WORLD INTELLECTUAL PROPERTY ORGANIZATION
INTERNATIONAL REGISTRATIONS DEPARTMENT
34, CHEMIN DES COLOMBETTES, 1211 GENEVA 20
SWITZERLAND

Dear Sir/Madam

NOTIFICATION OF PROVISIONAL REFUSAL OF PROTECTION TO THE INTERNATIONAL BUREAU OF THE WORLD INTELLECTUAL PROPERTY ORGANIZATION ACCORDING TO ARTICLE 5 OF THE PROTOCOL RELATING TO THE MADRID AGREEMENT CONCERNING THE INTERNATIONAL REGISTRATION OF MARKS

1. Office making the notification:

Intellectual Property Office of Singapore (IPOS)

2. International Registration Number:

1493741

3. Trade Mark Number(s) issued by the IPOS for this International Registration:

Trade Mark Number : 40201923324Q

Class Number(s) : 09

4. Name of holder of the International Registration:

POPSOCKETS LLC

5. Ground(s) of the Provisional Refusal:

Provisions of Singapore Law: The relevant provisions of Singapore law are attached.

5.1 Section 7(1)(b)

The mark is objectionable under section 7(1) of the Trade Marks Act (Cap. 332, 2005 Rev. Ed.) as:

it is devoid of any distinctive character as it consists solely of the three-dimensional shape of a mobile device grip. When applied in the context of the goods claimed, the mark serves only to indicate the type of goods offered by the applicant and would therefore not be perceived as the trade indicator of the applicant's goods without education on the part of the average consumers that it is a trade mark. Section 7(1)(b) objection applies to all the goods claimed in Class 09.

Ideas Today. Assets Tomorrow.

5.2 **Section 7(1)(c)**

it consists exclusively of signs or indications which may serve, in trade, to designate the kind of goods offered by the applicant. As the mark consists solely of a three-dimensional shape of a mobile device grip and stand, it is directly descriptive of the claimed goods which are hand grips, stands, and mounts adapted for electronic devices such as smartphones. As such, the mark is objectionable under Section 7(1)(c) of the Trade Marks Act. Section 7(1)(c) objection applies to all the goods claimed in Class 09.

5.3 **How to overcome our objection(s) under section 7(1)(b), (c) and/or (d)**

Please file evidence showing that the mark has, before the date of application, in fact acquired a distinctive character as a result of the use made of it in Singapore. The evidence should relate to at least 5 years of use prior to the date of application of the mark. The evidence of use should be filed by way of a statutory declaration. For guidance as to how the evidence of use should be presented, please refer to the Registry's web site at <http://goo.gl/a1CjVx>.

5.4 **Claim for non-conventional mark**

According to our Internet searches at <https://www.popsockets.com/> and <https://www.amazon.in/PopSockets-101000-Popsockets-Grip-Mount/dp/B00UY1YTGG> (copies of which are attached), the three-dimensional shape of which the mark consists is the collapsible mobile phone grip. In this regard, please refer to our Circular No. 2/2017 on Examination Practice with respect to Shape Marks at <https://www.ipos.gov.sg/docs/default-source/resources-library/trademarks/circulars/2017/2017-circular-2---examination-practice-with-respect-to-shapemarks88e51877c2d0635fa1cdff0000abd271.pdf> (a copy of which is attached).

To assist in the examination of the 3-dimensional shape mark, please provide the following information:

- State the essential feature(s) of the shape mark;
- Provide relevant information on whether the essential feature(s) would be necessary to obtain a technical result.

Please note that an objection under Section 7(3)(b) would be raised if it is determined that the mark contains features of the goods that are essential and necessary to obtain a technical result.

As the application is for 3-dimensional shape mark registration, please be informed that we have endorsed the claim: "The trade mark consists of a three-dimensional shape of a mobile device grip and stand featuring a tapered mid-section, as shown in the representation on the notification of international registration".

6. **Goods and/or services affected by the refusal:**

This refusal applies to all the goods in Class(es) 09 of the international registration.

7. **Request for review:**

Ideas Today. Assets Tomorrow.

The holder of the international registration may file a request for a review of this refusal with IPOS.

The request for review must comply with the following:

- (a) quote the International Registration number, relevant trade mark number(s), corresponding class number(s) and Singapore reference number(s).
- (b) furnish an address for service in Singapore. The holder may appoint an agent by filing Form CM1.

Please note that any form(s) filed with the International Bureau of the World Intellectual Property Organization in response to this refusal, will not be treated as a request for a review of this refusal unless the above has been complied with.

8. Extension of time:

The holder may seek an extension of time to request for a review of this refusal by filing Form CM5.

9. Deadline to observe:

If the holder does not file a request for review or apply for an extension of time to do so by **21 May 2020**, the application for the refused goods and/or services indicated in paragraph 6 of this refusal will be treated as withdrawn (reinstatable). Please refer to paragraph 10 on reinstatement of an application that is treated as withdrawn (reinstatable).

10. Reinstatement of an application that is treated as withdrawn (reinstatable):

If the application for the refused goods and/or services indicated in paragraph 6 of this refusal becomes treated as withdrawn (reinstatable), the holder may request to reinstate the application by filing Form CM13 together with the request for review within six months from the deadline in paragraph 9.

Please note that reinstatement is not automatic. Reinstatement will be allowed only after we have conducted a new conflicting mark search and are satisfied that the mark to be reinstated does not conflict with any trade mark applications filed with IPOS prior to the filing of the required documents.

If the holder also does not request to reinstate the application in time, the application for goods and/or services that are not refused will proceed to publication.

11. Forms and fees:

The forms referred to in this provisional refusal and the relevant fees may be found at <https://www.ip2.sg/>.

12. Further refusal of protection:

Please note that a further refusal of protection may result from an opposition, which may be filed after the expiry of 18 months from the date on which the Intellectual Property Office of Singapore was notified of the international registration. This applies to all goods and/or services claimed in the international registration.

Ideas Today. Assets Tomorrow.

This refusal is issued by:

Mr. Ng Hong Wee
Assistant Registrar
for Registrar of Trade Marks
Singapore

Horrible quality. The picture on the popsocket is just a painted or printed picture. Where as the picture shows it's shiny. It's dull.

The adhesive could have been stronger.... It is pretty gud for weightless plastic back phones but donot think it will hold for long with heavier ones... It does come with an extra sticker for phones with anti fingerprint coating tho.... The packaging was very nice

Super usable. You can with confidence hold your phone while taking selfies or while texting with one hand. Will come handy for large phones. I use it on an ipad, it kinda takes a few attempts to find the right spot.

Not so attractive

Very expensive. Top side is not attractive, it is fixed with plastic type material. I hoped it was glassy but not so. But it is long lasting and prevents phone from falling

Question: Will it keep its remains on the case when it will be switched to another case

0 votes

Answer: The sticker is very sticky and hence if you need to change to another cover, you have to remove it carefully and with a double sided sticker, can paste it on other. The effectiveness depends on the sticker you use second time.

Duplicate fake product. Not Popsocket.

This is not an original Popsocket product. It's some kind of cheap imitation. Poor quality duplicate stuff called Fashion Phone. Returning it right away.

Expected to be worth of cost, but appeared to be not.

I bought the pop socket at a cost of Rs. 654.50/- because I prefer quality over price since I don't want to damage my phone. While sticking I clean the phone cover properly and started using it. Sadly the gum

not lasted even for half a day. By luck, I was able to catch my phone when the gum came off. If it cant provide long-lasting gum then I should have gone for a cheaper product. Totally disappointing.

I got original product. It sticks very well and it is reusable. I am using the same pop socket for my second phone. For wider phones u cannot use it as a hands free stand. U may use 2 at a time for that purpose. Provides good grip for taking selfies.

The only pop up socket that didn't come out

13 February 2019

I am not sure why this has soany bad reviews. I went through like tonnes of pop up sockets and each one of them would either suddenly tear of the back cover or the holder would pop out and/or become lose. This is the only pop up holder which has lasted the longest. It's been a year. I bought the plain black one. My phone is oneplus 5

Pathetic product!!

18 September 2019

Colour: Aluminum Grey Verified Purchase

I read the entire set of reviews, checked the buyer, checked the original PopSocket website and finally purchased this product. The item came in the original PopSocket package, but the first warning sign was the absence of any brand (3M etc) logo on the adhesive back cover tape. The second warning sign was when I stuck it to the back of the phone. The adhesion seemed adequate, but the moment I carefully popped it, the socket came right off. I thought maybe it requires a few hours to adhere properly, so did that too, but alas! No joy! Do not waste your money on this, I happened to buy another one at ₹ 99 at Sangeetha Mobile Store at T Nagar and it stuck in like superglue.

Worth it

6 September 2019

Colour: Black Verified Purchase

It's a great product. At first i thought it's a bit overpriced but later on using it on a daily basis now, its feels very handy and useful. I am using this with a matte finish cover. There is a round shaped transparent plastic adhesive film which i had to use before sticking the pop socket which makes it very firmly attached to my phone cover now.

Examination Practice with respect to Shape Marks

(Circular No. 2/2017, dated 24 Feb 2017)

The Registry has reviewed its examination practice with respect to shape marks in light of the recent legal developments in this area, in particular, the decision of the Singapore Court of Appeal in *Société des Produits Nestlé SA and another v Petra Foods Ltd and another* [2017] 1 SLR 35.

Under section 7(3)(b) of the Trade Marks Act, a sign shall not be registered as a trade mark if it consists exclusively of the shape of the goods which is necessary to obtain a technical result.

From 1 March 2017, the Registry will implement a new examination practice for trade mark applications comprising shape marks where a section 7(3)(b) objection may be contemplated.

Under this practice, the Registry may request, by way of an Office Action, for additional information related to the trade mark application. Specifically, the applicant may be requested to:

- i. State the essential feature(s) of the shape mark; and
- ii. Provide relevant information on whether the essential feature(s) would be necessary to obtain a technical result.

This practice will apply to trade mark applications comprising shape marks filed on or after 1 March 2017.

For more information on shape marks, please refer to the Trade Marks Work Manual chapter on “Shape Marks” by clicking [here](#).
