**Notification of Withdrawal of Provisional Refusal  
by the United States Patent & Trademark Office  
According to Rule 17(5)(a)(iii) of the Common Regulations**

The United States Patent and Trademark Office hereby notifies the International Bureau of the GRANT OF PROTECTION in the United States for:

**International Registration No.:** 0818881

**Holder:** LISTAN GmbH & Co. KG

**Mark:** BE QUIET!

Application Serial No. 79000994 was registered by the USPTO on October 04, 2005. The registration number is 3004542.

The grant of protection applies to the goods and/or services listed below:

International Class: 09

Goods and Services: Surveying equipment, namely hardware units for global positioning systems and electronic accessories therefor, namely antennas, holders, cables for global positioning systems (GPS), GPS mice, lightning arresters; photographic equipment, namely electronic cameras with systems for data transfer to computers, to printers and to other accessories to computers, mobile telephones and cameras; cinematographic equipment, namely electronic video recording equipment with means for data transfer to computers, to printers and to other accessories to computers, mobile telephones and video recorders; optical equipment, namely electro-optical scanners and optical character recognition apparatus principally used in conjunction with computer and mobile telephone equipment; measuring equipment, namely sensors for use with computers and mobile telephones; signalling equipment, namely signal processors used as accessories to, or peripherals for, computers and mobile telephones; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity equipment, namely electrical cables, electrical circuit boards, electrical connectors, power supplies and electrical transformers; integrated circuit cards for recording, transmitting, reproducing and storing data, sound and images in stationary and mobile computers and mobile telephones; blank magnetic data carriers, blank discs, namely machine-readable data carriers and data recording carriers, blank floppy computer discs, blank hard computer discs, blank optical discs and machine-readable and machine-writeable data carriers; and computers, computer cases and accessories, namely internal cooling fans for computers and parts thereof, namely, fan controllers, fan grills, fan bus, fan cables, fan fasteners, fan washers; noise reducers, noise absorbers, and noise dampers, all sold with or without installation hardware; coolers for central processing units (CPUs), video graphics arrays (VGAs), chips, disk drives and other coolers, heat sinks, notebook coolers, case stickers, case badges, window appliques, acrylic windows, transparent panels, windows, windows mountings, cold cathode fluorescent lights, light emitting diodes (LEDs) lights, LEDs, light switches, lamps for notebooks, generic cables, and cables implementing standards for communication and connections in computers; power cables, audio cables, adapter cables and other cables, water coolers for computers, sold with or without installation

hardware; radiators; temperature sensors and displays, multifunction controlling units with liquid crystal display (LCD) displays, screws, case screws, fan screws, thumb screws and other screws for computers and mobile computing and telephonic equipment, computer add-on cards, video cards, sound cards, network cards, internal and external controller cards, internal and external card readers, card read/writers, external cases for hard disk drives, hard disk drives mounting frames, hard disk drive exchange frames, IDE modules, computer input and output devices, namely printers, keyboards, mice and other pointing devices, mouse pads, scanners, joysticks, gamer panels, computer accessories and organizers in the nature of storage and maintenance cases, cases for carrying video games, video game consoles and video game controllers, computer game pads and controllers, headphones, microphones, multi-standard hubs, combo hubs, USB sticks, USB dongles and other USB devices, computer hardware for accessing global computer and communication networks, and peripherals therefor, and spare parts and upgrade parts therefor, all sold in bundles with manuals as needed

International Class: 38

Goods and Services: Telecommunications services, namely providing telecommunications connections to a global computer network, telecommunication services, namely local and long distance transmissions of voice, data, graphics by means of telephone, telegraphic, cable, and satellite transmissions, and personal communication services

International Class: 42

Goods and Services: Research and development of computer hardware and software, and of accessories to, and components for, computer hardware, based on scientific and engineering capabilities, for third parties, and providing technical documentation bundled with such services; development of new technology for others in the field of applied computer sciences, technology consultation and research in the field of applied computer sciences and design relating thereto; industrial design, analysis and research services; computer unit and site design; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; design of computers for others; computer software design for others; computer hardware development
