Extracts of the Law on Trade Marks and Indications of Geographical Origin

Section 7. Earlier Trade Marks as Grounds for Invalidation of Trade Mark Registration

(1) A trade mark registration may be declared invalid pursuant to the provisions of this Law in the following cases:

1) it is identical to an earlier trade mark, and the goods or services in respect of which the trade mark was registered are identical to the goods or services in respect of which the earlier trade mark was registered; or

2) in connection with its identity or similarity to, an earlier trade mark belonging to another person and the identity or similarity of the respective goods or services, there exists a likelihood of confusion of the trade marks or a likelihood of association between the trade marks on behalf of the relevant consumers.

(2) Earlier trade marks within the meaning of Paragraph one of this Section are:

1) trade marks valid in Latvia, which have been registered under national or international registration procedures, or as European Community trade marks (hereinafter – Community trade mark) in accordance with Council Regulation (EC) No 207/2009 of 26 February 2009 on the Community trade mark (codified version) (Text with EEA relevance) (hereinafter – Council Regulation No 207/2009) if the date of application for registration thereof is earlier than the date of application for registration of the opposed trade mark, also taking into account the priorities accorded to those trade marks; and

2) applications for the registration of trade marks referred to in the previous Clause, provided that they are registered

Section 8. Well-known Trade Marks as Grounds for Refusal or Invalidation of Trade Mark Registration

(1) Notwithstanding the provisions of Section 7, a trade mark registration may be refused or, if registered, the registration may be invalidated under the provisions of this Law, if the trade mark constitutes a reproduction, an imitation, a translation or a transliteration, liable to create confusion, of another trade mark, which, even though unregistered, was well-known in Latvia with respect to identical or similar goods or services, on the date of filing of application of the applied for (opposed) registration of trade mark (or the date of priority if priority has been granted).

(2) In addition to the provisions of Paragraph one of this Section, the registration of a trade mark may be refused or invalidated also if the goods or services regarding which trade mark registration has been applied for are not similar to the goods or services covered by a well-known trade mark in Latvia, provided that the use of the trade mark applied for (opposed) in relation to such goods or services may be perceived by consumers as an indication of a connection between such goods and services, and the owner of the well-known trade mark, and that such use may be detrimental to the interests of the owner of the well-known trade mark.

Section 18. Opposition to the Registration of a Trade Mark

1) Within three months from the date of the publication of a trade mark, interested persons may, upon payment of the applicable fee, submit an opposition to the registration of a trade mark. The opposition shall be filed with the Board of Appeals in writing, substantiated by appropriate arguments and references to provisions of law. After the expiration of the previously mentioned term, the opponent does not have the right to change (expand) the initial legal basis of the opposition, but may, up until the decision of the Board of Appeals is taken, submit additional documents and materials, that confirm (detail) the facts on which the opposition is based.

Section 39. Validity of an International Registration in Latvia

(1) An international registration of a trade mark that has, pursuant to the prescribed procedure, entered into effect in Latvia, shall have the same effect as trade marks that have been entered into the Register pursuant to the procedures specified in this Law (registered with the Patent Office pursuant to national procedures).

Section 39.¹ Activities of the Patent Office in Connection with the Registration Procedure of the Community Trade Mark

(1) The functions of the central industrial property office of a Member State, prescribed by Council Regulation No 207/2009 shall be executed in Latvia by the Patent Office. Registration of the Community trade mark may be applied for through the intermediary of the Patent Office.

[21 October 2004; 14 October 2010]

Section 39.² Legal Effect of the Community Trade Mark Registration in Latvia

(1) Exclusive rights to a trade mark in Latvia shall also be ensured by the Community trade mark registration. The scope of protection of the Community trade mark shall be determined by Council Regulation No 207/2009.

Section 6. Absolute Grounds for Refusal and Invalidation of Trade Mark Registration

(1) The following signs may not be registered as trade marks (if they have been registered, such registration may be declared invalid pursuant to the provisions of this Law):

1) those which cannot constitute a trade mark, that is, signs which do not comply with the provisions of Section 3 of this Law;

2) those which lack any distinctive character with respect to the goods or services applied for;

3) those which consist solely of signs or indications which may serve, in trade, to designate the kind, quality, quantity, intended purpose (functional task), value, geographical origin, or the time of production of the goods or of providing the services, or other characteristics of the goods or services;

4) those which consist solely of signs or indications (general signs) which have become customary in the current language or in fair and established practices of the trade to designate the goods or services applied for;

5) those which consist solely of a shape which is directly determined by the kind of goods (the shape results directly from the nature of the goods themselves), or which is necessary to obtain a particular technical result, or which gives substantial value to the goods;

6) those which are contrary to public order or to socially accepted principles of morality;

7) those which may deceive consumers regarding the nature, quality or geographical origin, or the like, of the goods or services;

8) those which contain signs, the registration of which, would be refused or invalidated pursuant to Article 6-ter of the Paris Convention, including coats of arms and flags of the member countries of the Paris Union, their official hallmarks (assay marks), control and warranty marks, as well as the emblems, flags, and names of international organisations and the abbreviations thereof, without authorisation by the competent authorities;

9) those which, without authorisation by the competent authorities given pursuant to the procedures specified in the regulatory enactments of the Republic of Latvia, contain the official heraldry approved at the State level, national decorations, Official Service insignia, as well as signs for official hallmarks (assay marks), control, quality, warranty, and safety of utilising goods which are used with respect to identical or similar goods or services in Latvia, or any other marks of high symbolic value, as well as religious symbols;

10) with respect to wines - those which contain or consist of an indication of geographical origin identifying wines of particular origin, or with respect to spirits - those which contain or consist of an indication of geographical origin identifying spirits of particular origin, if such is not the genuine place of origin of the wines or spirits for which the trade mark registration has been applied; and

11) those which are intended for the marking of agricultural and food products and contain an indication of geographical origin protected in regard to the same agricultural or food products or consist of such protected indication of geographical origin, if the products for which trade mark registration has been applied, do not have the respective origin or if the use of the sign applied for in connection with these products is contradictory to the regulatory enactments regulating the protection of geographical indications and designations of origin.

(2) A trade mark also shall not be registered or, if registered, may be liable to be declared invalid pursuant to the provisions of this Law if the application for registration of the trade mark was clearly made in bad faith by the applicant.

(3) A trade mark registration may not be refused on the basis of the provisions of Paragraph one, Clauses 2, 3 or 4 of this Section, and shall not be declared invalid on the basis of the same provisions if, as a result of the use of the mark, it has acquired a distinctive character in the perception of the relevant consumers in Latvia with respect to the goods and services for which registration has been applied.
