Date of Notification: 26 November 2008  
(By registered Mail)

International Registration No: 0950870

Mark: METRO

Holder: MIP METRO Group Intellectual Property GmbH & Co. KG of Germany,

**Notification of the Irish Patents Office of Refusal of Protection**

Dear Sir/Madam,

This notification is issued pursuant to Article 5 of the Protocol relating to the Madrid Agreement concerning the International Registration of Marks and Rule 17(2) of the Common Regulations under the Agreement and Protocol, and is to inform you that protection for this mark is refused for the reasons set out below. Any references to Sections are to Sections of the Trade Marks Act, 1996 and to Rules are to Rules of the Trade Marks Rules, 1996.

**1. Section 39(2) and Rule 6**

The Controller considers the Class 35 specification is not precise and requires further clarification.

There is an error in punctuation in Class 35, which creates confusion as to whether or not some of the items are proper to a goods class. The addition of semi-colons throughout the specification (highlighted in the copy specification which is attached) could give the impression that the items are proper to a goods class and not a service class.

Also, the addition of the phrase 'included in this class' intermittently throughout the specification is out of context and creates confusion as the goods being referred to are not proper to Class 35.

Please note the terms 'all the above appliances included in this class', 'accessories for all the above products', 'parts and components for all the above products', 'parts and components for all the aforementioned goods,' and 'single and spare parts for all the above products included in this class' all require clarification as to the goods and

products you are referring to. Otherwise, these terms should be deleted from the specification.

Within the term 'loudspeakers, in particular loudspeakers for motor vehicles as well', please delete the words 'as well' as they appear out of context.

The term 'bed linen (where included in class 20)' should be deleted. 'Bed linen' is not proper to class 20.

There is an error in punctuation within the following term 'sunblinds, not of metal of textile for internal use ironing boards'.

2. This refusal is in respect of all of the services for which protection is sought.
3. The holder may make representations in writing, or may request an extension of time for doing so, not later than **25 February 2009**. A request for an extension of time received after that date may be granted at the discretion of the Controller.
4. If representations or a request for an extension of time are not received by the specified date, protection of the mark will be refused.
5. Representations to the Controller or a request for a hearing in relation to this notification of refusal must be accompanied by an address for service within the European Community as required by Rule 10 as amended by Statutory Instrument 621 of 2007; failure to furnish such address will result in the holder being deemed to have abandoned his request for protection.
6. If, following the receipt of representations, it is considered that the requirements for protection are met, the mark will be published in the Official Journal and protection of it will be subject to opposition and observations by third parties. A refusal based on opposition or observations received may subsequently be issued.

Date of refusal: 26 November 2008

Yours faithfully

  
Martina Bergin
