FINAL DISPOSITION ON EXTENSION OF PROTECTION

The table below presents the data as entered.

Input Field	Entered
IDENTIFICATION SECTION	
INTERNATIONAL REGISTRATION NUMBER	1634330
OFFICE REFERENCE	79329052
ORIGINAL LANGUAGE CODE	ENGLISH
FILE SECTION	
FILE SPECIFICATION OF THE DOCUMENT	The legal letter below is sent to IB
GOODS AND SERVICES SECTION	
NICE CLASS NUMBER	01
LIMITED LIST	List limited to
GOODS AND SERVICE TERMS IN ORIGINAL LANGUAGE	Chemicals for use in industry and science, namely, diagnostic kits consisting primarily of antibodies and reagents for use in disease testing; biological preparations in the nature of antibodies for research use, other than for medical or veterinary purposes; antibody libraries, for scientific, industrial or research use, namely, biological preparations in the nature of antibodies sold together; libraries of immunoglobulins, antibodies, or fragments thereof, for scientific, industrial, and research use, namely, biological preparations in the nature of immunoglobulins, antibodies, or fragments thereof sold together as a kit; biological preparations in the nature of immunoglobulins, antibodies, or fragments thereof, for scientific, industrial, and research use; assays and reagents for use in genetic research; diagnostic reagents for scientific and research use; reagents and kits comprising chemical reagents, both for scientific or research use in the field of diagnosing diseases
NICE CLASS NUMBER	05
LIMITED LIST	List limited to

GOODS AND SERVICE TERMS IN ORIGINAL LANGUAGE	Biological preparations for the treatment of infectious diseases, deficiency diseases, hereditary diseases, and physiological diseases; pharmaceutical, biopharmaceutical and medical preparations for the treatment of infectious diseases, deficiency diseases, hereditary diseases, and physiological diseases; diagnostic preparations for medical purposes; antibodies for medical purposes; biological preparations, namely, immunoglobulins, antibodies, or fragments thereof, for medical use; antibody libraries, for medical and veterinary use, namely, collections of antibodies for medical purposes; libraries of immunoglobulins, antibodies, or fragments thereof, for medical use, namely, collections of biological preparations in the nature of immunoglobulins, antibodies, or fragments thereof, for medical use, sold as a unit; biological preparations comprised of immunoglobulins, antibodies, or fragments thereof, for use in medicine; diagnostic reagents for medical purposes; diagnostic reagents for medical use; diagnostic reagents for medical clinician or medical use
NICE CLASS NUMBER	40
LIMITED LIST	List limited to
GOODS AND SERVICE TERMS IN ORIGINAL LANGUAGE	Antibody production for others, and manufacture of antibodies for others; custom manufacture of antibodies, namely, antibody purification, antibody fragmentation; custom production of cell cultures and biological products in the nature of antibodies and proteins and related reagents; custom antibody production; custom manufacturing for others, namely, manufacturing of chemical and biotechnological materials for others, namely, manufacturing of organisms, compounds and materials for use in the pharmaceutical, agrochemical, chemical, biotechnology industries
NICE CLASS NUMBER	42
LIMITED LIST	List limited to

GOODS AND SERVICE TERMS IN ORIGINAL LANGUAGE	Research and development in the field of antibody generation services; medical and scientific research for the identification, preparation, and development of antibody libraries; Chemical, biochemical, biological and bacteriological research and analysis services in the nature of preparation and screening of libraries of proteins and antibodies, libraries of cells producing antibodies and proteins, and libraries of vector coding for antibodies and proteins; design of antibody libraries for medical or veterinary use; scientific and technological services, namely, scientific and technological research, analysis, inspection, quality audit, consulting, design, engineering, development and laboratory testing services for others; research and development services in the field of developing new chemicals; testing or scientific research on biotechnology and providing scientific information and research consultancy relating thereto; providing information and consultancy on testing, inspection or research of pharmaceuticals, chemicals for use in medicines, reagents for use in medicines, cosmetics or foodstuffs; scientific or laboratory testing, inspection or research of nucleic acids, chemicals and pharmaceuticals for drug development and medical research purposes, and providing scientific information and research consultancy relating thereto; genomic experiments, analyses, research, assays, tests, inspection, detection or verification, namely, scientific laboratory services being scientific genomic analyses, scientific genomic research, custom design and development of biochemical genomic assays, genome amplification and functional and structural analysis of genomes; scientific laboratory services of a chemist, biologist, biochemist, biotechnologists, gene technologists, molecular biologists, pharmacists, protein chemist; chemical and biological analysis and research services; pharmaceutical, medical, scientific and biopharmaceutical research and development; drug discovery services; research relating to medicines; research and development of medicines; development of pharmaceutical and biopharmaceutical preparations and medicines

Statement of Partial Grant of Protection Following a Provisional Refusal by the United States Patent & Trademark Office According to Rule 18*ter*(2)(ii) of the Common Regulations

The United States Patent and Trademark Office hereby notifies the International Bureau of the GRANT OF PROTECTION in the United States for:

International Registration No.: 1634330
Holder: Bio-Rad Europe GmbH
Mark: PIONEER

Application Serial No. 79329052 was registered by the USPTO on April 11, 2023. The registration number is 7021191.

The grant of protection applies to the goods and/or services listed below:

International Class: 01
Goods and Services: Chemicals for use in industry and science, namely, diagnostic kits consisting primarily of antibodies and reagents for use in disease testing; biological preparations in the nature of antibodies for research use, other than for medical or veterinary purposes; antibody libraries, for scientific, industrial or research use, namely, biological preparations in the nature of antibodies sold together; libraries of immunoglobulins, antibodies, or fragments thereof, for scientific, industrial, and research use, namely, biological preparations in the nature of immunoglobulins, antibodies, or fragments thereof sold together as a kit; biological preparations in the nature of immunoglobulins, antibodies, or fragments thereof, for scientific, industrial, and research use; assays and reagents for use in genetic research; diagnostic reagents for scientific and research use; reagents and kits comprising chemical reagents, both for scientific or research use in the field of diagnosing diseases

International Class: 05
Goods and Services: Biological preparations for the treatment of infectious diseases, deficiency diseases, hereditary diseases, and physiological diseases; pharmaceutical, biopharmaceutical and medical preparations for the treatment of infectious diseases, deficiency diseases, hereditary diseases, and physiological diseases; diagnostic preparations for medical purposes; antibodies for medical purposes; biological preparations, namely, immunoglobulins, antibodies, or fragments thereof, for medical use; antibody libraries, for medical and veterinary use, namely, collections of antibodies for medical purposes; libraries of immunoglobulins, antibodies, or fragments thereof, for medical use, namely, collections of biological preparations

in the nature of immunoglobulins, antibodies, or fragments thereof, for medical use, sold as a unit; biological preparations comprised of immunoglobulins, antibodies, or fragments thereof, for use in medicine; diagnostic reagents for medical purposes; diagnostic reagents for medical use; diagnostic reagents for medical clinician or medical use

International Class: 40

Goods and Services: Antibody production for others, and manufacture of antibodies for others; custom manufacture of antibodies, namely, antibody purification, antibody fragmentation; custom production of cell cultures and biological products in the nature of antibodies and proteins and related reagents; custom antibody production; custom manufacturing for others, namely, manufacturing of chemical and biotechnological materials for others, namely, manufacturing of organisms, compounds and materials for use in the pharmaceutical, agrochemical, chemical, biotechnology industries

International Class: 42

Goods and Services: Research and development in the field of antibody generation services; medical and scientific research for the identification, preparation, and development of antibody libraries; Chemical, biochemical, biological and bacteriological research and analysis services in the nature of preparation and screening of libraries of proteins and antibodies, libraries of cells producing antibodies and proteins, and libraries of vector coding for antibodies and proteins; design of antibody libraries for medical or veterinary use; scientific and technological services, namely, scientific and technological research, analysis, inspection, quality audit, consulting, design, engineering, development and laboratory testing services for others; research and development services in the field of developing new chemicals; testing or scientific research on biotechnology and providing scientific information and research consultancy relating thereto; providing information and consultancy on testing, inspection or research of pharmaceuticals, chemicals for use in medicines, reagents for use in medicines, cosmetics or foodstuffs; scientific or laboratory testing, inspection or research of nucleic acids, chemicals and pharmaceuticals for drug development and medical research purposes, and providing scientific information and research consultancy relating thereto; genomic experiments, analyses, research, assays, tests, inspection, detection or verification, namely, scientific laboratory services being scientific genomic analyses, scientific genomic research, custom design and development of biochemical genomic assays, genome amplification and functional and structural analysis of genomes; scientific laboratory services of a chemist, biologist, biochemist, biotechnologists, gene technologists, molecular biologists, pharmacists, protein chemist; chemical and biological analysis and research services; pharmaceutical, medical, scientific and biopharmaceutical research and development; drug discovery services; research relating to medicines; research and development of medicines; development of pharmaceutical and biopharmaceutical preparations and medicines
