**Has been adopted:**

**Come into force:**

**Published:**

Vēstnesis, 01.07.1999, Nr. 216

### **Section 7. An Earlier Trademark as Grounds for Invalidation of a Registration**

- (1) A trademark registration may be declared invalid pursuant to the provisions of this Law in the following cases:
- 1) if it is identical to an earlier trademark, and the goods or services for which the trademark was registered are identical to the goods or services with respect to which the earlier trademark was registered;
  - 2) if because of its identity or similarity to an earlier trademark belonging to another person and because of the identity or similarity of the respective goods or services, there exists a likelihood of confusion of the trademarks or a likelihood of association between the trademarks on behalf of the relevant consumers.
- (2) "Earlier trademarks" within the meaning of Paragraph 1 of this Article means:
- 1) trademarks valid in Latvia, which have been registered under national or international registration procedures, with a date of application for registration which is earlier than the date of application for registration of the opposed trademark, also taking into account the priorities accorded to those trademarks;
  - 2) applications for the registration of trademarks referred to in the previous Sub-paragraph, provided that they are registered.

### **Section 8. Well-known Trade Marks as Grounds for Refusal or Invalidation of Trade Mark Registration**

- (1) Notwithstanding the provisions of Section 7, a trade mark registration may be refused or, if registered, the registration may be invalidated under the provisions of this Law, if the trade mark constitutes a reproduction, an imitation, a translation or a transliteration, liable to create confusion, of another trade mark, which, even though unregistered, was well-known in Latvia with respect to identical or similar goods or services, on the date of filing of application of the applied for (opposed) registration of trade mark (or the date of priority if priority has been granted).
- (2) In addition to the provisions of Paragraph one of this Section, the registration of a trade mark may be refused or invalidated also if the goods or services regarding which trade mark registration has been applied for are not similar to the goods or services covered by a well-known trade mark in Latvia, provided that the use of the trade mark applied for (opposed) in relation to such goods or services may be perceived by consumers as an indication of a connection between such goods and services, and the owner of the well-known trade mark, and that such use may be detrimental to the interests of the owner of the well-known trade mark.
- (3) In determining whether a trade mark is well-known, the knowledge of this trade mark in the relevant group of consumers, including such knowledge in Latvia that has been obtained as a result of the advertising of this mark or any other circumstances that have contributed to its fame shall be taken into account.
- (4) In determining in which cases the provisions of Paragraphs one and two of this Section are to be applied to a sign regarding which registration has been applied for or to a registered trade mark, the provisions of Article 6-bis of the Paris Convention regarding a well-known trade mark shall be taken into account, including the provision which provides for the prohibition of the reproduction or the imitation of a well-known trade mark in an essential part of another trade mark; these provisions shall also apply, mutatis mutandis, to service marks.
- (5) The provisions of Paragraphs one and two of this Section regarding refusal of registration during the examination procedure shall not apply if the application for trade mark registration has been filed with the consent of the owner of the well-known trade mark.

### **Section 18. Opposition to a Trademark Registration**

- (1) Within three months from the date of the publication of a trademark, interested persons may, upon payment of the applicable fee, submit an opposition to the registration of a trademark. The opposition shall be filed with the Board of Appeal in writing, substantiated by appropriate arguments and references to the provisions of law. After the expiration of the said term, the opponent does not have the right to change (expand) the initial legal basis of the opposition, but may, up until the decision of the Board of Appeal is adopted, submit additional documents and materials, that confirm (specify) the facts on which the opposition is based.
- (2) Any person may file an opposition, if the registered trademark does not comply with the provisions of Article 3 of this Law, or if the registration would be invalidated pursuant to the provisions of Article 6, or if the provisions of Article 9, Paragraph 3, Sub-paragraph 1 are applicable.
- (3) An opposition based upon the provisions of Articles 7 or 8 of this Law, or Article 9, Paragraph 1, Paragraph 2, Paragraph 3, Sub-paragraph 2, 3 or 4, or Paragraph 4 may be filed by persons who are the owners of earlier trademarks, well-known trademarks, or have other earlier rights, specified in the applicable provisions, or their successors in title, or their representatives.
- (4) An opposition based upon the provisions of Article 8 or Article 9, Paragraph 1, Paragraph 2, Paragraph 3, Sub-paragraph 2, 3 or 4, in addition to the persons referred to in the previous Paragraph of this Article, may also be filed by professional associations and associations of manufacturers, traders and providers of services, whose articles of association provide for the protection of the economic interests of their associates (members), as well as by organisations and authorities, whose purpose, under their articles of association, is consumer protection.
- (5) The Board of Appeal shall inform the owner of the opposed trademark of the opposition and set a term of three months for the submission of a reply.
- (6) If an opposition is not submitted within the term set by the Law, the trademark registration may be contested only in a court.

### **Section 39. Validity of an International Registration in Latvia**

- (1) An international registration of a trade mark that has, pursuant to the prescribed procedure, entered into effect in Latvia, shall have the same effect as trade marks that have been entered into the Register pursuant to the procedures specified in this Law (registered with the Patent Office pursuant to national procedures).
- (2) An international registration of a trade mark shall be deemed not to have entered into effect at all or insofar as the trade mark in question has been refused protection pursuant to prescribed procedures in Latvia.
- (3) The priority of an internationally registered trade mark in Latvia shall be determined by the date when the mark was internationally registered with respect to Latvia, but in cases where the mark, pursuant to the international procedure of registration, has been granted right of priority from its earlier filing date, by such earlier filing date. If the international registration of a trade mark has been extended to Latvia subsequent to the date of its international registration, the priority shall be determined by the date on which it was extended to Latvia. If an international registration has entered into effect in Latvia and replaces, pursuant to the request of the owner and in accordance with the rules on the international registration of trade marks, an earlier registration of the same trade mark effected at the Patent Office, the filing date and the priority date of that earlier registration, effected pursuant to the national procedure, shall be attributed to the internationally registered trade mark in determining its priority.
- (4) The Patent Office shall examine internationally registered trade marks to ascertain their compliance with the requirements of Sections 6 and 8 of this Law. In the case of registration of a collective mark it shall also be ascertained whether the by-laws on the use of the collective mark have been included in the registration, in compliance with the provisions of Section 35, Paragraph four of this Law.
- (5) Opposition to the entry into effect of an international registration of a trade mark in Latvia, as provided for in Section 18 of this Law, shall be filed within four months from the date of publication of a notice of trade mark registration with respect to Latvia (territorial extension to Latvia) in the official gazette of international registration of trade marks.
- (6) If, as a result of an examination, it is determined that an international trade mark does not comply with the requirements of Paragraph four of this Section, or if an opposition has been filed to such registration, the Patent Office shall, within the terms and pursuant to the procedures specified by the rules on the international registration of trade marks, notify the International Bureau of the refusal of the particular international registration (initial refusal). Within three months from the date of receipt of such a refusal, the owner of the international registration is entitled to submit an appeal (a reply to the opposition) as provided for in Section 17.<sup>1</sup>, Paragraph one of this Law.
- (7) The progress of an appeal (reply to an opposition) in the Patent Office shall be carried out pursuant to the provisions of Section 17.<sup>1</sup>, Paragraphs two, three, four, five and six of this Law. The Board of Appeals shall examine the appeals and oppositions submitted in connection with internationally registered trade marks, insofar as the rules on the international registration of trade marks do not have differing provisions, pursuant to the provisions of Sections 18 and 19 of this Law and, in the case of collective marks, also taking into account the provisions of Section 36, Paragraph one.
- (8) The Patent Office shall, pursuant to the prescribed procedures, notify the International Bureau of all the decisions of the Board of Appeals and court judgments which have entered into effect, pursuant to which international registration of a trade mark in Latvia has been invalidated or revoked, in full or in part, or pursuant to which the initial refusal of international registration has been cancelled (changed).

### **Community Trade Mark**

Section 39.<sup>1</sup> Activities of the Patent Office in Connection with the Registration Procedure of the Community Trade Mark

- (1) The functions of the central industrial property office of a Member State, prescribed by Council Regulation No 207/2009 shall be executed in Latvia by the Patent Office. Registration of the Community trade mark may be applied for through the intermediary of the Patent Office.
- (2) The Patent Office shall perform the verification of the authenticity of the decision of the Office for Harmonisation in the Internal Market (trade marks and designs) provided for in Article 86 (2) of Council Regulation No 207/2009 for the enforcement thereof in Latvia.

[21 October 2004; 14 October 2010]

Section 39.<sup>2</sup> Legal Effect of the Community Trade Mark Registration in Latvia

- (1) Exclusive rights to a trade mark in Latvia shall also be ensured by the Community trade mark registration. The scope of protection of the Community trade mark shall be determined by Council Regulation No 207/2009.
- (2) If seniority (special type of priority) is granted to a Community trade mark in accordance with Articles 34 or 35 of Council Regulation No 207/2009, based on the respective earlier trade mark, registered in Latvia or registered internationally and extended to Latvia, then the filing date and priority date of the trade mark registered in Latvia or the priority of the respective trade mark registered internationally (Section 39, Paragraph three) shall be applied to such Community trade mark, determining the priority thereof in Latvia. The seniority granted to the Community trade mark shall be retained if the registration of the respective trade mark of Latvia or the international registration of the trade mark, which is extended to Latvia is cancelled on the initiative of the owner of the trade mark (surrender of registration) or in connection with the expiry of the term of validity thereof (exclusion from the Register).
- (3) Registration of a trade mark which has been the basis for the seniority of the Community trade mark, may be invalidated or revoked even following the expiry of the term of validity of this registration or if the registration is cancelled on the initiative of the owner of the trade mark, on condition that the respective grounds for invalidation of the registration of the trade mark or the revocation were present during the validity of the registration.

**Section 39.<sup>3</sup> Additional Provisions for the Protection of the Community Trade Mark**

- (1) An opposition to the registration of a trade mark (Section 18) and the claim for invalidation of the registration of a trade mark (Section 31) apart from the earlier rights provided for in Sections 7, 8 and 9 of this Law may also be justified with an earlier identical or similar Community trade mark, which has a good reputation in the European Community and which is registered for goods or services which are not similar to those goods and services, which have a trade mark registered later (contested), but on condition that the use of the later trade mark without due cause takes unfair advantage of, or is detrimental to the distinctive character or the reputation of the Community trade mark or that such use of the later trade mark may be seen by consumers as a sign of connection between these goods and services and the owner of the referred to Community trade mark and such use may be detrimental to the interests of the owner of the Community trade mark. Such opposition and such claim may be submitted by the owner of the Community trade mark (or his or her successor in title) or his or her representative.
- (2) In case of the illegal use of the Community Trade mark, the provisions of Sections 27 and 28 of this Law, the Civil Procedure Law and the provisions of other regulatory enactments shall be applicable, unless otherwise specified by Council Regulation No 207/2009.
- (3) If, based on the rights arising from the registration of the Community trade mark, the registration of a later trade mark is contested, which is performed observing the procedures for the registration of trade marks specified by this Law, or in accordance with the rules on the international registration and is extended to Latvia, or if the use of such later trade mark is contested, the provisions of Section 29 of this Law regarding the restrictions of rights as a result of acquiescence shall be observed.

*[21 October 2004; 14 October 2010]*

**Section 39.<sup>4</sup> Additional Provisions for the Use of the Community Trade Mark**

- (1) If, based on an earlier Community trade mark, an opposition is submitted against the registration of a trade mark (Section 18) and the owner of the contested trade mark uses the rights to request evidence of the use of the earlier trade mark (Section 19, Paragraph seven), the provisions of Article 15 of Council Regulation No 207/2009 shall be observed.
- (2) Pursuant to the provisions of Article 165 (5) and Article 110 (1) of Council Regulation No 207/2009, the owner of the earlier rights obtained in good faith in Latvia may prohibit the use of the Community trade mark which has been registered or submitted for registration prior to 1 May 2004.
- (3) If the Community trade mark is involved in a process of the legal protection of a commercial company or the process of insolvency in Latvia, pursuant to the provisions of Article 21 of Council Regulation No 207/2009, the necessary entries to be made by the Office for Harmonisation in the Internal Market (trade marks and designs) in the Community Trade Mark Register or, if the Community trade mark has not yet been registered, in the application materials, may be requested on the basis of a court decision.
