article 44 and 45 of this law, apply for a declaration that the trademark is invalid to the Trademark Review and Adjudication Board.

Where it is decided that the registration shall not be approved by the Trademark Office and the Opposed party is dissatisfied with the decision, he or it may, within fifteen days from receipt of the notification, apply for a review to the Trademark Review and Adjudication Board. The Trademark Review and Adjudication Board shall make a decision within twelve months from receipt of the application and notify both the Opponent and the Opposed party in writing. The administrative authority for industry and commerce under the State Council may grant a six-month extension under certain circumstances. . Where the Opposed party is dissatisfied with the decision of the Trademark Review and Adjudication Board, he or it may, within thirty days from receipt of the notification, institute legal proceedings with the people's court. The people's court shall notify the Opponent as a third party to the litigation.

Article 42 Where a registered trademark is assigned, the assignor and assignee shall sign an agreement for the assignment and jointly file an application with the Trademark Office. The assignee shall guarantee the quality of the goods in respect of which the registered trademark is used.

When a registered trademark is to be assigned, the trademark registrant shall assign in a lump all of its similar trademarks in respect of the identical goods, or, identical or similar trademarks in respect of the similar goods.

With respect to applications for the assignment of registered trademarks, which may produce confusion or other adverse effects, the Trademark Office shall refuse them, and shall notify the applicants in writing and give the reasons therefor.

The assignment of a registered trademark shall be published after it has been approved. The assignee shall enjoy the exclusive right to use the trademark from the date of publication.

Article 50 Where a registered trademark has been cancelled, invalidated or has not been renewed at the expiration, the Trademark Office shall, during one year from the date of the cancellation, invalidation or expiration, approve no application for the registration of a trademark that is identical with or similar to the said trademark.

Regulations for the Implementation of Trademark Law

Rule 13 Anyone who applies for registration of a trademark shall file an application based on the published Classification of Goods and Services. For each application for registration of a trademark, the applicant shall submit to the Trademark Office one copy of the Application for Trademark Registration and one copy of reproduction of the trademark; if applying for the registration of the combination of colors or a sign with the designated color or colors as a trademark, one copy of colored reproduction of the trademark and one copy of the black and white design shall be submitted; if applying for the registration of trademark without designated color or colors, the black and white design shall be submitted.

The reproductions of a trademark must be clear, easy to be pasted up, printed on smooth and clear durable paper or use photographs as a substitute, and the length and breadth of which shall be not more than ten centimeters and not less than five centimeters each.

If applying for the registration of a three-dimensional sign as a trademark, the applicant shall make a statement in the application, explain how to use the trademark, and submit a reproduction including perspectives of at least three different sides of the mark thereof by which the three-dimensional shape can be determined.

If applying for the registration of the combination of colors as a trademark, the applicant shall make a statement in the application, and explain how to use the trademark.

If applying for the registration of a sound as a trademark, the applicant shall make a

statement in the application, submit the audio reproduction as requested, describe the sound and explain how to use the trademark. The description shall describe the said sound by musical notation or numbered musical notation with explanatory words; if the said sound could not be described by musical notation or numbered musical notation, it shall be describe in words. The trademark description shall be in conformity with the sound sample.

If applying for the registration of a collective mark or a certification mark, the applicant shall make a statement in the application, and submit the documents certifying the qualifications of the subjects and the rules on the administration of the use of the mark.

Where a trademark is, or consists of, foreign words, their Chinese meanings shall be indicated.

Rule 15 The class(es) and indications of goods or services shall be listed in the application as specified in the Classification of Goods and Services; where any goods or services are not included in the Classification of Goods and Services, a description of the goods or services in question shall be attached to the application.

Applications for trademark registration and other related documents submitted in writing shall be typewritten or printed.

The preceding paragraph applies to other trademark affairs.

Rule 19 Where two or more applicants apply respectively on the same day for the registration of identical or similar trademarks in respect of the same or similar goods, both or all of the applicants shall, within 30 days from the date of receipt of the notification of the Trademark Office, submit the evidence of prior use of such trademarks before applying for registration. Where the use started on the same day or none is yet in use, both or all of the applicants may, within 30 days from the date of receipt of the notification of the Trademark Office, conduct consultations on their own and submit a written agreement to the Trademark Office; if they are not willing to conduct consultations or they fail to reach an agreement through consultations, the Trademark Office shall notify both or all of the applicants to determine one of them by drawing

lots and refuse the applications for registration filed by others. Where an applicant has been notified by the Trademark Office but fails to participate in the drawing of lots, the application filed by such an applicant shall be considered abandoned, and the Trademark Office shall notify the applicant in writing who does not participate in the drawing of lots.

Rule 43 Anyone who applies for the territorial extension to China, and requests for the protection of a three-dimensional sign, combination of colors or sound as a trademark, or the protection of collective trademark or certification trademark, within three months from the date of recording the trademark in the International Register, shall submit the materials required by Rule 13 through the trademark agency established in accordance with laws in China. If the applicant fails to submit the relevant materials within the time limit, such application shall be refused.

Rule 45 The opponent who is in conformity with Article 33 of The Trademark Law may file an opposition to the Trademark Office against a request for territorial extension to China within 3 months from the first day of the next month following the publication of the International Registration Gazette by the World Intellectual Property Organization.

The Trademark Office shall notify the International Bureau the opposition in the form of provisional refusal before the expiry of the applicable refusal period.

The Opposed party may make a response within 30 days from receipt of the provisional refusal transmitted by the International Bureau. The response and other related evidence shall be submitted through the trademark agency established in accordance with laws in China.

Rule 47 For the assignment of territorial extensions designating China, the assignee shall have a real and effective industrial or commercial establishment in, or be domiciled in a contracting party, or be a national of a contracting state or a state member of a contracting organization.

Where an assignor fails to assign in a lump all his or its identical or similar marks in respects of the same or similar goods or services,

the Trademark Office shall notify the holder of international registration to rectify the situation within 3 months from the date of the notification; if the situation is not rectified at the expiration of the time limit, or if the assignment of a trademark is likely to produce confusion or bears other adverse effects, the Trademark Office shall decide that the said assignment has no effect in China, and declare it to the International Bureau.

Rule 48 For the limitation of list of goods and services of territorial extensions designating China, if the limitation does not comply with the requirements on the classification of goods or services enforced in China, or enlarges the original list of goods and services, the Trademark Office shall decide that the limitation has no effect in China, and declare it to the International Bureau.

Administrative Reconsideration Law

Article 9 Any citizen, legal person or any other organization, who considers that a specific administrative act has infringed upon his or its lawful rights and interests, may file an application for administrative reconsideration within 60 days from the day when he or it knows the specific administrative act, except that the time limit prescribed in laws exceeds 60 days.

If the time limit prescribed by law is delayed due to force majeure or other special reasons, the time limit shall be accounted continuously from the day when the obstacle is removed.

Administrative Procedure Law

Article 46 If a citizen, a legal person or any other organization brings a suit directly before a people's court, he or it shall do so within six months from the day when he or it knows that a specific administrative act has been undertaken, except as otherwise provided for by law.
