STATEMENT OF GRANT OF PROTECTION
FOLLOWING A PROVISIONAL REFUSAL
TO THE INTERNATIONAL BUREAU OF WORLD INTELLECTUAL PROPERTY ORGANIZATION (WIPO)
UNDER RULE 18ter(2)(ii) OF THE COMMON REGULATIONS

1. Office of the Designated Contracting Party:

Korean Intellectual Property Office (KIPO)
189 Cheongsa-ro, Seo-gu, Daejeon Metropolitan City, 35208, Republic of Korea

2. International Registration Concerned:

- (a) International Registration/Subsequent Designation No.
(International Registration/Subsequent Designation Date): 1128501(26/06/2019)
- (b) Name of the Holder: Comité International Olympique

3. Goods/Services Protected in the Republic of Korea:

Accepted for all the goods/services in classes 25, 29, 30, 32, 38 and 43.

[Class 01] Class 01 is accepted for the following goods/services.

Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics; fertilizers; fire extinguishing compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; tanning substances; adhesives for industrial purposes; sensitized films, unexposed; synthetic resins, unprocessed; unprocessed thermoplastic and thermosetting synthetic resins for molding, for general use in industrial processes; chemical intermediates for industrial use; organosilicon compounds, namely polysiloxanes and silanes in the form of resins, pastes, fluids, elastomers, vulcanization and acceleration products; anti-foaming agents; catalysts for paints; chemicals for development and setting of x-ray films and other chemicals in connection with the development of said films; phosphorescent substances; chemical substances used as nuclear fission materials; fuel for nuclear reactors; fused quartz in various forms, such as disks, ingots, rods and tubes for general use in industrial processes; adhesive materials for use in industry; polycrystalline alumina ceramic for general use in industrial processes; brazing and soldering fluxes and chemicals; thermoplastic and thermosetting adhesives for industrial purposes; chemicals, biochemicals and reagents for use in industry, science and research; chemical reagents, kits and products for analysis or diagnosis for scientific purposes, namely chemicals for cell culture and separation, purification of nucleic acid, nucleotides, florescent nucleotides, oligonucleotides, peptides, proteins, amino acids, organic molecules and markers for DNA/RNA synthesis; luminescence reagents; reagents for gene expression quantifying; reagents for polymerase chain reaction processes; reagents for rolling circle amplification processes; reagents for DNA cloning and vectors, enzymes for modification and restriction; reagents for labeling, sequencing and fractal analysis of nucleic acids and proteins and customized synthesis; reagents for recombinant protein purification and expression; chemical intermediates for industrial purposes for chromatography; reagents for

electrophoresis, biocomputing, spectrophotometry and fluorometry; radiochemical products for scientific research; reagents for scintillation proximity assay; test kits for industrial use containing chemicals for high data rate analysis for producing medicines; reagents for high-resolution laser microscopy, fluoroscopic microscopy and confocal microscopy; specialized chemicals for use in industry, science and research; solidified gases for use in industry, science and research; chemical preparations for manufacture of pharmaceutical products, diagnostic products and substances (other than for medical or veterinary uses); chemical testing reagents, saline solution and paper coated with reagents, all for scientific use and for use in laboratories; fissile chemicals for scientific research; radioactive isotopes and elements for use in industry, science and research; radioactive sources for radiographic technology (other than for medical or veterinary uses); radioactive sources for non-destructive testing, purification and sterilization technology (other than for medical or veterinary uses); radionuclides for scientific research; chemical compounds and chemicals for treatment of water supply systems, wastewater treatment systems, cooling water circuits, boiler water and steam generating systems, boiler condensate systems, liquid separation systems, systems for water purification and dehydration in aqueous systems, conditioning systems, gas purification systems, industrial process systems, fuel treatment systems, hydrocarbon and gas treatment systems, petrochemical systems and gas and oil treatment systems, pulp and paper making systems, metal and plastic coating systems, metal treating systems; chemicals, namely chemical additives for gasoline, chemical additives for heating oil for industrial purposes; chemical additives for industrial purposes for improving the efficiency of turbine engine fuel; chemically-treated bagged water-absorbing granular materials for placement into fuel tanks for industrial use; testing kit comprising chemical reagents for determining the presence of algae and active organic organisms in diesel fuel; bacterial cultures and nutritive elements for treating sludge and wastewater; polymeric chemicals for dispersing particles in steam production equipment; chemicals and chemical compounds used as anti-fouling and demulsifying agents in operations for producing coke and metallurgy-derived products; chemicals used as materials, filters for removing acid gases, untreated plastics, crystal whiskers and diamond gray; catalysts used as materials, filters for removing acid gases, untreated plastics, crystal whiskers and diamond gray; radioactive elements for scientific purposes; polymeric membrane materials for liquid separation.

[Class 02] Class 02 is accepted for the following goods/services.

Paints, varnishes, lacquers; preservatives against rust and against deterioration of wood; colorants; mordants; raw natural resins; metals in foil and powder form for painters, decorators, printers and artists; corrosion inhibitors in the form of a coating for use in the metal finishing industry, namely an acid aqueous product for final rinsing; corrosion inhibitors in the form of a coating for cooling water circuits; corrosion inhibitors in the form of a coating, namely resinous coatings for masonry and metal surfaces; coating compositions in the nature of paint for industrial applications; toner cartridges for printers; ink cartridges for printers; toners, toners for copiers, toners for facsimile machines.

[Class 03] Class 03 is accepted for the following goods/services.

Bleaching preparations and other substances for laundry use; cleaning, polishing and

abrasive preparations; degreasing preparations for household purposes; soaps for personal use; soaps {not for personal use}; perfumery, essential oils, cosmetics, hair lotions; dentifrices; cleaning preparations containing chemicals and chemical compounds for cleaning steel, aluminum, mixed and galvanized metal surfaces for general industrial use for manufacturing goods of metal; cleaning agents containing chemicals and chemical compounds for industrial use for removing contaminants in industrial process systems; paint stripping preparations containing chemicals and chemical compounds for removing paint from equipment surfaces in spray-painting booth operations.

[Class 04] Class 04 is accepted for the following goods/services.

Industrial oils and greases; lubricants; dust absorbing, wetting and binding compositions; fuels (including motor spirit) illuminating waxes; candles and wicks for lighting.

[Class 05] Class 05 is accepted for the following goods/services.

Pharmaceutical and veterinary preparations; sanitary preparations for medical purposes; dietetic substances adapted for medical use, food for babies; plasters for medical purposes, materials for dressings; material for dental fillings and dental impressions; disinfectants; pesticides; fungicides, herbicides; pharmaceutical preparations for diagnosis; veterinary pharmaceutical preparations for diagnosis; veterinary and pharmaceutical substances for medical use; diagnostic preparations and reagents for medical use; diagnostic substances for medical use; contrasting substances for medical imaging; scanning diagnostic reagents for use in vivo; diagnostic imaging agents for magnetic resonance imaging (MRI); radiopharmaceuticals for medical and clinical use; radiopharmaceutical preparations for nuclear medicine; radioactive pharmaceuticals and non-radioactive reagents for producing radiopharmaceuticals for in-vivo diagnosis or for therapeutic use; gases and mixtures for medical imaging; diagnostic test reagents for medical purposes (in the form of pre-filled bottles); chemical preparations for medical purposes (in the form of chemical solutions in pre-filled cartridges); gases and gas mixtures for medical purposes (in the form of pre-filled cylinders); radioactive material for medical purposes in the form of capsules with radio-isotope brachytherapy sources (for implantable radiotherapy uses); radioactive material for medical purposes in the form of radioactive pellets administered via a bioabsorbable carrier (for radiotherapy uses).

[Class 07] Class 07 is accepted for the following goods/services.

Machine tools, laser processing machines, mechanical presses, hydraulic presses, threading machines, industrial shakers for chemical processing, mixers for chemical processing, dyeing machines, embroidery machines, knitting machines, printing machines, aerated beverage making machines, bottle filling machines, bottle washing machines, bottling machines, bread making machines, canning machines, cheese making machines, edible paste making machines, flour grinders, frozen confectionery making machines, mineral water making machines, noodle making machines, powdered milk making machines, sausage making machines, soda-pop making machines, soybean paste brewing machines and implements, soybean sauce brewing machines and implements, paper machines, paper processing machines and implements, household and industrial sewing machines, automatic dishwashers, electric vacuum cleaners, electric washing machines;

motors and engines (other than for land vehicles); machine coupling and transmission components (other than for land vehicles); agricultural implements other than hand-operated; incubators for eggs; apparatus, equipment and instruments for electricity production, namely electrical and wind energy generators generating electricity; turbines other than for land vehicles; wind turbines; hydraulic turbines; turbines for energy production; wind turbines for energy production; wind turbines linked to wind farms, turbine-powered production installations, namely installations for electricity production; gasoline engines (other than for vehicles); engines (other than for land vehicles); solar energy electricity generators; generators of electricity; dynamos, electric motors other than for vehicles; electric motors, and their parts, not for land vehicles; electric motors for machines; electrical generators and their parts, aircraft engines, compressors (machines); laundry washing machines, dishwashers, grinders and compactors of waste; pumps (part of machines), namely centrifugal pumps, diaphragm pumps, bellows pumps, pumps for machines, and transfer pumps; filtering cartridges for various industrial machines for filtering applications, including for filtering of coating solutions for manufacturing of magnetic tapes and for filtering of petrochemicals, drinking water, beer in the brewing industry and other special chemicals; chemical machines for supplying and applying chemicals for industrial use; axial-flow and radial-flow compressors; piston compressors; screw and sliding-vane compressors; rotary, vacuum, electric, submerged and centrifugal pumps; turbo-expanders, namely, air and electric compressors; CNG refueling machines for land vehicles and industrial equipment and accessories and parts of all the aforesaid goods, namely pumps, valves, fuel filters, filter housings, distributor rotors, blades, bearings and mechanical joints; steam condensers (parts of machines); boat engines; turbo-compressors for engines; fuel injectors for internal combustion engines; welding machines, electric; industrial robots, machines for inserting electronic components for robots; machines for inserting electronic components for printed circuit boards; dry etching machines for semiconductor processing, dry etching machines for printing processing, electric micro-discharge machines, optical discs manufacturing machines for semiconductor processing, processing machines for printed wiring boards (printing machines), welding rods for metalworking machines, machines for assembling parts (metalworking machines), brazing machines (metal working machines), machines for fixing screws, electric drivers; electric drills; electric grinders; electric sanders; electric motors for machines; electric generators; elevators (lifts); washing machines for household purposes; fiber drying machines, electric washing machines, electric dishwashers for household purposes; pumps (machines), electric pumps; electric food mixing, cutting and chopping machines for kitchen use; electric food mixing, cutting and chopping machines for industrial purposes; food mixing machines for commercial use, electric centrifuges (machines), electric food processors, electric meat grinders for industrial purposes, electric can openers, electric knife sharpeners, electric coffee grinders; garden tools, namely electric lawnmowers, garden sprays for disinfectants and insecticides; electric sweepers, electric steam cleaners for household purposes, electric floor cleaning machines for household purposes, robotic floor cleaners for household purposes, electric vacuum cleaners, electric floor polishers; electric window washers; electric hand-held tools (other than hand-operated); plasma, gas or arc-cutting machines for cutting metal; electric hand-held mixers for industrial purposes.

[Class 09] Class 09 is accepted for the following goods/services.

Physical and chemical laboratory apparatus and instruments; instruments for diagnosis (for scientific use); nautical apparatus and instruments; surveying apparatus and instruments; photographic apparatus and instruments; cinematographic apparatus and instruments; optical apparatus and instruments except for glasses and photographic apparatus; weighing apparatus and instruments; measuring apparatus; electrical signalling apparatus; testing apparatus for checking electronic devices; life saving apparatus and equipment; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, sound recording discs, compact discs; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire extinguishing apparatus; protective helmets for sports; spectacles, sunglasses, goggles for sports; computer software, computer game software; electric fuel-level gauges for regulating gas flow and fuel lines; operating software for service-station management for calibrated fuel pumps, flow control panels, fuel lines and pump nozzles for refueling of land vehicles, marine vehicles and aircraft; gas meters; on-board and roadside signaling and communication systems, train inspection systems, electronic control systems, namely crossing notification systems, apparatus for electric control of switching (electrical controllers); GPS navigation devices for tracking and monitoring for the railway and transit industries; electrical distribution products and devices, namely capacitors, circuit breakers, circuit-breaker patch boards, circuit closers, contact breakers, commutators, electronic contactors, current rectifiers, current limiters, electric contacts, electric collectors, electric conductors, electric connectors, electric controllers, electric inductors, electric power supply systems, distribution boards and branch boxes (electricity), electrical distribution consoles, electrical switchboards and switchboxes; software for persons in charge of troubleshooting and maintenance of programmable controllers, software for blood vessel analysis, including heart vessel analysis, also with calculation functions with regard to blood vessels, software for medical patient-monitoring equipment, software for receiving, processing, transmitting and displaying data, software for developing customized programs for asset allocation; software for use on line enabling vendors of office equipment to place orders, to manage portfolios and communicate with the company; software for accessing mortgage and insurance information, software for collecting data concerning vital signs, software for analyzing electrical systems and electronic instruction manuals sold in the form of sets, software for employees of financial institutions used for assessing customers' financial investments and processing the sale of the investments identified, software for obtaining information on the risk of flooding with regard to real property, software for developing graphic user interfaces and displaying data, software for calculating mortgage payments, software for controlling and managing vehicle fleet maintenance services, software for using and accessing commercial information technology services, software used by clients to obtain information regarding lease portfolios, software for a radiology information system for radiologists and radiology departments, software for managing databases containing information on employees and patients for archiving purposes and patient follow-up, software installed on and used with PCs and medical monitoring equipment for graphic

user interfaces, software for sending encrypted and compressed data to radio-paging (transport) systems, software for providing access to web sites so that buyers and sellers can carry out business transactions by electronic means, and software for subterranean navigation, namely navigation of the assembly of a depth probe for oil drilling and drilling assemblies so as to set up subterranean installations; testing apparatus not for medical purposes, measuring apparatus, calculating machines, electronic monitoring apparatus; electrical products, electricity production and distribution products and voltage surge protection products, namely lightning conductors, armored rods; capacitors; switches for lighting; electrical controlling devices for electric input/output; fuses; controls for lighting; switch boxes, DELs, namely light-emitting diodes, electrical voltage regulators, voltage surge protectors, voltage surge limiters, voltmeters, electrical circuit boards, relays and timers, electromagnetic switches and limit switches, manual full-voltage starters, reduced-voltage starters, electric disconnecting switches and switches, splitters for circuit boards and short-cycling panels, circuit breakers and disconnecting switches, transformers, electric circuit and electric lighting boards, electric wires, electric cables, electric cords, electric conductors, electric wiring and accessories, lightning conductors, electricity meters, wattmeters, grounding resistances, humidity and temperature sensors; industrial calibration sensors, electrical push button switches, engine and motor control centers and their electric controls and voltage regulators included in this class; computer programs and software for medical use, industrial use and for research; electrophoresis apparatus, not for medical purposes; chromatography columns and pumps; apparatus for microfabrication for laboratory use; apparatus for bio-informatics systems (laboratory apparatus); scintillation apparatus; imaging apparatus for luminescent and radioactive emissions; integrated purification and synthesis device (laboratory apparatus); oligonucleotide-producing apparatus; optical laser systems for digital imaging; glassware for laboratories; vials and micro-vials for laboratory or scientific use; microtiter plates for scientific or laboratory use; software for managing hospital operating rooms; software for intensive care information management; software for industrial operation control; software for plant management; graphic interface computer programs for controlling machines in industrial automation applications; software for creating graphic presentations and editing dynamic data interfaces for real-time graphic applications for industrial and commercial use; communication software for providing connections among computer network users; software for injection molding of plastic; software for controlling, monitoring, simulating, communicating, recording and collecting data and for plant automation; software for integration of manufacturing machine operations, process control, supply of data for displaying, problem follow-up and production report generation; software packages for operating and programming grinders in the manufacture industry; computer hardware for monitoring industrial processes, namely computerized monitors; portable computers, Ethernet cards and cables; computer networking hardware, memory boards; microchips; microprocessors; computer network hubs, switches and routers, computer accessories, displaying devices and terminals; computer whiteboards; processors [central processing units] and system boards (mother cards); call controllers, operator interfaces, reference interfaces and data collectors; applications for manufacture and control, namely for statistical process control, data collection, direct digital control; document management systems; digital signal processing products and systems, namely, industrial automation

controls and programmable logic controllers; adaptive control product in the form of an external controller for optimizing rough and semi-rough cutting performance of machine tools; distributed and remote electricity input/output equipment for computers, input/output modules, interface modules, electricity supplies and assembly equipment; anti-theft and burglar alarm systems; security devices, namely logic programming computers, electric control panels, electronic burglar detectors, electronic glass-breakage detectors, electronic vibration detectors, magnetic contacts for security systems, electronic switch plates, electronic motion detectors for alarm systems, electronic motion-sensitive switches, fixed connection sirens, audio loudspeakers, electronic navigation systems, alarm monitoring and access control systems; fire, smoke and heat alarms and detectors; systems for access control with computer cards; card readers, card encoders and encoded cards for card-operated access control systems; camcorders; video devices for object recognition; video devices for object following; video devices for reading license plates; video devices for checking alarms; video devices for facial recognition; video devices for vehicle recognition; video devices for traffic detection; video devices for access door control; video devices for burglar detection; processing software or hardware used for analyzing digital video images for extracting, recording and reporting information automatically, and remote video surveillance systems for surveillance and security applications; central video monitors; video recorders; cinematographic apparatus for shooting and filming; closed-circuit video systems; closed-circuit video systems consisting of one or several cameras and camera housings; wireless, short-range and radiofrequency transceivers; transceivers for electrical lines; communication monitoring equipment for operating closed-circuit cameras; communication monitoring equipment, namely numeric-pad controls, matrix switching devices, multiplexers, digital video recorders, integrated swinging panoramic zoom domes, remote video controllers, receivers for communication monitoring equipment, electronic alarms, triggers and management controls and video transmission devices sold separately or as parts of a closed-circuit camera operating system; personal digital assistants (PDAs) configured for use by real estate professionals; communication interfacing devices for personal digital assistants (PDAs); fiber-optic transmission systems, namely fiber-optic transmitters, receivers and transceivers for transmission of video signals, audio signals and data via optical fibers; electric switches; electromechanical locking devices; magnetic cards for locks, access control, presence control, alarms and security systems; electronic keys; portable electronic hardware for reception, control, storage, handling, display and transmission of data and for actuating electronic locks; electronic access cards and their readers and encoders; magnetic access cards and their readers and encoders; memory access cards and their readers and encoders; proximity cards (IC cards), electronic card readers for proximity cards (IC cards), electronic card encoder for proximity cards (IC cards); barcode access cards and their readers, encoders and laminators; access keypads; radio-frequency tracking tags; tracking and control systems consisting of one or several detectors, transceivers and radio-frequency beacons for determining and checking the location and movements of assets, stocks and people; infrared sensors; computer hardware and software for managing infrastructures and monitoring systems for accessing infrastructures and components thereof, namely control boards, access card readers and video imaging, video surveillance, digital hard disk recording, network transmission and remote access equipment and systems; networked

digital video storage servers, applications for surveillance and access control, alarm and security monitoring, computer hardware and software for monitoring and operating access and security systems comprising locking systems, doors, access and identification devices and security cases in the form of boxes for keys; surveillance systems (electronic control systems) sold separately or as components or in the form of sets such as systems comprising one or several surveillance cameras, hidden cameras, closed-circuit television cameras, camera housings, camera stands, lenses, video monitors, video recorders, digital recorders, video recording media, video switches, control panels, numerical pad controls, joysticks, interface apparatus for alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controls, control panel casings, switch housings, transformers, switches, splitters, coaxial cables, connectors, motion detectors, microphones and loudspeakers; user interface software and control software for management of access, security and fire-extinguishing systems; electric locks; portable electronic communication and computer equipment for data reception, control, storage, handling, display and transmission for operating electronic locking devices; electronic key holders, readers and encoders; computer hardware and software for data processing; electric power supplies, namely batteries, rectifiers/regulators of current/voltage and transformers; control panels, namely electronic apparatus designed for electronically monitoring a predefined activity and for activating an anti-theft alarm; loudspeakers for sirens; and electronic siren controls, namely ringer tone generators and amplifiers for sirens; software for controlling communication equipment for operating and controlling closed-circuit cameras; switching devices integrating magnetically triggered blade switches for anti-theft alarm systems and fire alarm systems, in industrial tracking apparatus, revolution counters, security lock systems for equipment cabinets, industrial position-monitoring apparatus, electric cables and pump and valve monitoring apparatus and home security alarm systems; electric and electronic checking apparatus for detecting the presence of certain substances on people, in luggage and freight; electric and electronic checking apparatus for detecting the presence of explosives and/or narcotics on people, in luggage and freight; apparatus for detecting the presence of explosives and other contraband; timers or sensitive apparatus for detecting changes in conditions for launching and monitoring regeneration or washing cycles for waster treatment equipment; control valves for water treating and filtering equipment; bioreactors for cell culture; portable analysis instruments, namely a probe with a recorder for data conversion equipped with microprocessors for measuring organic and inorganic products in water; filters and filter housings for laboratories; membrane filters for laboratories; silt density measuring devices; deionization devices for laboratories, filters and filter housings for laboratories; liquid separating apparatus for laboratories; membranes for laboratories; liquid flow control devices, namely pumps, valves, flowmeters and regulators for laboratories; ozone monitoring instruments; laboratory equipment, namely porous titration microplates for cellular biology and other applications in life sciences; electronic controls for water treatment and processes, namely apparatus for treatment of industrial and commercial water supply systems, boiler water systems, water cooling systems, cooling water systems and closed water-supply systems, systems for paper and pulp treatment, fuel treatment systems and metal treatment systems for analyzing system chemistry, determining the right treatment program, applying the desired treatment and monitoring treatment efficacy; data

management software in the field of paper, pulp and water treatment; electronic controls for data processing in the field of paper, pulp and water treatment; apparatus for industrial water-supply systems for measuring and checking pH and conductivity; apparatus for supplying an industrial, commercial or municipal water supply system with measured quantities of chemicals; electronic testing apparatus for water treatment; laboratory testing equipment, namely apparatus for testing deposit levels and corrosion speed; mobile laboratory equipped with instruments and equipment for measuring and monitoring pH, conductivity and concentration of chromate in domestic and industrial water, for carrying out inorganic and microbiological water testing; electronic and electrochemical products, namely fuel cells; apparatus for converting photo-electric radiation to electrical energy, namely, photovoltaic solar modules, hybrid photovoltaic solar modules, electronic sensors for measuring solar radiation, photo-cells; apparatus for converting electronic radiation to electric energy, namely photovoltaic solar modules, systems and components and all related system components; printers, laser printers, ink-jet printers, multi-function and multi-purpose printers, parts of all the aforesaid goods; portable electronic devices for wireless reception and/or transmission of data, enabling users to store or manage personal information and to transmit and receive voice, video and image communications; software for synchronization of data between a remote unit or station and a fixed unit or station, and software providing a one-way and/or two-way wireless connection to data; portable digital electronic scales; software for portable digital electronic scales; portable electronic devices for wireless data reception and/or transmission; software for re-orientation of messages, electronic mail and/or other data from a personal computer or a server towards one or several portable electronic devices; computer programs and software for wireless device operation and management; telecommunication devices; software for accessing, researching, indexing and recovering information and data from global computer networks and global communication networks, and for navigation on web sites in the aforesaid networks; software for sending and receiving short messages and electronic mail and for filtering non-text information from data; portable electronic devices for voice, video, data and image communications; computer game software for mobile telephone receivers; electronic game software for mobile telephone receivers; software, software packages; batteries, dry cells and batteries, rechargeable batteries, battery chargers, storage batteries, solar cells and batteries, fuel cells; carbon electrodes for dry batteries, carbon electrodes for welding; wiring apparatus, connectors (electric), electric cables, electric ducts, floor ducts specially designed for housing electric cables, ballast (for discharge lamps), wiring systems under carpets, code lighting switches, circuit breakers, magnetic starter switches and contactors, circuit protectors, switches, electric, electric connecting boxes, device switches, output jacks, plugs (electric), electric timers, other wiring devices; electrical signalling apparatus, generators (signal -), signals, luminous or mechanical, video intercoms, intercom systems, electric door chimes, intercoms, fire alarms, gas-leak alarms, anti-theft alarms, portable emergency intercoms; acoustic machines and apparatus, radios, tape recorders/players, radio cassette recorders, portable tape players, compact disc recorders/players, minidisc recorders/players, minidisc consoles, DVD audio recorders/players, secured digital recorders/players, secured digital cards, loudspeakers, electronic tuners, stereo tuners, amplifiers, stereo systems (audio apparatus), disc readers, graphic equalizers, alarm clocks, integrated circuit recorders, digital audio processing

devices, earphones, headphones, microphones, cassette recorders/players, software for compact discs (prerecorded), electric megaphones, language laboratories, audio systems for cars, public address systems, audio mixers, audio equipment cleaning equipment, namely magnetic head cleaning equipment, audio cables, video cables, other audio machines; audiovisual machines and apparatus, television sets, cathode ray tube display devices, cathode ray tubes, image pick-up tubes, plasma television sets, plasma display devices, television sets (liquid crystal display), liquid crystal display monitors, television sets combined with video tape recorders, television sets combined with disc players, antennas, tuners for satellite broadcasting, television tuners, Internet terminals, video projectors, video cassette recorders, camcorders, video cameras, video printers, laser disc players, video CD (compact disc) players, software for video CD (compact disc), video recorders/players for DVDs, color video systems for large-scale display, cable television systems, hard disk units, video imaging devices, electric optical display boards, multi-purpose electric display systems, closed-circuit video equipment systems, software for DVDs, television cameras, video switches, non-linear editing systems, editing controllers, DVD creation systems, LED displays, other audiovisual machines; optical disc machines and apparatus; optical disc units, optical disc recorders, optical disc readers, optical disc changers, optical disc cartridges, optical disc recording systems; communication apparatus and machines, facsimile transceivers, transceivers, telephones, cellular mobile telephones, cases for cellular mobile telephones, telephone answering machines, private auto-switch systems, global positioning system receivers, radiotelephones, marine radars, radio-paging receivers, mobile communication systems, multi-channel access radio systems, electric panels for traffic information, videoconferencing systems, private portable telephone systems, local network systems, AV codecs (coder-decoders), navigation systems for cars (road guidance systems), electronic systems for road toll collection, GPS (global positioning system) antennas; surveillance (monitoring) apparatus and instruments, electric door opening devices, communication and surveillance systems for apartment structures, intruder detection systems, automated systems for surveillance and control of functions in buildings, security apparatus with several electrical layers; automatic control machines and instruments, electric distribution boards, road signal control apparatus, GPS (Global Positioning Systems) for bus location, ultrasound vehicle detectors, information and telecommunication networks for road traffic management, light dimmers, light switches, inverters, programmable control systems, transformers, cabinets, domestic electricity production systems, power capacitors; data processing equipment; computers and computer peripherals, word processors, software (recorded), image scanners for personal computers, printers, PC cards, computer keyboards, mice (data processing equipment), CD-ROM units, diskette units, card reading/writing systems, barcode readers, time recorders, portable data terminals, point-of-sale systems, data collection terminals, personal digital assistants (PDAs), DVD-RAM/ROM units, CAD/CAM (computer-aided design/computer-aided manufacturing) systems, hard disk units, electronic calculators, uninterruptible power supplies for computers / communication / broadcasting; external storage devices, video cassettes, cleaning heads, D-VHS (video systems for household use), other computer peripherals; video tapes, audio cassettes, diskettes, optical discs, mini-discs, DVDs (digital versatile discs), integrated circuit memory cards; weighing and measuring apparatus and

instruments, thermoluminescent dosimetry systems, portable x-ray dosimeters, electronic meters, ammeters, electricity consumption meters, grip measuring devices, electric apparatus for measuring leakage, electric insulation meters, thermometers, measuring system processors, electric multi-circuit sector voltage monitors, micro-precision measuring devices, body fat monitors, pacers, audio/video analyzers, oscilloscopes, modulators, voltmeters, distortion meters, other measuring apparatus; light-sensitive sensors, thermometric sensors, position sensors, angular velocity sensors, rotation sensors, angle sensors, dew point sensors, components for electric circuits, LEDs, liquid crystals, liquid crystal display modules, magnetrons, diodes, transistors, thermostats, integrated circuits, semi-conductor storage devices, micro-computers with a single chip, cartridges for microphones with electric capacitor, gray-scale image processors, thermal print heads, magnetic heads, permanent magnets, electric connectors, electric relays, display components, semi-conductor lasers, charge coupling devices, image detectors, film capacitors, over-oxygenation membrane units, electric tuner units, high-frequency units, coin validation units, note validation units, magnetic card reading/writing devices, voltage-controlled oscillators, phase-locking circuit synthesizing modules, wireless communication module units, optical transmission components, printed wiring boards, loudspeaker components, electricity supplies, AC adaptors, focusing magnets, inductors (coils), capacitors for electric apparatus, electric signal filters, transformers, deflection coils, thermistors, varistors, piezoelectric ceramic components, acoustic-optical components, resistances, potentiometers, magnetic encoders, optical encoders, printing units, hybrid integrated circuits, apparatus and instruments for electricity switches, electronic switches, switchboards, computer network switches, data switches, packet switching apparatus; heat-welding wiring boards, transparent touch panels, electroluminescent components, remote control units, magnetic resistance elements, thermal cutoffs, electric arc-welding apparatus, welding electrodes, electric timers; equipment for processing data, particularly for financial applications; operating system programs; computer hardware and software, particularly for local and wide-range computer network development, maintenance and use; systems for reading memory cards and systems for reading stored data including integrated circuit memories and bank card memories; automatic ticket dispensers; accounting machines; encoded cards, including magnetic cards and integrated circuit cards, particularly for financial applications; card readers, printing apparatus, including printing apparatus for data processing systems and financial transaction systems; machines for banking institutions; encoding and decoding apparatus and instruments; modems; encoded magnetic cards, encoded data carrier cards, readers for encoded magnetic cards, readers for cards with electronic data, electronic encryption systems, computer hardware, computer terminals, software used in financial services, in the banking and telecommunication industries; electric and electronic products, namely calculating machines, pocket planners, alarms; bank cards, including printed bank cards and bank cards with magnetic memory and with integrated circuit memory; bank cards, credit cards, debit cards, including such cards equipped with integrated circuits and microprocessors; memory cards (smart cards); automated teller machines (ATMs); data processing equipment and computers including cards equipped with microprocessors and integrated circuits; computer hardware in the form of integrated circuit cards and card readers containing transponders and other proximity payment devices; mouse pads;

machines and machine systems, including parts and accessories for transmission, distribution and control of electricity; electrical inductors, electrical displacement devices, electricity control and regulation devices, electricity measuring instruments, electrical protection devices, switchboards, switchboard apparatus, wiring devices and supplies; liquid control devices, namely, flowmeters, manostats, sequential timers, electric controls and switches; audio amplifiers for keyboards, external memories for musical instruments; systems for managing data and preserving archives in the field of anesthesia.

[Class 10] Class 10 is accepted for the following goods/services.

Surgical, medical, dental and veterinary apparatus and instruments, artificial limbs, eyes and teeth; orthopedic articles; suture materials; test kits for clinical medical use comprising test tubes, test plates and indicator diagrams for evaluating test results; systems comprising medical apparatus and accessories for administering measured doses of pharmaceutical preparations; dropper bottles for medical use; suction bottles for medical use; cannulas for medical use; syringes for medical use; injectors for medical use; cartridges for medical use; infusion pumps used for administering liquids intravenously; needles for medical use; cardiac output monitors; humidity and heat exchangers for medical use; bacterial filters for medical use; gas analyzers for medical use; patient monitoring systems, namely carbon dioxide indicators for medical purposes; pulse oximeters, multi-parameter monitors for medical use, ECG monitors, invasive and non-invasive blood pressure monitors, neuromuscular transmission monitors, metabolic monitors and spirometers for diagnostic, intensive care and anesthesia applications; anesthetic machines; medical ventilators; anesthesia and intensive care accessories for a single patient, namely gas sampling lines; airway adapters for anesthesia and intensive care; respiratory circuits for anesthesia and intensive care; spirometry sensors and tubes for anesthesia and intensive care; tubes for anesthesia and intensive care; water separators for anesthesia and intensive care; pulse oximetry sensors for anesthesia and intensive care; non-invasive sphygmomanometers for anesthesia and intensive care; rinsing sets for anesthesia and intensive care; anesthesia masks for anesthesia and intensive care; carbon dioxide absorbers for anesthesia and intensive care; temperature-sensing probes for anesthesia and intensive care; nebulizers for anesthesia and intensive care; central nervous system monitors; gastric tonometers; gradient coils for medical use, namely magnetic gradient coils for magnetic resonance imaging (MRI); medical diagnosis devices, namely bone densitometers; fetal monitoring apparatus, namely fetal pulse and vital sign monitors; patient monitoring apparatus, namely, vital sign and cardiac monitors, medical imaging systems, namely ultrasound imaging machines for medical diagnosis, imaging devices for diagnostic and screening applications for planning operations and surgery, and their parts and accessories; medical diagnosis apparatus for displaying diagnostic images, namely spot film apparatus, image intensifiers, fluoroscopes, mobile x-ray devices, x-ray film viewers, CAT scans, nuclear resonance apparatus, ultrasound scanners, magnetic resonance apparatus, positron emission tomography apparatus (PET scans) and their parts and accessories, including tables and pads; electronic apparatus for measuring blood pressure, laser apparatus for medical treatment, ultrasound diagnostic equipment for medical use, audiometers for medical use, medical stethoscopes, hearing aids, parts and fittings for hearing aids; laser scalpels, electric massaging apparatus for

medical purposes, portable vibrators for medical use, low-frequency muscle stimulators for medical use, high-frequency apparatus for medical use, electric air mattresses for preventing bedsores, electric inhalers for therapeutic use, electrically heated pads for medical purposes; CCD (charge-coupled device) sensor systems for medical use, medical apparatus for measuring bone density.

[Class 11] Class 11 is accepted for the following goods/services.

Electric lighting apparatus; heating installations; apparatus for steam generating; cooking apparatus and installation; refrigerators; drying apparatus; apparatus for ventilating; apparatus for water supply; sanitary apparatus and installations; solar heat collection panels; solar cell lighting apparatus; solar-thermal installations, namely solar-thermal modules; solar water heaters; gas and electric cooking apparatus for household use, namely gas and electric cookers, cooking rings; gas and electric cooktops and ovens; heat exchangers, other than parts of machines; thick-wall chemical reactors and nuclear reactors and accessories and components thereof, namely, heat pumps, air valves for steam heating installations; valves regulating the flow rate of liquid and gas; electric lamps of all kinds and their parts; electric lighting accessories and their parts; freezers, air-conditioning apparatus, electric ovens, cookers, electric refrigerators; microwave ovens for cooking; wall-mounted cooking ovens for household use; convection ovens, gas and electric cooktops; gas and electric cookers; cooking ovens for household purposes; ventilation hoods for stoves and exhaust fans; water filters; water softeners; laundry driers; electric fans, ceiling fans, flashlights; lighting apparatus for vehicles; electric lights for Christmas trees; concentrated unit for water treatment devices; filters for filtering of solids from gas and liquids or for filtering of liquids from gas and for filtering of an immiscible liquid from another for water purifying apparatus; coils or filter cartridges held in a tubular plastic sleeve for concentrating products and removing impurities in systems for treating liquids; water purification installations, clarifying installations for wastewater, electric deionization apparatus for industrial purpose, condensate polishing filters for gas scrubbing apparatus, vacuum degassing devices, ultra-filtration devices, ultraviolet sterilization devices, ion exchange units, furnaces for recovering acids and caustic metal products, reverse osmosis water filtration units, reverse osmosis water purification units, forced-air decarbonation devices, liquid filter; filters for filtering air; chemical feed apparatus and storage devices for bulk goods, sold with automatic controllers and instruments for monitoring operating parameters of devices and systems, electrochemical purification devices for liquids for industrial, commercial and municipal use; water filtering devices for household, industrial and commercial use; wastewater purification units; drinking water purification units for domestic purposes; drinking water purification units for industrial and commercial purposes; liquid separating devices, namely industrial liquid filters; recycling devices, namely wastewater purification units; water treatment equipment, namely non-electric water purifier filter cartridges for household purposes; water purifier filter cartridges for industrial purpose; water treatment equipment for household use, namely water softeners and water conditioners; support filters and depth filters for removing deposits, iron, sulfur, tastes and smells from water; reverse-osmosis water purification devices; depth filter units and cartridges for filtering liquids and air for domestic purposes; depth filter units and cartridges for filtering liquids and air for industrial and commercial

purposes; disposable cartridge filters for filtering industrial water; apparatus and installations for lighting, incandescent bulbs, gas discharge lamps starters, grooved fluorescent lamps, fluorescent lamps, tungsten and halogen lamps, pocket lamps, fluorescent lighting apparatus, non-electric lamps, fluorescent lighting apparatus, dynamo lights for bicycles, germicidal lamps, other lighting apparatus; cooking apparatus and installations, automatic bread-making machines for household use, electric kettles, electric rice cookers, gas rice cookers, electric crock pots, electric grills, electric cooking ovens for household purposes, gas cooking ovens, toasters, electric coffee machines, cookers, electric thermal-insulating coffee machines, gas cookers, electric induction cooktops for household purposes, electric barbecue grills, microwave ovens, gas cookers with ovens, electric saucepans, sink trays; freezing and refrigerating apparatus and installations, refrigerators, freezers, electric hot/cold water dispensers, refrigerating and freezing display cases, electric water coolers, ice-making apparatus; ventilation apparatus and instruments, electric fans, electric fans, electric air purifiers, extractor hoods for cookers, electric dehumidifiers, electric humidifiers, hot air blowers, air exhaust fans; air extractor hoods, ceiling fans, ceiling ventilators; other ventilation apparatus and installations; heating apparatus and installations, apparatus for steam generating, drying, cooling and air conditioning, air conditioners, blade fans for air conditioning, apparatus for cooling air by evaporation, stoves [heating apparatus], electric radiators, electric blankets not for medical purposes, kerosene-powered fan heaters, electric foot warmers (electric kotatsu), wireless gas radiators; water distribution apparatus; sanitary installations, electric bidets, toilets(water-closets), self-cleaning toilet seats, portable toilets, wastewater treatment systems using aeration, water purifiers, incinerators (waste incinerators), dry-type saunas; electric saunas; saunas for household purpose; transportable infrared saunas; wet-type saunas; sauna bath installations; bathtubs, bath installations, electric showers; water heaters, gas-powered instantaneous water heaters, other water heaters; air driers, hand driers, electric hair driers, laundry driers, electric laundry driers; electric lamps, electric-resistance heating cables; sinks of metal; laundry driers.

[Class 12] Class 12 is accepted for the following goods/services.

Vehicles for locomotion by land, air, water or rail; apparatus for locomotion by land, air or water; electric motors and diesel engines for land vehicles; bicycles, tires and tubeless tires for bicycles, automatic transport vehicles, electric bicycles; tires.

[Class 14] Class 14 is accepted for the following goods/services.

Precious metals and their alloys; commemorative medals of precious metal; commemorative coins of precious metal; accessories of precious metal (jewelry); accessories of precious stones (jewelry); badges of precious metal; bracelets of precious metal; pendants of precious metal; necklaces of precious metal; rings of precious metal; brooches of precious metal; earrings of precious metal; watches; jewelry, precious stones; lapel pins; tie pins of precious metal; ornamental pins of precious metal; timepieces and chronometric instruments; key rings of precious metal.

[Class 16] Class 16 is accepted for the following goods/services.

Paper, cardboard, garbage bags of paper, labels of paper or cardboard, signboards of

paper or cardboard, flags of paper, covers of paper for flower pot, napkin of paper, towels of paper, boxes of paper or cardboard, paper sacks for wrapping, blinders of paper, tablemats of paper, table linen of paper, bibs of paper, pictures; printed matter, particularly postage stamps; newspapers, periodicals, books, printed photographs and posters; bookbinding material; stationery; adhesives (glues) for stationery or household purposes; artists' materials; paintbrushes; typewriters and office requisites (except furniture); instructional or teaching material (except apparatus); plastic materials for packaging (not included in other classes); printing type; printing blocks; computer printouts; checkbooks, punched cards; periodicals; paper shredders, electric staplers, battery-powered letter openers, electric pencil sharpeners, electric office perforators; electric bookbinding perforators (machines) for office use; electronic typewriters, ribbon cartridges for electronic typewriters, apparatus for printing cheques for office use, thermal paper.

[Class 17] Class 17 is accepted for the following goods/services.

Unprocessed rubber, semi-worked rubber, gutta-percha, gum (raw or semi-worked), asbestos, mica (raw or semi-worked), rubber sacks for packaging, washers of rubber or vulcanized fiber, shock-absorbing buffers of rubber, cords of rubber, asbestos fabrics, asbestos felts, asbestos paper, asbestos cords, asbestos nets; plastic material in extruded form for use in production; plastic substances (semi-processed); packing, stopping and insulating materials; flexible pipes not of metal; silicone sealants for caulking of bathtubs, boats and automobiles; silicon resin semi-finished for use of waterproof and road surfacing, silicon rubber for coating roofing; plastic substances, semi-processed for glazing; plastic materials in the form of sheets, plates, blocks, all for manufacture; electrical insulating materials including insulating varnish; electrical insulating materials including silicone rubber compounds; plastic materials in the form of sheets, rods or plates, modeling materials.

[Class 18] Class 18 is accepted for the following goods/services.

Leather and imitations of leather, leather vanity cases [not fitted], leather bags for mountain-climbing, leather rucksacks [backpacks], leather wallets [purses], briefcases [leather goods], leather attache-cases, leather suitcases, leather school bags, leather handbags, key cases [leatherware], leather straps; animal skins; trunks and travelling bags; umbrellas, parasols and walking sticks; whips, harness and saddlery.

[Class 19] Class 19 is accepted for the following goods/services.

Non-metallic building materials; rigid pipes, not of metal, for building; asphalt, pitch and bitumen; transportable buildings, not of metal; monuments, not of metal; thermoplastic building materials (not of metal), namely thermoplastic molded and extruded materials for use as substitutes for wood, metal or glass, for supporting or covering; doors (not of metal), rain gutters (not of metal), ceiling panels (not of metal), folding doors (not of metal), wooden floors, roofing tiles, prefabricated houses [kits] (not of metal); non-metallic roofs, with solar cells; plastic panels for building; thermoplastic building materials (not of metal) for insulation, covering (roofing) and glazing; water pipes made of PVC (polyvinyl chloride).

[Class 21] Class 21 is accepted for the following goods/services.

Kitchen utensils, non-electric cooking utensils, containers for household or kitchen use; combs and sponges; brushes (except paint brushes); brush-making materials; non-electric articles for cleaning purposes, cleaning instruments (hand-operated); steel wool; unworked or semi-worked glass (except glass used in building); unworked or semi-worked glass (except building glass), painted glassware (other than for construction), glass jars for preserving food, glass ornaments, crystal (glassware), beverage glassware, porcelain ware, porcelain for tableware, porcelain ornaments and earthenware not included in other classes; cleaning brushes for clothing, laundering nets for clothing, toothbrushes; electric toothbrushes; ultrasound cleaning apparatus for dentures; dental floss, holders for dental floss, toothpicks, holders for toothpicks; cleaning tools and washing utensils (other than electric), toothbrush holders, insulating sleeve holders for beverage containers, dispensers for cleaning preparations, soap dispensers; electric trouser presses.

[Class 28] Class 28 is accepted for the following goods/services.

Games, toys; gymnastic and sporting articles not included in other classes; ornaments for Christmas trees (except illumination articles and confectionery); playing cards; electric floats for fishing, apparatus for tying fishing lines to hooks, electronic apparatus for practicing golf, wax applicators for skis; stationary exercise bicycles and rollers.

[Class 35] Class 35 is accepted for the following goods/services.

Advertising; dissemination of advertisements by all media, particularly in the form of themed messages focused on human values; advertising by sponsorship (sponsoring); business management; business administration; office functions; promotion of the goods and services of others, by means of contractual agreements, particularly partnership (sponsorship) and licensing agreements, affording them with increased notoriety and/or enhanced image and/or sympathy derived from the notoriety and/or enhanced image resulting from cultural and sporting events, particularly international events and/or sympathy generated by the above; promotion of the goods and services of others by means of what is referred to as the initial interest factor driving the public to consider, from among many competitors, goods or services presented with signs, emblems or messages so as to capture its attention; promotion of the goods and services of others by means of the so-called image transfer; rental of advertising space of all type and on all media, whether digital or not; business administration of the participation of national teams to an international sports competition, and promotion intended for the public and bodies interested in providing support to the aforesaid teams; inventory management services; advice relating to stock monitoring services; advertising by means of direct marketing for others consisting in marketing of databases; advice for advertising by means of direct marketing for others consisting in marketing of databases; advisory services in connection with business reorganization; automobile and truck fleet management services, namely billing via a global computer network; advice in connection with the management of automobile and truck fleets; business administration consultancy; management of power plants of others; advice regarding management of electric power plants; commercial services, namely administration of contracts for repair and servicing; supply chain

management services and advice relating to the purchase and supply in terms of chemicals and chemical services; product inventory and supply services, cost containment, cost assessment services; advice, marketing, analysis of prices and costs concerning devices for electrochemical purification of liquids for industrial use; administrative, commercial and technical management of computer files; data input and processing services; business management consultancy in the field of information technology; business management, namely, management of value-added data transmission networks and computer servers (multimedia systems, interactive videography, global computer networks for telecommunications); computerized database management, namely, management of value-added data transmission networks and computer servers (multimedia systems, interactive videography, global computer networks for telecommunications); retail sale of electronic apparatus and instruments for recording and/or reproducing music, retail sale of featuring computer hardware and computer peripheral devices, retail sale of telecommunication machines and implements, retail sale of electronic audio and visual apparatus and instruments; information concerning the sale of raw materials; commercial information, commercial information agencies; rental of photocopiers; promotion of the sale of goods and services of others including by means of advertisements, promotional competitions, awarding of prizes and bonuses in the form of promotional lotteries, discounts, reduction tokens and value-added offers in connection with the use of payment cards; promotion of sporting events and competitions for use by others; promotion of concerts and of cultural events for others; organization of exhibitions for commercial or advertising purposes; provision of documentation, namely direct mail advertising, distribution of advertising material, distribution of samples; document reproduction; advertising concerning the promotion of commercial sales of goods and services for retail sale purposes; provision of information in connection with e-commerce and electronic retail sale; provision of information concerning the purchase of goods and services on line via the Internet and other computer networks; tourist documentation services, namely advertising concerning transport, travel, hotels, accommodation, food and meals, sports, entertainment and sightseeing tours, tourist agency services; maintenance of computerized databases.

[Class 36] Class 36 is accepted for the following goods/services.

Insurance underwriting; financial affairs; banking; advisory services relating to monetary affairs; real estate affairs; credit card services; financing of sporting and cultural activities; rental of buildings and accessory buildings set up for corporate entertainment events; private mark and equity financing services; financial analysis and consultation; financial services in connection with credit cards; credit card services, namely granting credit to others; financial asset management for others; insurance and reinsurance services, namely underwriting of all types of insurance; equity capital investment services; insurance underwriting services in the field of bonds; financial security underwriting services; personal loan financing; lending against collateral; acquisition financing services; commercial financing services; commercial real-estate agency services; mutual funds; loan and private capital investments; information, assistance and advice in all the aforesaid fields; lease-purchase financing of mobile and modular structures; insurance brokerage services; credit agency services in the field of commercial and consumer credit; financing of real

estate loans and financial and banking services; monetary operations particularly by means of bank cards or customer loyalty cards; financial clearing services; issuing of checks and letters of credit; financial services; insurance services; financial operations; bill payment services; debit card services; payment card services; pre-payment card services; electronic transactions by credit and debit card; electronic transfer of funds; electronic money transactions; smart card services; provision of liquidities (financial services); payment and credit card services replacing cash payments; electronic capital transfer services; check verification; check cashing services; safe deposit system and automated teller services; payment processing services; authentication and verification of transactions; provision of financial information via a global computer network; financial sponsoring of festivals and concerts; financial services for purchasing goods and services sold in retail at points-of-sale for promotion purposes; information services in the field of tourism, namely financial information; financial services for tourist assistance purposes; lease-purchasing financing of telephones, facsimile machines and other telecommunication equipment; lease-purchasing financing of transport containers.

[Class 37] Class 37 is accepted for the following goods/services.

Construction; repair and installation for compressors (machines), repair and installation for pumps (parts of machines), repair and installation for fuel pumps, repair and installation for fuel dispensing pumps for the service stations, repair and installation for gas turbines (other than for vehicles), repair and installation for gas turbines for land vehicles, repair and installation for steam turbines (other than for vehicles), repair and installation for steam turbines for land vehicles, repair and installation for steam condensers (parts of machines), repair and installation for heavy-wall reactors for chemical processing, repair and installation for tubular reactors for chemical processing; replacement, overhaul and maintenance of power plants; replacement, overhaul and maintenance of motors (except for land vehicles); replacement, overhaul and maintenance of motors for land vehicles; replacement, overhaul and maintenance of engines (except for land vehicles); replacement, overhaul and maintenance of engines for land vehicles; replacement, overhaul and maintenance of turbines other than for land vehicles; replacement, overhaul and maintenance of turbines for land vehicles; replacement, overhaul and maintenance of wind turbines; installation, maintenance and repair of compressors and pumps, namely machines, turbo-expanders, fuel pumps and fuel distribution equipment, CNG refueling equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, thick-wall reactors and tubular reactors; maintenance and repair of gas and oil pipelines; drilling and pumping of oil and gas; drilling for crude oil; installation of tubes and pipelines for drilling of oil wells; rental of tools for drilling oil and gas wells; remote monitoring, diagnosis, repair and maintenance of airplane engines; remote monitoring, diagnosis, repair and maintenance of turbines other than for land vehicles; remote monitoring, diagnosis, repair and maintenance of turbines for land vehicles; remote monitoring, diagnosis, repair and maintenance of electrical power distribution apparatus; remote monitoring, diagnosis, repair and maintenance of medical equipment; remote monitoring, diagnosis, repair and maintenance of locomotives; rental of construction equipment; chemical cleaning of glass-coated reactor vats used in the pharmaceutical and chemical treatment industries; maintenance services for heating apparatus; maintenance

services for air condensers; maintenance and repair of computerized cooling apparatus; repair and maintenance of electrical equipment, apparatus, instruments and machines; maintenance and repair of tubes and pipelines for drilling of gas and oil wells; maintenance and repair of tools for drilling oil and gas wells; maintenance and repair of oil refining machines; maintenance and repair of oil separators; installation of point-of-sale terminals at retailers; computer maintenance services; installation and repair of electrical appliances; repair of radio receivers and television receivers; repair and maintenance of electric apparatus and instruments for communication; repair and maintenance of electric coffee makers for household purposes; repair and maintenance of electric mixers for household purposes; repair and maintenance of electric lighting apparatus; repair and maintenance of electric apparatus for distribution and control; repair and maintenance of electric motors; repair and maintenance of machines and instruments for measuring and/or testing; repair and maintenance of medical apparatus and instruments; repair and maintenance of machines and tools for shaping metals; repair and maintenance of electric cooking apparatus; repair and maintenance of non-electric cooking apparatus; repair and maintenance of automatic vending machines; repair and maintenance of water purification apparatus; repair and maintenance of musical instruments; repair and maintenance of watches and clocks; repair and maintenance of gas-fired water heaters for household use; repair and maintenance of bathtubs; repair of toilets with water points; installation, maintenance and repair of computer hardware; repair and maintenance of air-conditioning apparatus; installation, maintenance and repair of office equipment and apparatus; installation, maintenance and repair of machinery equipment; repair of vehicles; repair and maintenance of electric apparatus and instruments for communication; repair and maintenance of computers; repair and maintenance of electronic printers; repair of telephones; electricity works and installation of telecommunication equipment; installation, maintenance and repair of compressors, pumps, namely, machines, turbo-expanders, fuel pumps and fuel distribution equipment, CNG refueling equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, thick-wall reactors and tubular reactors; repair and maintenance of gas and oil wells.

[Class 39] Class 39 is accepted for the following goods/services.

Transport; packaging and storage of goods; arranging of tours; storage of media containing still and moving images ; distribution of oil or gas by pipelines; rental of automobiles, airplanes, self-propelled and marine vehicles; delivery and storage of chemicals in the field of water treatment and of pulp and paper making systems; boat transport; vehicle reservation services; information services concerning travel; travel reservation services; assistance for planning of transport before travel; distribution of newspapers and magazines; transport ticket reservation; information services in the field of tourism, namely transport information; information services in the field of tourism, namely information on reservation of tickets for transport, travel and sightseeing tours; information services in the field of tourism, namely information on planned activities for sightseeing tours and transport; services in connection with transport for tourist assistance; tourist reservation services, namely ticket reservation services and transport reservation services; information relating to prices, timetables and means of transport; tourist assistance services concerning transport ticket, travel and sightseeing tour reservation; tourist

assistance services concerning planned sightseeing tours; tourist reservation services, namely reservation of tickets for transport, travel and sightseeing tours; preparation of travel reports via a global computer network.

[Class 40] Class 40 is accepted for the following goods/services.

Treatment of waste water; cinematographic film development; photograph enlargement, photograph printing, photographic film development; rental of photographic machines and instruments for developing, printing, enlarging or finishing; processing of oil; processing of gas; refining of oil and gas; wastewater treatment services, water treating; water recycling and desalination services; water treatment and purification; waste water treatment services for industrial purposes; water purification service; membrane regeneration services (water treating); operation of electric power plants of others; advice regarding operation of electric power plants; provision of information to others, on a global computer network, concerning industrial systems for water purification.

[Class 41] Class 41 is accepted for the following goods/services.

Educational services; providing of training; entertainment; sporting activities, organization of cultural events and activities, televised sporting and cultural entertainment; organization of exhibitions for cultural and educational purposes; organization of lotteries; organization of competitions (education or entertainment); betting and gambling services in connection with or relating to sports; entertainment services provided during sporting events or concerning sporting events; organization of sporting and cultural events and activities; organization of real or virtual sporting competitions; operation of sports facilities; rental of audio and video equipment; production, presentation and distribution of films and of sound and video recordings; rental of sound and video recordings; rental and/or provision via a computer network of interactive entertainment and education products, namely interactive compact discs, CD-ROMs, computer games; entertainment, namely presentation of interactive entertainment and education products, namely interactive compact discs, CD-ROMs, computer games; covering televised and broadcast sporting events; production of television and radio programs and of videotapes; production of cartoons; production of cartoons for television; reservation of tickets for sporting events and shows; timing of sports events; organization of beauty contests; interactive entertainment; on-line betting services; provision of games on the Internet; provision of raffle services; information concerning entertainment or education, provided on line from a data bank or the Internet; electronic game services provided by means of the Internet; provision of electronic publications on line; publication of books, magazines, texts (other than publicity texts) and periodicals; publication of books, magazines, texts (other than publicity texts) and of electronic periodicals on line; provision of digital music from the Internet; provision of digital music from MP3 web sites; provision of sporting results; information services concerning sports and sporting events; rental of recorded sounds and images; audio production services; information services concerning sporting events provided on line from a computer database or the Internet; editing and publishing services; provision of digital music (non-downloadable); offering digital music by means of telecommunications; publication of statistics regarding sporting results and audience ratings for sporting competitions; training in the use and operation of systems for signaling and notification of

crossings for the railway and transit industries; education services in the field of medical imaging and diagnosis, namely conducting of seminars, conferences, symposiums or workshops concerning the pharmaceutical industry, intended for medical doctors and employees of pharmaceutical companies; education services, namely conducting of seminars, conferences, symposiums or workshops in the field of life sciences and biotechnology for scientists and researchers; conducting of seminars on problems in connection with industrial water treatment; training services in the field of management and medicine by means of the use of instructions and demonstrations provided on line, via the Internet, intranets and extranets; education services, namely conducting of practical training workshops, courses and seminars including demonstrations in the field of medicine and management; design, conducting and hosting of courses, seminars and all training activities in the field of information technology; organization and performance of concerts; booking of seats for shows; movie presentations; entertainment information; film production; show production; theater production services; operation of golf facilities; health club services (fitness training); sports camp services; presentation of live performances; film projections; organization of shows (impresario services); holiday camp services (entertainment); movie studios; news reporter services; provision of on-line electronic publications, not downloadable; music hall services; education services, namely conducting of courses, seminars, presentations, video presentations, provision of educational material, namely dissemination of material in the field of financial knowledge; education services in the field of tourism; information services in the field of tourism, namely information services regarding reservation of tickets for recreational events; information services in the field of tourism, namely information services regarding entertainment; information services in the field of tourism, namely information services regarding planned sporting, cultural and recreational activities; services in connection with entertainment for tourist assistance; tourist reservation services, namely activity and entertainment reservation services; assistance services for tourists concerning reservation of tickets for recreational events; assistance services for tourists concerning planned sporting, cultural and recreational activities.

[Class 42] Class 42 is accepted for the following goods/services.

Scientific and technological services; scientific research; scientific services and design relating thereto; industrial analysis services; advisory services relating to scientific research; providing information on scientific research; advisory services relating to technological research; laboratory services for analytical testing; laboratory analysis in the field of bacteriology; laboratory analysis in the field of chemistry; laboratory analysis in the field of cosmetics; design and development of computers and software; services relating to wind and wind energy, namely professional consultancy and engineering services; design of power facilities of wind energy; industrial design services; design of equipment and installations for generating energy, wind energy and electricity; engineering services, technical consultancy and research for the gas and oil industries; exploration services relating to oil and gas; geophysical probing for the gas and oil industries; gas and oil field analysis; gas and oil prospecting, namely locating and testing of wells; gas and oil well testing; gas and oil pipeline inspection; remote monitoring and diagnosis services in connection with compressors, pumps, turbo-expanders, fuel pumps and fuel distribution

equipment, CNG refueling equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, thick-wall reactors and tubular reactors; providing information technology solutions in the field of transit and railway industries worldwide; research, consultancy and assistance services in connection with engineering, design and development problems encountered by governments, individuals and industrial, commercial and utility companies; computer programming services for others; software design and analysis services for others; information technology consultancy services relating to computers; maintenance and updating of computer software for others; installation of computer software; design and analysis of computer systems for others; consultancy services relating to chemical research; consultancy services in connection with the discovery and evaluation of medicines and components with diagnostic, prophylactic and/or therapeutical properties; consultancy services concerning medical diagnostic methods by means of optical laser systems; tests for high data rate analysis for producing medicines; customer synthesis and analysis services; biotechnological services; technical assistance in connection with factory automation software, namely maintenance of software and periodical updating of software; customized design of security access systems (software); design and consultancy services relating to configuration of computer systems used in fiber-optic technology applications; technical assistance services, namely resolution of problems in connection with computer hardware, video and electronic communication and computer software; technical consultancy services relating to information technology and software in the field of security and access systems; technical consultancy services relating to surveillance cameras; customized design of computer software for checking inventories and tangible assets for others; medical laboratory and testing services for liquid separation and membrane testing; engineering and technological consultancy services regarding water treatment, water supply systems, cooling water circuits, industrial boiler water systems, systems for water supply and industrial processes, industrial fuel treatment systems, pulp and paper making systems, systems for treating plastics and metals; engineering and technical assistance services concerning the design and configuration of systems comprising computer hardware and software for use in treatment of water supply systems and pulp and paper making systems, oil and petrochemical product treatment systems and metal and plastic finishing operations; consultancy services in all the aforesaid fields; chemical testing concerning supply of chemical treatment products via industrial water systems; programming for information processing machines, particularly programming services in the field of electronic money; development of computer programs for securing data transfers; industrial research and development services in the field of information technology relating to computers; technical consultancy in the field of information technology relating to computers; development of computerized databases and computer programs; development of software concerning machines, apparatus and instruments; rental of data processing apparatus; computer engineering services; consultancy regarding computer programming and data processing, particularly in connection with financial transactions; hosting of computer sites [Web sites]; maintenance of computer software; provision of search engines for the Internet; quality control; computer data recovery; research and development of new products (for others); technical project studies; surveying; updating of software; maintenance of software, engineering, testing and research concerning electric machines, apparatus and

instruments, computer rental; recovery of data, images, documents and of audio and video data, including texts, cards, letters, messages, mail, animations and electronic mail, via global or local communication networks, including the Internet, intranets, extranets, television, mobile communication networks, cellular networks and satellite networks; identification and testing of microbiological organisms.

[Class 44] Class 44 is accepted for the following goods/services.

Medical services; medical and pharmaceutical toxicological controls; veterinary services; hygienic and beauty care for human beings and animals; agriculture, horticulture and forestry services; advisory services in connection with medical imaging and diagnosis; advisory services in connection with prophylactic properties, therapeutic properties and pharmaceutical product diagnosis; medical information services; medical imaging services; medical diagnosis services; consultancy services in all the aforesaid fields; rental of medical machines and apparatus.

4. Decision:

All procedures before KIPO relating to the protection of the mark have been completed. The assigned examiner has decided to withdraw the provisional refusal dated 26/04/2020. Therefore the international registration is to be protected in the Republic of Korea for the designated goods/services listed in item 3.

5. Date on which the Decision was issued:

03/02/2021
