

**MADRID AGREEMENT AND PROTOCOL**

**NOTIFICATION OF PROVISIONAL REFUSAL  
OF PROTECTION**

**Rule 17(1)**

I.	Office making the notification:  <b>NATIONAL OFFICE OF INTELLECTUAL PROPERTY OF VIETNAM (NOIP)</b> 384 - 386 Nguyen Trai St., Thanh Xuan Dist., Hanoi, Vietnam
II.	Number of international registration: <b>1433787</b>
III.	Name and address of the holder: <b>Xiaomi Inc.</b> Floor 13, Rainbow City Shopping Mall II, of China Resources, NO. 68, Qinghe Middle Street, Haidian District, Beijing, China
IV.	Information concerning the type of provisional refusal: <input checked="" type="checkbox"/> Provisional refusal based on an <i>ex officio</i> examination <input type="checkbox"/> Provisional refusal based on an opposition <input type="checkbox"/> Provisional refusal based on both an <i>ex officio</i> examination and an opposition  (i) Name of the opponent: (ii) Address of the opponent:
V.	The scope of refusal: <input checked="" type="checkbox"/> Total provisional refusal affects all the goods and/or services <input type="checkbox"/> Partial provisional refusal affects only the following goods and/or services:
VI.	Grounds for refusal: The applied-for mark is refused because the wording "Mi" is confusingly similar to marks in International Registrations No. 999209, 1058429, 1058430, National Registration No. 235187; the rest of the mark is merely descriptive of goods and services, therefore devoid of distinctiveness.  1.  markem·image 999209 10 November 2009 <b>Dover Europe Sàrl</b> Chemin de Blandonnet 2, CH-1214 Vernier, Switzerland Cl. 02,07,09,16,37,40,42  2. <b>MI</b> 1058429 1 October 2010 Cl. 06,19,20,35,37,42

VII. Applicable provisions of the national law:

Art. 74.2e, c of the Intellectual Property Law

VIII. Information relating to subsequent procedure:

- a) Time limit for requesting review: 3 months from the sending date of this notification by NOIP
- b) Authority to which review should be made:  
National Office of Intellectual Property of Vietnam  
384 - 386 Nguyen Trai St., Thanh Xuan Dist., Hanoi, Vietnam
- c) The application for requesting review shall be filed through an authorized representative in Vietnam

IX. Signature or official seal by the Office:

Director General

**Dinh Huu Phi** *th.*

6 / 23

frequency identification markers (tags), applicators of intelligent labels, machines for applying protective and decorative coatings to surfaces, printing and marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material, laser printing machines for marking and coding information, designs, logos, barcodes and messages on labels, markers, (tags), boxes, pallets, products and product packaging (including laser sources, an electronic power supply, computers, computer operating programs for use therewith, control devices for guiding and alignment of laser beams, machines and machine tools, namely programmable thermal transfer devices; reading and encoding machines for radio frequency identification markers (tags); reading and encoding machines for intelligent labels.

09 Printing and marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material, machines and machine tools, namely laser printers for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, product packaging (including laser sources, electrical power units, computers, computer operating programs for use therewith, optical devices for guiding and aligning laser beams); coders with programmable thermal transfer controllers for inkjet printers, controllers for inkjet printers; controllers for thermal printers; controllers for thermal pintheads; readers and coders of radio frequency identification (RFID) markers (tags); applicators of radio frequency identification markers (tags); readers and coders of intelligent labels; control and verification devices for printing machine marking systems; machines for marking and coding products and product packaging; inkjet printers, thermal printers, thermal transfer printers, label printers, printers with inkjet printing and programmable thermal transfer corders, printers for printing by impact, inkjet, ink roller, thermal transfer, percussion and laser for marking and coding information, designs, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging; readers and coders of intelligent labels; applicators of intelligent labels; laser coders for marking and coding; electronic controllers for printing machines; inkjet printing machines, marking machines, machines for printing, marking and coding products, machines for marking and coding products and product packaging; inkjet printers, thermal printers, thermal transfer printers, label printers, inkjet printer, thermal transfer, percussion and laser for marking and coding information; inkjet printers, thermal transfer printers, label printers, inkjet printer, thermal transfer, percussion and laser for marking and coding information; logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging; readers and coders of intelligent labels; laser coders for marking and coding; electronic controllers for conveyors used to move articles in front of an inkjet printing station; electronic overprinting machines for printing batch codes, expiry dates, bar codes and/or variable information directly on packaging materials, labels and goods; software for creating product identification or coding information; monitoring software for printing machines; product identification and traceability management software; database software for product identification; computer programs for use in linking, managing and controlling printers; thermal printer programs for generating labels; computer programs for marking goods; computer programs for configuring and controlling printers; computer programs for forming data in a printable format; computer programs for controlling machines for marking and coding by laser and for printing; computer programs for synchronising and checking data originating from multiple sources; computer programs for preparing reports in graphic format at texts for management of logistical chains and of goods manufacture and of compliance with regulations; computer programs for marking and coding products and product packaging and for controlling marking and coding machines; intelligent tags (electronic tags) containing identification information or information sensors for goods; intelligent labels containing identification information or information sensors; printers, ink-jet printers, printers for marking, thermal printers, marking and coding products and product packaging; inkjet printers, thermal printers, thermal transfer printers, label printers, thermal transfer, percussion and laser printers for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging; inkjet printer pintheads; thermal pintheads; inkjet-pintheads; printers for printing, affixing and application of labels; printers for application of protective and decorative coatings to surfaces.

16 Ribbons for thermal transfer printers; labels, not of textile, for label printers, labels, not of textile, for label printing, affixing and application systems.

37 Installation, repair, maintenance and servicing with regard to machines and machine tools, namely printing machines; installation, repair, maintenance and servicing with regard to inkjet printing machines; installation, repair, maintenance and servicing with regard to marking printing machines; installation, repair, maintenance and servicing with regard to printing, marking and coding machines for products and product packaging; installation, repair, maintenance and servicing with regard to inkjet printers; installation, repair, maintenance and servicing with regard to thermal printers; installation, repair, maintenance and servicing with regard to thermal transfer printers; installation, repair, maintenance and servicing with regard to label printers; installation, repair, maintenance and servicing with regard to printing machines using impact, ink, roller, thermal transfer, percussion and laser for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging; installation, repair, maintenance and servicing with regard to inkjet printheads; installation, repair, maintenance and servicing

technical assistance services, namely diagnostics and breakdown maintenance for ink-jet printing machines; technical assistance services, namely diagnostics and breakdown maintenance for marking printing machines; technical assistance services, namely diagnostics and breakdown maintenance for printing, marking and coding machines for products and product packaging; technical assistance services, namely diagnostics and breakdown maintenance for ink-jet printers; technical assistance services, namely diagnostics and breakdown maintenance for thermal printers; technical assistance services, namely diagnostics and breakdown maintenance for thermal transfer printers; technical assistance services, namely diagnostics and breakdown maintenance for label printers; technical assistance services, namely diagnostics and breakdown maintenance for marking machines; technical assistance services, namely diagnostics and breakdown maintenance for coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging; technical assistance services, namely diagnostics and breakdown maintenance for inkjet pintheads; technical assistance services, namely diagnostics and breakdown maintenance for inkjet printer pintheads; technical assistance services, namely diagnostics and breakdown maintenance for thermal pintheads; technical assistance services, namely diagnostics and breakdown maintenance for label applicators; technical assistance services, namely diagnostics and breakdown maintenance for label printing, affixing and applying labels; technical assistance services, namely diagnostics and breakdown maintenance for applications for applicators of radio frequency identification markers (tags); technical assistance services, namely diagnostics and breakdown maintenance for applicators of intelligent labels; technical assistance services, namely diagnostics and breakdown maintenance for machines for applying protective and decorative coatings to surfaces; technical assistance services, namely diagnostics and breakdown maintenance for printing and marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material; technical assistance services, namely diagnostics and breakdown maintenance for laser printers; technical assistance services, namely diagnostics and breakdown maintenance for laser labels, markers (tags), boxes, pallets, products and product packaging (including laser sources, an electronic power supply, computers, computer operating programs for use therewith, optical devices for guiding and alignment of laser beam); technical assistance services, namely diagnostics and breakdown maintenance for machines and machine tools; technical assistance services, namely diagnostics and breakdown maintenance for machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material; technical assistance services, namely diagnostics and breakdown maintenance for machines and machine tools, namely laser coders for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, product packaging (including laser sources, electrical power units, computers, computer operating programs for use therewith, optical devices for guiding and aligning laser beams); technical assistance services, namely diagnostics and breakdown maintenance for coders with programmable thermal transfer; technical assistance services, namely diagnostics and breakdown maintenance for controllers for inkjet pintheads; technical assistance services, namely diagnostics and breakdown maintenance for controllers for thermal printers; technical assistance services, namely diagnostics and breakdown maintenance for controllers for thermal pintheads; technical assistance services, namely diagnostics and breakdown maintenance for readers and coders of radio frequency identification markers (tags); technical assistance services, namely diagnostics and breakdown maintenance for applicators of radio frequency identification markers (tags); technical assistance services, namely diagnostics and breakdown maintenance for readers and coders of intelligent labels; technical assistance services, namely diagnostics and breakdown maintenance for readers and coders of intelligent labels; technical assistance services, namely diagnostics and breakdown maintenance for verification devices for printing machines, inkjet printing machines, marking machines, machines for printing, marking and coding printers, printers for marking and coding products and product packaging, inkjet printers, thermal printers, thermal transfer printers, label printers, printers with inkjet printing and programmable thermal transfer coders, printers for printing by impact, inkjet, ink roller, thermal transfer, percussion and laser for marking and coding information, designs, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging; readers and coders of intelligent labels, applicators of intelligent labels, laser coders for marking and coding; technical assistance services, namely diagnostics and breakdown maintenance for electronic controllers for printing machines, inkjet printing machines, marking machines, machines for printing, marking and coding machines, machines for marking and coding products and product packaging, inkjet printers, thermal printers, thermal transfer printers, label printers, inkjet printers and programmable thermal transfer coders, printing machines using impact, inkjet, ink roller, thermal transfer, percussion and laser for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging; readers and coders of intelligent labels, laser coders for marking and coding; technical assistance services, namely diagnostics and breakdown maintenance for marking machines, machines for marking and coding machines, machines for marking and coding products and product packaging, inkjet printers, thermal printers, thermal transfer printers, label printers, inkjet printers and programmable thermal transfer coders, printing machines using impact, inkjet, ink roller, thermal transfer, percussion and laser for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging; technical assistance services, namely diagnostics and breakdown maintenance for electronic overprinting machines for printing batch codes, expiry dates, bar codes and/or variable information directly on

the preparation of ink, thinners, solvents and additives for ink, cartridges filled with ink for inkjet printers and printing machines, filled cartridges containing ink solvents and additives used in inkjet printers and printing machines, protective and decorative chemicals for surface coating, in the form of dispersions of resins and additives, for application by machines to the surface of objects, namely resins, varnishes, inks and additives for surface coating for application by machines to the surface of objects, chemicals materials, such as resins, varnishes, inks and additives for coatings applied by machines.

07 Machines and machine tools, namely printing machines, inkjet printing machines, marking machines, printing, marking and coding machines for products and product packaging; inkjet printing machines, thermal printing machines, thermal transfer printing machines, label printing machines, printing machines using impact, inkjet, ink roller, thermal transfer, percussion and laser for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging; inkjet print heads, inkjet printer print heads, thermal print heads, label applicators, label printing, affixing and application machines, applicators of radio frequency identification markers (tags); applicators of intelligent labels, machines for applying protective and decorative coatings to surfaces; printing and marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material; machines and machine tools, namely laser coders for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, product packaging (including laser sources, electrical power units, computers, computer operating programs for use therewith, optical devices for guiding and aligning laser beams), machines and machine tools, namely programmable thermal transfer coders, machines and machine tools, namely readers and coders of radiofrequency identification markers (tags), machines and machine tools, namely readers and coders of intelligent labels.

09 Printing and marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material, machines and machine tools, namely laser coders for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, product packaging (including laser sources, electrical power units, computers, computer operating programs for use therewith, optical devices for guiding and aligning laser beams); coders with programmable thermal transfer, controllers for inkjet printers, controllers for inkjet print heads; controllers for thermal printers, controllers for thermal print heads, label applicators, readers and coders of radio frequency identification markers (tags); applicators of radio frequency identification markers (tags), readers and coders of intelligent labels, applicators of intelligent labels; control and verification devices for printing machines, inkjet printing machines, marking machines, machines for printing, marking and coding machines, machines for marking and coding products and product packaging, inkjet printers, thermal printers, thermal transfer printers, label printers, inkjet printer and programmable thermal transfer coders, printing machines using impact, inkjet, ink roller, thermal transfer, percussion and laser for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging, readers and coders of intelligent labels, applicators of intelligent labels, laser coders for marking and coding, electronic controllers for printing machines, inkjet printing machines, marking machines, machines for printing, marking and coding machines, machines for marking and coding products and product packaging, inkjet printers, thermal printers, thermal transfer printers, label printers, inkjet printer and programmable thermal transfer coders, printing machines using impact, inkjet, ink roller, thermal transfer, percussion and laser for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging, readers and coders of intelligent labels, applicators of intelligent labels, label printers, affixing and application machines, applicators of radio frequency identification markers (tags); applicators of intelligent labels, machines for applying protective and decorative coatings to surfaces, printing and marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material, laser printing machines for marking and coding information, designs, logos, barcodes and messages on labels, markers (tags), boxes, pallets, products and product packaging (including laser sources, an electronic power supply, computers, computer operating programs for use therewith, optical devices for guiding and alignment of laser beam), machines and machine tools, namely programmable thermal transfer coders; reading and encoding machines for radio frequency identification markers (tags); reading and encoding machines for intelligent labels

37 Installation, repair, maintenance and servicing, all relating to goods in classes 7 and 9 of this application, technical assistance services, namely diagnostics and breakdown maintenance, all relating to goods in classes 7 and 9 of this

16 / 23

printers, label printers, printers with inkjet printing and programmable thermal transfer codes, printers for printing by impact, inkjet, ink roller, thermal transfer, percussion and laser for marking and coding information, designs, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging, readers and coders of intelligent labels, applicators of intelligent labels, laser codes for marking and coding, electronic controllers for printing machines, inkjet printing machines, marking machines, machines for printing, marking and coding machines, machines for marking and coding products and product packaging, inkjet printers, thermal transfer printers, thermal transfer printers with programmable thermal transfer codes, printing machines using impact, inkjet, ink roller, thermal transfer, percussion and laser for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging, readers and coders of intelligent labels, laser codes for marking and coding, electronic controllers for conveyors used to move articles in front of an inkjet printing station, electronic overprinting machines for printing batch codes, expiry dates, bar codes and/or variable information directly on packaging materials, labels and goods, software for creating product labels, software for creating labels, software for monitoring software for marking, inkjet printers, thermal transfer printers and traceability management software, database software for product identification, computer programs for use in linking, managing and operating printers, computer programs for generating laser markings and printing goods for others, computer programs for configuring and controlling printing systems, computer programs for formatting data in a printable format, computer programs for controlling machines for marking and coding by laser and for printing, computer programs for synchronising and checking data originating from multiple sources, computer programs for preparing reports in graphical format or texts for marking, inkjet printers, thermal transfer printers, thermal transfer printers with programmable thermal transfer codes, machines for marking and coding products and product packaging and for controlling marking and coding machines, intelligent tags (electronic tags) containing identification information or information sensors for goods, intelligent labels containing identification information or information sensors, printers, inkjet printers, printers for marking, printers for printing, marking and coding products and product packaging, thermal printer units, thermal transfer printers, label printers, impact, inkjet, ink roller, thermal transfer, percussion and laser printers for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging, inkjet printers, thermal transfer printers, inkjet printers, inkjet printers, printers for printing, affixing and applying intelligent labels, printers for application of protective and decorative coatings to surfaces.

16 Ribbons for thermal transfer printers; labels, not of textile, for label printers, labels, not of textile, for label printing, affixing and application systems

37. Installation, repair, maintenance and servicing with regard to machines and machine tools, namely printing machines, installation, repair, maintenance and servicing with regard to ink-jet printing machines, installation, repair, maintenance and servicing with regard to marking printing machines, installation, repair, maintenance and servicing with regard to printing, marking and coding machines for products and product packaging, installation, repair, maintenance and servicing with regard to ink-jet printers, installation, repair, maintenance and servicing with regard to thermal printers, installation, repair, maintenance and servicing with regard to thermal transfer printers, installation, repair, maintenance and servicing with regard to digital color copiers, installation, repair, maintenance and servicing with regard to impact, ink-jet, roller, thermal transfer, percussion and laser for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging, installation, repair, maintenance and servicing with regard to ink-jet printheads, installation, repair, maintenance and servicing with regard to inkjet printer printheads, installation, repair, maintenance and servicing with regard to thermal printheads, installation, repair, maintenance and servicing with regard to label applicators, installation, repair, maintenance and servicing with regard to specific marking machines, installation, repair, maintenance and servicing with regard to applicators of radio frequency identification markers (tags), installation, repair, maintenance and servicing with regard to applicators of intelligent labels, installation, repair, maintenance and servicing with regard to machines for applying protective and decorative coatings to surfaces, installation, repair, maintenance and servicing with regard to printing and marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material, installation, repair, maintenance and servicing with regard to laser printing machines for marking and coding information, installation, repair, maintenance and servicing with regard to marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging, (including laser sources, an electronic power supply, computers, computer operating programs for use therewith, optical devices for guiding and alignment of laser beam), installation, repair, maintenance and servicing with regard to machines and machine tools, namely programmable thermal transfer coders, installation, repair, maintenance and servicing with regard to reading and encoding machines for radio frequency identification markers (tags), installation, repair, maintenance and servicing with regard to marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material, installation, repair, maintenance and servicing with regard to printing and marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material, installation, repair, maintenance and servicing with regard to machines and machine tools, namely laser coders for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, product packaging (including laser sources, electrical power units, computers, computer operating programs for use therewith, optical devices for guiding and aligning laser beams), installation, repair, maintenance and servicing with regard to marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material, installation, repair, maintenance and servicing with regard to controllers for inkjet printers, installation, repair,

installation and servicing with regard to controllers for inkjet printheads, installation, repair, maintenance and servicing with regard to controllers for thermal printers, installation, repair, maintenance and servicing with regard to controllers for thermal printheads, installation, repair, maintenance and servicing with regard to readers and coders of radio frequency identification markers (tags), installation, repair, maintenance and servicing with regard to readers and coders of intelligent labels, installation, repair, maintenance and servicing with regard to readers and coders of intelligent labels, installation, repair, maintenance and servicing with regard to control and verification devices for printing machines, inkjet printing machines, marking machines, machines for printing, marking and coding printers, printers for marking and coding products and product packaging, inkjet printers, thermal printers, thermal transfer printers, label printers, printers with inkjet printing and programmable thermal transfer coders, printers for printing by impact, inkjet, ink roller, thermal transfer, percussion and laser for marking and coding information on designs, logos, bar codes, messages or labels, (tags), boxes, pallets, products and product packaging, readers and coders of intelligent labels, laser coders for marking and coding, installation, repair, maintenance and servicing with regard to electronic controllers for printing machines, inkjet printing machines, marking machines, machines for printing, marking and coding machines, machines for marking and coding products and product packaging, inkjet printers, thermal printers, thermal transfer printers, label printers, inkjet printers and programmable thermal transfer coders, printing machines using impact, inkjet, ink roller, thermal transfer, percussion and laser for marking and coding information on designs, logos, bar codes, messages or labels, (tags), boxes, pallets, products and product packaging, readers and coders of intelligent labels, laser coders for marking and coding, installation, repair, maintenance and servicing with regard to electronic controllers for conveyors used to move articles in front of an inkjet printing station, installation, repair, maintenance and servicing with regard to electronic operating machines for printing batch codes, expiry dates, bar codes and/or variable information directly on packaging materials, labels and goods, installation, repair, maintenance and servicing with regard to inkjet printers, installation, repair, maintenance and servicing with regard to inkjet printers for good to go, installation, repair, maintenance and servicing with regard to intelligent labels containing identification information or information sensors, installation, repair, maintenance and servicing with regard to printers, installation, repair, maintenance and servicing with regard to inkjet printers, installation, repair, maintenance and servicing with regard to printers for printing, marking and coding products and product packaging, installation, repair, maintenance and servicing with regard to thermal printer units, installation, repair, maintenance and servicing with regard to inkjet printers, installation, repair, maintenance and servicing with regard to inkjet printers, installation, repair, maintenance and servicing with regard to label printers, installation, repair, maintenance and servicing with regard to impact, inkjet, ink roller, thermal transfer, percussion and laser printers for marking and coding information, drawings, logos, bar codes and messages or labels, markers (tags), boxes, pallets, products and product packaging, installation, repair, maintenance and servicing with regard to inkjet printer printheads, installation, repair, maintenance and servicing with regard to thermal printheads, installation, repair, maintenance and servicing with regard to inkjet printheads, installation, repair, maintenance and servicing with regard to thermal printers, installation, repair, maintenance and servicing with regard to thermal printers, installation, repair, maintenance and servicing with regard to printers for application of protective and decorative coatings to surfaces, technical assistance services, namely diagnostics and breakdown maintenance for machines and machine tools, namely printing machines, technical assistance services, namely diagnostics and breakdown maintenance for inkjet printing machines, technical assistance services, namely diagnostics and breakdown maintenance for marking printing machines, technical assistance services, namely diagnostics and breakdown maintenance for printing, marking and coding machines for products and product packaging, technical assistance services, namely diagnostics and breakdown maintenance for inkjet printers, technical assistance services, namely diagnostics and breakdown maintenance for thermal printers, technical assistance services, namely diagnostics and breakdown maintenance for thermal transfer printers, technical assistance services, namely diagnostics and breakdown maintenance for label printers, technical assistance services, namely diagnostics and breakdown maintenance for printing machines using impact, inkjet, ink roller, thermal transfer, percussion and laser for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging, technical assistance services, namely diagnostics and breakdown maintenance for inkjet printheads, technical assistance services, namely diagnostics and breakdown maintenance for inkjet printers, technical assistance services, namely diagnostics and breakdown maintenance for thermal printheads, technical assistance services, namely diagnostics and breakdown maintenance for label applicators, technical assistance services, namely diagnostics and breakdown maintenance for label printing, affixing and application machines, technical assistance services, namely diagnostics and breakdown maintenance for application of radio frequency identification markers (tags), technical assistance services, namely diagnostics and breakdown maintenance for applicators of intelligent labels, technical assistance services, namely diagnostics and breakdown maintenance for machines for applying protective and decorative coatings to surfaces, technical assistance services, namely diagnostics and breakdown maintenance for printing and marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material, technical assistance services, namely diagnostics and breakdown maintenance for label printing machines for marking and coding information on designs, logos, bar codes, messages or labels, (tags), boxes, pallets, products and product packaging (including laser sources, an electronic power supply, computers, computer operating programs for use therewith, optical devices for guiding and alignment of laser beam), technical assistance services, namely diagnostics and breakdown maintenance for machines and machine tools, namely programmable

[illegible][illegible]

40 Assistance services for recycling printers, print machines, laser encoders, readers, printing machines, marking machines and encoding machines, disposal of waste from consumable supplies in the field of marking, printing, industrial encoding and product identification.

42. Consultancy services regarding computer engineering in the field of marking, printing, industrial encoding and product identification; updating of computer software in the field of marking, printing, industrial encoding and product identification; rental of software for creating product identification or coding information, monitoring software for printing machines, product identification and traceability management software, database software for product identification, interactive traceability systems; rental of computer programs for generating laser markings and printing goods for others; rental of computer programs for configuring and controlling printing systems; rental of computer programs for formatting data in a printable format; rental of computer programs for preparing reports in graphic form originating from multiple sources; rental of computer programs for preparing reports in graphic form or checking data originating from multiple sources; rental of computer programs for preparing reports in graphic form or texts for management of logistical chains and of goods manufacture and of compliance with regulations; rental of computer programs for marking and coding products and product packaging and for controlling marking and coding machines; installation, repair, maintenance and servicing with regard to software for creating product identification or coding information; monitoring software for printing machines, product identification and traceability management software, database software for product identification, interactive traceability systems; installation, repair, maintenance and servicing with regard to computer programs for configuring and controlling printing systems; rental of computer programs for configuring and controlling printing systems; installation, repair, maintenance and servicing with regard to computer programs for formatting data in a printable format; installation, repair, maintenance and servicing with regard to computer programs for controlling machines; for marking and coding by laser and for printing; installation, repair, maintenance and servicing with regard to computer programs for synchronising and checking data originating from multiple sources; installation, repair, maintenance and servicing with regard to computer programs for preparing reports in graphic form or texts for management of logistical chains and of goods manufacture and of compliance with regulations; rental of computer programs for preparing reports in graphic form or texts for management of logistical chains and of goods manufacture and of compliance with regulations; rental of computer programs for preparing reports in graphic form or texts for management of logistical chains and of goods manufacture and of compliance with regulations; rental of computer programs for preparing reports in graphic form or texts for management of logistical chains and of goods manufacture and of compliance with regulations.
