The mark "LED LIGHT DESIGN" consists exclusively of a sign which may serve in trade to designate the kind and characteristic of the goods, for example, lighting apparatus and installations for vehicles, anti-glare devices for vehicle, pockets lamps and refrigerating apparatus all being or incorporating led light designs.

It is felt that the relevant consumer would not give the mark as a whole any trademark significance and would perceive the mark as a description of the goods on offer i.e. LED light designs and ancillary goods which incorporate LED light designs rather than indicating brand origin.

The mark is devoid of any distinctive character. It is considered that the words "LED LIGHT DESIGN" should be available for the other manufacturers in the relevant field to use and cannot be monopolized through registration as a trade mark.
