

**United States Patent and Trademark Office (USPTO)**  
**Office Action (Official Letter) About Applicant's Trademark Application**

**U.S. Application Serial No.** 79287924

**Mark:** QUICK LIGHTING MOUNT

**Correspondence Address:**  
SKW Schwarz Rechtsanwälte  
Wittelsbacherplatz 1  
80333 München  
FED REP GERMANY

**Applicant:** Arnold & Richter Cine Technik GmbH & Co. ETC.

**Reference/Docket No.** N/A

**Correspondence Email Address:**

**NONFINAL OFFICE ACTION**

**International Registration No.** 1536764

**Notice of Provisional Full Refusal**

**Deadline for responding.** The USPTO must receive applicant's response **within six months of the "date on which the notification was sent to WIPO (mailing date)"** located on the WIPO cover letter, or the U.S. application will be abandoned. To confirm the mailing date, go to the USPTO's Trademark Status and Document Retrieval (TSDR) database, select "US Serial, Registration, or Reference No.," enter the U.S. application serial number in the blank text box, and click on "Documents." The mailing date used to calculate the response deadline is the "Create/Mail Date" of the "TB-1st Refusal Note."

Respond to this Office action using the USPTO's Trademark Electronic Application System (TEAS). A link to the appropriate TEAS response form appears at the end of this Office action.

**Discussion of provisional full refusal.** This is a provisional full refusal of the request for extension of protection to the United States of the international registration, known in the United States as a U.S. application based on Trademark Act Section 66(a). *See* 15 U.S.C. §§1141f(a), 1141h(c).

The applicant must address the following issues:

- Likelihood of confusion
- Mark is merely descriptive
- Disclaimer
- Identification of goods
- U.S. counsel requirement

**SECTION 2(d) REFUSAL – LIKELIHOOD OF CONFUSION**

Registration of the applied-for mark is refused because of a likelihood of confusion with the mark in U.S. Registration No. 3478981. Trademark Act Section 2(d), 15 U.S.C. §1052(d); *see* TMEP §§1207.01 *et seq.* *See* the enclosed registration.

Trademark Act Section 2(d) bars registration of an applied-for mark that so resembles a registered mark that it is likely a potential consumer would be confused, mistaken, or deceived as to the source of the goods and/or services of the applicant and registrant. *See* 15 U.S.C. §1052(d). A determination of likelihood of confusion under Section 2(d) is made on a case-by case basis and the factors set forth in *In re E. I. du Pont de Nemours & Co.*, 476 F.2d 1357, 177 USPQ 563 (C.C.P.A. 1973) aid in this determination. *Citigroup Inc. v. Capital City Bank Grp., Inc.*, 637 F.3d 1344, 1349, 98 USPQ2d 1253, 1256 (Fed. Cir. 2011) (*citing On-Line Careline, Inc. v. Am. Online, Inc.*, 229 F.3d 1080, 1085, 56 USPQ2d 1471, 1474 (Fed. Cir. 2000)). Not all the du Pont factors, however, are necessarily relevant or of equal weight, and any one of the factors may control in a given case, depending upon the evidence of record. *Citigroup Inc. v. Capital City Bank Grp., Inc.*, 637 F.3d at 1355, 98 USPQ2d at 1260; *In re Majestic Distilling Co.*, 315 F.3d 1311, 1315, 65 USPQ2d 1201, 1204 (Fed. Cir. 2003); *see In re E. I. du Pont de Nemours & Co.*, 476 F.2d at

In this case, the following factors are the most relevant: similarity of the marks, similarity and nature of the goods and/or services, and similarity of the trade channels of the goods and/or services. *See In re Viterra Inc.*, 671 F.3d 1358, 1361-62, 101 USPQ2d 1905, 1908 (Fed. Cir. 2012); *In re Dakin's Miniatures Inc.*, 59 USPQ2d 1593, 1595-96 (TTAB 1999); TMEP §§1207.01 *et seq.*

The applicant applied to register **QUICK LIGHTING MOUNT**, for, in pertinent part:

Film lighting, video lighting and stage lighting apparatus and installations; luminaires, spotlights, headlights and other lighting items; lamp stands; fitted suspension and mounting devices for lights; mounts for lighting equipment, namely, for film, video and stage lights, to which reflectors, lenses, optics, diffusers or other accessories are affixed; fittings and spare parts for the aforementioned goods

The registered mark is **QUICK-MOUNT** for electric lighting fixtures.

Marks are compared in their entireties for similarities in appearance, sound, connotation, and commercial impression. *In re Viterra Inc.*, 671 F.3d 1358, 1362, 101 USPQ2d 1905, 1908 (Fed. Cir. 2012) (*quoting In re E. I. du Pont de Nemours & Co.*, 476 F.2d 1357, 1361, 177 USPQ 563, 567 (C.C.P.A. 1973)); TMEP §1207.01(b)-(b)(v). Similarity in any one of these elements may be sufficient to find the marks confusingly similar. *In re White Swan Ltd.*, 8 USPQ2d 1534, 1535 (TTAB 1988); *see In re 1st USA Realty Prof'ls, Inc.*, 84 USPQ2d 1581, 1586 (TTAB 2007); TMEP §1207.01(b).

When comparing marks, the test is not whether the marks can be distinguished in a side-by-side comparison, but rather whether the marks are sufficiently similar in their entireties that confusion as to the source of the goods and/or services offered under applicant's and registrant's marks is likely to result. *Midwestern Pet Foods, Inc. v. Societe des Produits Nestle S.A.*, 685 F.3d 1046, 1053, 103 USPQ2d 1435, 1440 (Fed. Cir. 2012); *Edom Labs., Inc. v. Lichter*, 102 USPQ2d 1546, 1551 (TTAB 2012); TMEP §1207.01(b). The focus is on the recollection of the average purchaser, who normally retains a general rather than specific impression of trademarks. *L'Oreal S.A. v. Marcon*, 102 USPQ2d 1434, 1438 (TTAB 2012); *Sealed Air Corp. v. Scott Paper Co.*, 190 USPQ 106, 108 (TTAB 1975); TMEP §1207.01(b).

The marks are very similar, as they both contain QUICK and MOUNT. The presence of the word LIGHTING in the applicant's mark does not obviate the similarity between the marks, as it is merely descriptive of the goods and merely emphasizes that the mark identifies lighting products.

The goods and/or services of the parties need not be identical or even competitive to find a likelihood of confusion. *See On-line Careline Inc. v. Am. Online Inc.*, 229 F.3d 1080, 1086, 56 USPQ2d 1471, 1475 (Fed. Cir. 2000); *Recot, Inc. v. Becton*, 214 F.3d 1322, 1329, 54 USPQ2d 1894, 1898 (Fed. Cir. 2000) ("[E]ven if the goods in question are different from, and thus not related to, one another in kind, the same goods can be related in the mind of the consuming public as to the origin of the goods."); TMEP §1207.01(a)(i).

The respective goods and/or services need only be "related in some manner and/or if the circumstances surrounding their marketing [be] such that they could give rise to the mistaken belief that [the goods and/or services] emanate from the same source." *Coach Servs., Inc. v. Triumph Learning LLC*, 668 F.3d 1356, 1369, 101 USPQ2d 1713, 1722 (Fed. Cir. 2012) (*quoting 7-Eleven Inc. v. Wechsler*, 83 USPQ2d 1715, 1724 (TTAB 2007)); *Gen. Mills Inc. v. Fage Dairy Processing Indus. SA*, 100 USPQ2d 1584, 1597 (TTAB 2011); TMEP §1207.01(a)(i).

The goods of the parties are closely related, if not identical.

In this case, the applicant uses broad wording to describe "film lighting, video lighting and stage lighting apparatus and installations" "and other lighting items" which presumably encompasses all goods of the type described, including the registrant's more narrow electric lighting fixtures. *See, e.g., In re Solid State Design Inc.*, 125 USPQ2d 1409, 1412-15 (TTAB 2018); *Sw. Mgmt., Inc. v. Ocinomled, Ltd.*, 115 USPQ2d 1007, 1025 (TTAB 2015). A lighting fixture is "a part of a light that is attached to the wall or ceiling where you put the light bulb or other lighting element, and which cannot be easily removed." <https://www.collinsdictionary.com/dictionary/english/lighting-fixture>. The applicant's goods are various lighting apparatus and installations, and other lighting items, which as presently described, can include any type of lighting for use in film and video production, and theatrical production, including lighting fixtures.

Thus, applicant's and registrant's goods are legally identical. *See, e.g., In re i.am.symbolic, llc*, 127 USPQ2d 1627, 1629 (TTAB 2018) (citing *Tuxedo Monopoly, Inc. v. Gen. Mills Fun Grp., Inc.*, 648 F.2d 1335, 1336, 209 USPQ 986, 988 (C.C.P.A. 1981); *Inter IKEA Sys. B.V. v. Akea, LLC*, 110 USPQ2d 1734, 1745 (TTAB 2014); *Baseball Am. Inc. v. Powerplay Sports Ltd.*, 71 USPQ2d 1844, 1847 n.9 (TTAB 2004)).

Additionally, the goods of the parties have no restrictions as to nature, type, channels of trade, or classes of purchasers and are "presumed to travel in the same channels of trade to the same class of purchasers." *In re Viterra Inc.*, 671 F.3d 1358, 1362, 101 USPQ2d 1905, 1908 (Fed. Cir. 2012) (*quoting Hewlett-Packard Co. v. Packard Press, Inc.*, 281 F.3d 1261, 1268, 62 USPQ2d 1001, 1005 (Fed. Cir. 2002)). Thus, applicant's and registrant's goods are related.

The attached Internet evidence, consisting of websites from five companies, establishes that the same entity commonly manufactures, produces, or provides the relevant goods and markets the goods under the same mark, and the relevant goods are sold or provided through the same trade channels and used by the same classes of consumers in the same fields of use. Thus, applicant's and registrant's goods are considered related for likelihood of confusion purposes. *See, e.g., In re Davey Prods. Pty Ltd.*, 92 USPQ2d 1198, 1202-04 (TTAB 2009); *In re Toshiba Med. Sys. Corp.*, 91 USPQ2d 1266, 1268-69, 1271-72 (TTAB 2009).

Here, the similarities among the marks and the goods of the parties are so great as to create a likelihood of confusion in the marketplace. Consumers are likely to believe that the goods of the parties emanate from a common source.

The overriding concern is not only to prevent buyer confusion as to the source of the goods and/or services, but to protect the registrant from adverse commercial impact due to use of a similar mark by a newcomer. *See In re Shell Oil Co.*, 992 F.2d 1204, 1208, 26 USPQ2d 1687, 1690 (Fed. Cir. 1993). Therefore, any doubt regarding a likelihood of confusion determination is resolved in favor of the registrant. TMEP §1207.01(d)(i); *see Hewlett-Packard Co. v. Packard Press, Inc.*, 281 F.3d 1261, 1265, 62 USPQ2d 1001, 1003 (Fed. Cir. 2002); *In re Hyper Shoppes (Ohio), Inc.*, 837 F.2d 463, 464-65, 6 USPQ2d 1025, 1026 (Fed. Cir. 1988).

Applicant should note the following additional ground for refusal.

#### MARK IS MERELY DESCRIPTIVE

Registration is refused because the applied-for mark merely describes the purpose and characteristics of applicant's goods. Trademark Act Section 2(e) (1), 15 U.S.C. §1052(e)(1); *see* TMEP §§1209.01(b), 1209.03 *et seq.*

A mark is merely descriptive if it describes an ingredient, quality, characteristic, function, feature, purpose, or use of an applicant's goods and/or services. TMEP §1209.01(b); *see, e.g., DuoProSS Meditech Corp. v. Inviro Med. Devices, Ltd.*, 695 F.3d 1247, 1251, 103 USPQ2d 1753, 1755 (Fed. Cir. 2012) (*quoting In re Oppedahl & Larson LLP*, 373 F.3d 1171, 1173, 71 USPQ2d 1370, 1371 (Fed. Cir. 2004)); *In re Steelbuilding.com*, 415 F.3d 1293, 1297, 75 USPQ2d 1420, 1421 (Fed. Cir. 2005) (*citing Estate of P.D. Beckwith, Inc. v. Comm'r of Patents*, 252 U.S. 538, 543 (1920)).

Determining the descriptiveness of a mark is done in relation to an applicant's goods and/or services, the context in which the mark is being used, and the possible significance the mark would have to the average purchaser because of the manner of its use or intended use. *See In re The Chamber of Commerce of the U.S.*, 675 F.3d 1297, 1300, 102 USPQ2d 1217, 1219 (Fed. Cir. 2012) (*citing In re Bayer Aktiengesellschaft*, 488 F.3d 960, 963-64, 82 USPQ2d 1828, 1831 (Fed. Cir. 2007)); TMEP §1209.01(b). Descriptiveness of a mark is not considered in the abstract. *In re Bayer Aktiengesellschaft*, 488 F.3d at 963-64, 82 USPQ2d at 1831.

The applicant applied to register QUICK LIGHTING MOUNT for

Optical filters; optical filter holders; adapters for lighting apparatus, included in this class; light-emitting diodes [LED]; light regulators; light controls; diaphragms and diaphragm shutters [photography]; fittings for the aforesaid goods, included in this class; fitted transport cases for carrying the aforesaid goods; mechanical adaptors for lighting equipment, included in this class; in Class 9; and

Film lighting, video lighting and stage lighting apparatus and installations; luminaires, spotlights, headlights and other lighting items; lamp stands; fitted suspension and mounting devices for lights; mounts for lighting equipment, namely, for film, video and stage lights, to which reflectors, lenses, optics, diffusers or other accessories are affixed; fittings and spare parts for the aforementioned goods, included in this class; fitted transport cases for carrying the aforementioned goods; in Class 11.

QUICK means "done or taking place with rapidity //gave them a quick look" and "capable of being easily and speedily prepared //a quick and tasty dinner."

<https://www.merriam-webster.com/dictionary/quick>

LIGHTING means "an artificial supply of light or the apparatus providing it." <https://www.merriam-webster.com/dictionary/lighting>

MOUNT means “2 : frame, support: such as

a : the material (such as cardboard) on which a picture is mounted

b : a jewelry setting

c(1) : an undercarriage or part on which a device (such as a motor or an artillery piece) rests in service

(2) : an attachment for an accessory.”

<https://www.merriam-webster.com/dictionary/mount>

See attachments.

The mark as a whole merely describes the goods, which include supports and attachments for lighting apparatus, fitted suspension and mounting devices for lights, mounts for lighting equipment, namely, for film, video and stage lights, to which reflectors, lenses, optics, diffusers or other accessories are affixed, and fittings and parts therefor, and which can be installed, or mounted, quickly, and to which lighting apparatus can be attached quickly and easily.

Third-party registrations featuring goods and/or services the same as or similar to applicant’s goods and/or services are probative evidence on the issue of descriptiveness where the relevant word or term is disclaimed, registered under Trademark Act Section 2(f) based on acquired distinctiveness, or registered on the Supplemental Register. *See Inst. Nat’l des Appellations D’Origine v. Vintners Int’l Co.*, 958 F.2d 1574, 1581-82, 22 USPQ2d 1190, 1196 (Fed. Cir. 1992); *In re Box Solutions Corp.*, 79 USPQ2d 1953, 1955 (TTAB 2006); *In re Finisar Corp.*, 78 USPQ2d 1618, 1621 (TTAB 2006). See the ten (10) representative attachments.

## RESPONSE OPTIONS

The applied-for mark has been refused registration on the Principal Register. Applicant may respond to the refusal by submitting evidence and arguments in support of registration.

In the alternative, if applicant believes that its mark has acquired distinctiveness, that is, that it has become a distinctive source-indicator for the goods and/or services, applicant may seek registration on the Principal Register under Trademark Act Section 2(f). *See* 15 U.S.C. §1052(f). The USPTO will decide each case on its own merits.

The following factors are generally considered when determining whether a proposed mark has acquired distinctiveness based on extrinsic evidence: (1) length and exclusivity of use of the mark in the United States by applicant; (2) the type, expense, and amount of advertising of the mark in the United States; and (3) applicant’s efforts in the United States to associate the mark with the source of the goods and/or services, such as unsolicited media coverage and consumer studies. *See In re Steelbuilding.com*, 415 F.3d 1293, 1300, 75 USPQ2d 1420, 1424 (Fed. Cir. 2005); *Bd. of Trs. v. Pitts, Jr.*, 107 USPQ2d 2001, 2016 (TTAB 2013). A showing of acquired distinctiveness need not consider all of these factors, and no single factor is determinative. *In re Steelbuilding.com*, 415 F.3d at 1300, 75 USPQ2d at 1424; see TMEP §§1212.06 et seq.

Evidence of acquired distinctiveness may include specific dollar sales under the mark, advertising figures, samples of advertising, consumer or dealer statements of recognition of the mark as a source identifier, affidavits, and any other evidence that establishes the distinctiveness of the mark as an indicator of source. *See* 37 C.F.R. §2.41(a); *In re Ideal Indus., Inc.*, 508 F.2d 1336, 1339-40, 184 USPQ 487, 489-90 (C.C.P.A. 1975); *In re Instant Transactions Corp. of Am.*, 201 USPQ 957, 958-59 (TTAB 1979); TMEP §§1212.06 et seq.

TMEP §1212.05(d). Applicant must verify this statement with an affidavit or signed declaration under 37 C.F.R. §2.20. 37 C.F.R. §2.41(b); TMEP §1212.05(d); *see* 37 C.F.R. §2.193(e)(1).

NOTE: Applicant cannot overcome the refusal by amending the application to the Supplemental Register. ***A mark in an application under Trademark Act Section 66(a) is not eligible for registration on the Supplemental Register.*** 37 C.F.R. §§2.47(c), 2.75(c); TMEP §816.01; *see* 15 U.S.C. §1141h(a)(4).

Although applicant’s mark has been refused registration, applicant may respond to the refusal(s) by submitting evidence and arguments in support of registration. If applicant responds to the refusal(s), applicant must also respond to the requirement(s) set forth below.

## DISCLAIMER

Applicant is advised that, if the application is amended to seek registration on the Principal Register under Trademark Act Section 2(f) or on the Supplemental Register, applicant will be required to disclaim “MOUNT” because such wording appears to be generic in the context of applicant’s goods. *See* 15 U.S.C. §1056(a); *In re Wella Corp.*, 565 F.2d 143, 144, 196 USPQ 7, 8 (C.C.P.A. 1977); *In re Creative Goldsmiths of Wash., Inc.*, 229 USPQ 766, 768 (TTAB 1986); TMEP §1213.03(b). This requirement only applies to the goods in International Class 11.

The following is the standardized format for a disclaimer:

**No claim is made to the exclusive right to use “MOUNT” apart from the mark as shown, as applied to the goods in International Class 11.**

TMEP §1213.08(a)(i).

## IDENTIFICATION OF GOODS

The identification of goods is indefinite and must be clarified as shown below. *See* TMEP §1402.01.

The identification of goods and/or services contains brackets. Generally, applicants should *not* use parentheses and brackets in identifications in their applications so as to avoid confusion with the USPTO's practice of using parentheses and brackets in registrations to indicate goods and/or services that have been deleted from registrations or in an affidavit of incontestability to indicate goods and/or services not claimed. *See* TMEP §1402.12. The only exception is that parenthetical information is permitted in identifications in an application if it serves to explain or translate the matter immediately preceding the parenthetical phrase in such a way that it does not affect the clarity or scope of the identification, e.g., "fried tofu pieces (abura-age)." *Id.*

Therefore, applicant must remove the brackets from the identification and incorporate any parenthetical or bracketed information into the description of the goods and/or services.

The wording "adapters for lighting apparatus" and "mechanical adaptors for lighting equipment" is unclear. The applicant must clarify the nature of these goods.

Applicant may adopt the following identification, if accurate:

Optical filters; optical filter holders **in the nature of metal frames for moving optical filters**; adapters for lighting apparatus, **namely, \_\_\_\_\_ (list common commercial names for these goods)**; light-emitting diodes (LEDs); light regulators, **namely, electronic regulating and control devices for the operation of light emitting diodes**; lighting controls; diaphragms and diaphragm shutters **as parts of cameras**; fittings for the aforesaid goods; fitted transport cases **specially adapted** for carrying the aforesaid goods; mechanical adaptors for lighting equipment, **namely, \_\_\_\_\_ (list common commercial names for these goods)**; in Class 9

Film stage lighting, video stage lighting and **theatrical** stage lighting apparatus and installations; luminaires, **namely, \_\_\_\_\_ (list, e.g., LED luminaires; electric luminaires; light post luminaires; luminaires, using light emitting diodes (LEDs) as a light source, for street or roadway lighting; etc.)**; spotlights, headlights **for vehicles**, and other lighting items, **namely, \_\_\_\_\_ (list by common commercial names)**; lamp stands; **ceiling light fittings, namely**, fitted suspension and mounting devices for lights; mounts for lighting equipment, **namely**, for film, video and stage lights, to which reflectors, lenses, optics, diffusers or other accessories are affixed, fittings and spare parts for the aforementioned goods; fitted transport cases **specially adapted** for carrying the aforementioned goods; in Class 11

NOTE: Applicant may amend the identification to clarify or limit the goods and/or services, but not to broaden or expand the goods and/or services beyond those in the original application or as acceptably amended. *See* 37 C.F.R. §2.71(a); TMEP §1402.06. Generally, any deleted goods and/or services may not later be reinserted. *See* TMEP §1402.07(e). Additionally, for applications filed under Trademark Act Section 66(a), the scope of the identification for purposes of permissible amendments is limited by the international class assigned by the International Bureau of the World Intellectual Property Organization (International Bureau); and the classification of goods and/or services may not be changed from that assigned by the International Bureau. 37 C.F.R. §2.85(d); TMEP §§1401.03(d), 1904.02(b). Further, in a multiple-class Section 66(a) application, classes may not be added or goods and/or services transferred from one existing class to another. 37 C.F.R. §2.85(d); TMEP §1401.03(d).

For assistance with identifying and classifying goods and services in trademark applications, please see the USPTO's online searchable *U.S. Acceptable Identification of Goods and Services Manual* at <http://tess2.uspto.gov/netahtml/tidm.html>. *See* TMEP §1402.04.

## U.S.- LICENSED COUNSEL REQUIRED

**Applicant must be represented by a U.S.-licensed attorney at the USPTO to respond to or appeal the provisional refusal.** An applicant whose domicile is located outside of the United States or its territories is foreign-domiciled and must be represented at the USPTO by an attorney who is an active member in good standing of the bar of the highest court of a U.S. state or territory. 37 C.F.R. §§2.11(a), 11.14; *Requirement of U.S.-Licensed Attorney for Foreign-Domiciled Trademark Applicants & Registrants*, Examination Guide 4-19, at I.A. (Rev. Sept. 2019). An individual applicant's domicile is the place a person resides and intends to be the person's principal home. 37 C.F.R. §2.2(o); Examination Guide 4-19, at I.A. A juristic entity's domicile is the principal place of business; i.e., headquarters, where a juristic entity applicant's senior executives or officers ordinarily direct and control the entity's activities. 37 C.F.R. §2.2(o); Examination Guide 4-19, at I.A. Because applicant is foreign-domiciled, applicant must appoint such a U.S.-licensed attorney qualified to practice under 37 C.F.R. §11.14 as its representative before the application may proceed to registration. 37 C.F.R. §2.11(a). *See* [Hiring a U.S.-licensed trademark attorney](#) for more information.

Only a U.S.-licensed attorney can take action on an application on behalf of a foreign-domiciled applicant. 37 C.F.R. §2.11(a). Accordingly, the USPTO will not communicate further with applicant about the application beyond this Office action or permit applicant to make future submissions in this application. And applicant is not authorized to make amendments to the application.

**To appoint or designate a U.S.-licensed attorney.** To appoint an attorney, applicant should submit a completed Trademark Electronic Application System (TEAS) [Change Address or Representation](#) form. The newly-appointed attorney must submit a TEAS [Response to Examining Attorney Office Action](#) form indicating that an appointment of attorney has been made and address all other refusals or requirements in this action, if any. Alternatively, if applicant retains an attorney before filing the response, the attorney can respond to this Office action by using the appropriate TEAS response form and provide his or her attorney information in the form and sign it as applicant's attorney. *See* 37 C.F.R. §2.17(b)(1)(ii).

**How to respond.** [Click to file a response to this nonfinal Office action.](#)

## ANY QUESTIONS?

If applicant has questions regarding this Office action, please telephone or e-mail the assigned trademark examining attorney. All relevant e-mail communications will be placed in the official application record; however, an e-mail communication will not be accepted as a response to this Office action and will not extend the deadline for filing a proper response. *See* 37 C.F.R. §§2.62(c), 2.191; TMEP §§304.01-.02, 709.04-.05. Further, although the trademark examining attorney may provide additional explanation pertaining to the refusal(s) and/or requirement(s) in this Office action, the trademark examining attorney may not provide legal advice or statements about applicant's rights. *See* TMEP §§705.02, 709.06.

## **RESPONSE GUIDANCE**

- **Missing the response deadline to this letter will cause the application to abandon.** A response or notice of appeal must be received by the USPTO before midnight **Eastern Time** of the last day of the response period. TEAS and ESTTA maintenance or unforeseen circumstances could affect an applicant's ability to timely respond.
- Responses signed by an unauthorized party are not accepted and can **cause the application to abandon**. If applicant does not have an attorney, the response must be signed by the individual applicant, all joint applicants, or someone with legal authority to bind a juristic applicant. If applicant has an attorney, the response must be signed by the attorney.
- If needed, **find contact information for the supervisor** of the office or unit listed in the signature block.

English: lighting fixture Example sentences

Definition of 'lighting fixture'

lighting fixture

in British English

(ˈlɑːtɪŋ ˈfɪksʃə)

NOUN

a lighting fixture is part of a light that is attached to the wall or ceiling where you put the light bulb or other lighting element, and which cannot be easily removed

Collins English Dictionary. Copyright © HarperCollins Publishers

Examples of 'lighting fixture' in a sentence

lighting fixture

These examples have been automatically selected and may contain sensitive content. Read more...

The room's existing track lighting fixture was too small and it just didn't cast enough light over this space.  
GLOBE AND MAIL (2003)

Storage and furniture, washroom and lighting fixtures and cooking appliances will be built into the fabric of the building.  
GLOBE AND MAIL (2003)

TIMES, SUNDAY TIMES (2007)

The husband was judged to have overall poor taste in lighting fixtures, tableware, and glassware.  
THE TIMES LITERARY SUPPLEMENT (2013)

The arcade that forms the spine of the building is also graceful, with lighting fixtures suspended on a succession of steel arms.  
TIMES, SUNDAY TIMES (2009)

People get rather confused by old lighting fixtures and don't realise how accessible they are — it's easy for an electrician to rewire them.  
TIMES, SUNDAY TIMES (2012)

Silk wall coverings and hip lighting fixtures, including a stunning contemporary chandelier, nestle comfortably against the traditional grandeur of the ceilings and gilded doorways.  
TIMES, SUNDAY TIMES (2008)

#### Product description

Colour: Chrome | Size Name: 40CM

**Mantolite is a professional manufacturer with more than 10 years production experience in picture/bathroom light. Light cost differs a lot by material and craftsmanship. You have our promise of 2 years warranty and all the stated material it is made of.**

#### **Why choose this product?**

- Eye catching design, fine craftsmanship will ensure you of excellent use experience, especially for long time use.
- Item truly made of aluminum body and acrylic shade. Acrylic shade evenly diffuse and soften the light which neither concentrating on a certain spot like a bulb one nor too shiny for direct gaze.
- Worse dissipation can shorten the LED lifespan. Our light tube inside, we set an aluminum bar bottom for SMDs for better heat dissipation and longer lifespan.
- Higher CRI, less color distortion. Item is of CRI 90 which ensure a vivid and natural illuminating effect.
- Compared to halogen bulb light, LED one give off much lower heat and is UV free which means there will be no damage to the precious illuminated artworks or other.
- 35 pc 2835 led beads with 50,000 hrs life span which will ensure enough light and good durability.

#### **Specification:**

Voltage: 90 - 264V

Wattage: 6W

Material: aluminum+Acrylic

Luminous Flux: 520 lm

CCT: 4000K white

CRI: 90+

Lifespan: 50,000 hrs

#### **TIPS:**

Only hard wire mounting is offered. Do make sure earth wire is correctly set up for bathroom use.

Not dimmable and will not work with any dimmer

Oliver

★★★★☆ **Produit cher pour la qualité**

Reviewed in France on 29 March 2020

**Verified Purchase**

La pièce brillante couleur cuivre est en plastique (+ reçue tachée sans pouvoir la retirée). Une fois montée, impossible de régler l'horizontalité de la barre, elle n'est pas parallèle au mur, donc effet tordu dans mon cas. Trop cher pour ce produit bas de gamme. Je suis déçu.

## Philips Introduces the Zhaga Certified Fortimo LED Spotlight Module Tight Beam for Accent Lighting

Fortimo LED spotlight module (SLM) Tight Beam is the latest LED lighting innovation from Philips for retail environments. Its extremely small but powerful light emitting surface produces 1,100 lm, producing high central candela power in combination with a small reflector design. It is also the first Zhaga certified Philips LED module on the market, having been tested by Dekra-Netherlands, one of the approved Zhaga testing houses.

Zhaga certified Fortimo LED module from Philips

Zhaga certified Fortimo LED mo...

Philips' LUXEON S technology allows the Fortimo LED SLM Tight Beam to provide high light output out of the smallest possible light source. The Tight Beam module offers significant benefits in fashion retail environments as the small light source enables retailers to create a greater degree of contrast, showcasing fabrics and colours at their best, and making merchandise more attractive to customers.

Fortimo LED SLM Tight Beam offers retailers a high center beam intensity and beam

Fortimo LED SLM Tight Beam offers retailers a high center beam intensity and beam uniformity. Products illuminated by a Fortimo LED SLM Tight Beam will always look bright and vivid due to its colour rendering index of over 80, and perfect red rendering and colour consistency.

Pim Kemps, Philips Product Manager for Spotlight LED modules, OEM Lighting Sources & Electronics: "Fortimo LED SLM Tight Beam offers retail store owners the possibility of more dramatic illumination of merchandise. This lighting solution really enables 'stopping power' as the sharp contrasts make objects appear raised out of their surrounding environments to attract maximum attention from shoppers."

Fortimo LED SLM Tight Beam is part of the second generation of Fortimo LED spotlight systems and is commercially available.

Top Reviews

Robert A. Fendler

★★★★☆ Very happy with the light quality  
Reviewed in the United States on February 13, 2015  
Verified Purchase

✓ How does Amazon calculate star ratings?

#### Verified Purchase

The fixture sits reasonably tight to the ceiling, you just need to make sure you have an octagonal box in the ceiling. The LED driver sits at a 45degree angle to the fixture, so a cut in gem box will not work unless you want the light turned on the bias. Very happy with the light quality, just understand the different model numbers represent what they call CRI - Color Rendering Index - the higher the number the purer the color of the surrounding objects. If you are looking to replace old style incandescent bulbs, then go with 2700K color. The higher the Kelvin scale, the whiter the light - going toward blue like florescent bulbs. Overall, a lot easier to install than a recessed light fixture, seriously consider this, looks great

Antonella

★★★★☆ **Look and quality are very good. The light is a bit dim though**

Reviewed in the United States on March 9, 2016

#### Verified Purchase

Look and quality are very good. The light is a bit dim though. Also, the ballast takes the entire space in the junction box, so if you have multiple wires in the box it may not fit.

★★★★★ **Nice light, slim design**

Reviewed in the United States on April 4, 2017

#### Verified Purchase

Nice light, slim design.

however, watch out the small transformer in the back needs at least 2 inch deep octagonal box.

## Zhaga enables IoT-upgradeable outdoor LED lighting fixtures

[Email](#) [Print Friendly](#) [Share](#)

February 06, 2018 06:00 ET | Source: The Zhaga Consortium

photo-release

*The latest Zhaga specification defines a standardized interface between outdoor LED luminaires and modules for sensing and communication, bringing the Internet of Things to the outdoor lighting market via smart, upgradeable, future-proof fixtures.*

PISCATAWAY, N.J., Feb. 06, 2018 (GLOBE NEWSWIRE) -- The Zhaga Consortium, a global association of lighting companies that is standardizing components of LED luminaires, has finalized a new specification that helps to bring the Internet of Things (IoT) to outdoor LED lighting fixtures. The specification, known as Zhaga Book 18, makes it easy to upgrade LED fixtures by adding or changing 24V modules that provide sensing and communication capabilities.

Demonstrating Zhaga's priority focus to support the merger of IoT and lighting technologies, this specification marks the first step in a new direction for Zhaga that will also enable similar capabilities for future-proofed indoor luminaires.

*"This new Book 18 specification answers the industry's call for a standardized interface with a smaller footprint than existing designs," says Dee Denteneer, Secretary General of Zhaga. "It enables the installation of future-proofed outdoor LED luminaires, which can be easily upgraded with smart communication and sensing capabilities. Moving forward, I expect Zhaga to make more contributions to bring the IoT into the lighting industry."*

*Smart LED lighting fixtures with sensing and communication capabilities can significantly improve the efficiency, maintenance and running costs of outdoor*

Ok

the receptacle. The standardized interface means that the module can be easily replaced in the field, allowing the luminaire to be upgraded via the addition of new smart capabilities. Also, the luminaire can be shipped with a blank cap in the receptacle, allowing a module to be field-installed at a later date if required.

*"The issuing of Zhaga's Book 18 has been warmly welcomed by Lucy Zodion," says John Fox, Managing Director of Lucy Zodion, a UK-based leader in the design and manufacture of streetlighting equipment. "With the specification now ratified, it is an essential element to Smart Lighting Controls within Future Cities, which we recognise as a huge opportunity for innovation. We have worked with a*

<https://www.globenewswire.com/news-release/2018/02/06/1333477/0/en/Zhaga-enables-IoT-upgradeable-outdoor-LED-lighting-fixtures.html> 06/24/2020 01:21:57 PM

number of collaborative partners to create the Precision<sup>HALO</sup>, an intelligent Photocell platform designed to match the potential offered by this new interface, with an ecosystem that enhances future compatibility.”

#### Specification details

Book 18 Ed.1.0 defines the mechanical interface between the module or cap and receptacle. However, many non-critical aspects are not restricted by the specification, allowing vendor differentiation and design innovation.

The specification has recommendations for the electrical interface, which features a 4-pin connector. The recommended pin assignment enables the required 24V DC power supply, as well as DALI control and a general Logic Signal Input (LSI).

Ok

Zhaga intends to start developing the Ed.2.0 of the Book 18, aiming to add requirements for the electrical and control interface and thus enabling true interoperability of LED modules that provide sensing and communication capabilities to outdoor LED lighting fixtures.

#### About Zhaga

Zhaga is a global association of lighting companies that is standardizing interfaces of components of LED luminaires, including LED light engines, LED modules, LED arrays, holders, electronic control gear (LED drivers) and connectivity fit systems. This helps to streamline the LED lighting supply chain, and to simplify LED luminaire design and manufacturing. Zhaga continues to develop specifications based on the inter-related themes of interoperable components, smart and connected lighting, and serviceable luminaires. For more information, visit [www.zhagastandard.org](http://www.zhagastandard.org).
